Swami Vivekenanda was born in Calcutta on the 12th of January, 1865 and peacefully pessed away on July 4, 1902 3' in the Monastry at Belur Math. near Calcutta. After remaining an unknown figure for nearly thirty years of his life he emerged as a World Teacher in the true sease of the term and blassed innumerable souls all over the globe

It was on January 27, 1900 during his second wint to America that Swami Virekanande delivered to the Shakespeare Club of Passdean, Cahlornis, somewhat relocatedly a touching account of "My life and Missoo". In it the Swami naturally gave out vary hittle of his great and eventful his Fortunately for us however, we are able to gather a fund of information about his his and work in the East and the West from the large number of his latters to his daciples friends and edimirers in both the Hemispheres as also from a few other vary reliable sources.

10 The Last Days ...

## CHAPTER I

The present writer is an insignificant servant of Sri Ramakrishna I am not abhamed of my race, nor my birth or nationality. Sam proud of my race, proud of my sace, stored of my sace, stored of my sace store, I am proud to call myself a Hindu. It has been one of the principles of my life not to be satismed of my own ancestors. I am one of the prouders men ever born, but let me tell you frankly, it is not for myself, but on account of my ancestry. The more I have studied the past, the more I have looked back, more and more has this pride come to me and it has given me the strength and courage of convection raised me up from the dust of the earth and set me working out the great plan laid out by those great ancestrors of ours.

My father and mother farted and prayed for years and years, so that I would be born

Thave such a memory when I was only two years old lived to play with my sive, at being a Parray, clothed in ables and Kasman. And if a Sadhu came to bee, they would livek me in upstains to prevent my greing too much wary. I felt that for some muchack, I bud had to be sent wary. I felt that for some muchack, I bud had to be sent away from Siva. No doubt my family interested this feeling, for when I was mughty they would say. "Dear, dear, so many assections, yet Siva sent us the demon after all, instead of a rod soul." Or when I was negry rebellious, they would impive a can of water over my, asying Siva's Social doubt may almost a Always, even now, when I feel michorson, those world kept my straight.

When I was a little boy at school, I had a fight wit another fellow about some sweetmeats, and he being the stronger boy, snatched them from my hand I remembe the feeling I had, I thought that boy was the most wicker boy ever born, and that as soon as I grew strong enough I would punish him. There was no punishmen sufficient for his wickedness We have both srow.

up now and we are fast friends. This world is full of babies to whom eating and drinking and all these little cakes are everything. They will dream of these cakes, and their idea of future life is where these cakes will be plentiful.

What I saw and felt (on my way to Raspur in 1877)\*

when going through the forest, has for ever remained itimaly imprinied on my memory, particularly one event of one day. We had to travel by the foot of the Vindhya mountains of high peaks on that day. The peaks of the Ranges on both sides of the road were very high in the sky, bending under the weight of fruits and flowers. Various kinds of crees and creepers produced wonderful beauty on the sides of the mountains, birds of various colours flying from arbour to arbour or down on the ground in search of food, filled the quarters with sweet.

<sup>&</sup>quot;in the year 1877, while Vrvekananda (then Noren) was a student eitherdelass, has father went to Raspur in the Central Provinces (Midoly Faceless). He arranged that this family should follow his later called by Naren. It was a sourcer parryly by bullock cart via Albabas<sup>1</sup> and Jobulopne through dense foresters and over anticegands roads, for the rashways were in those days constructed dutybook Nargur.

notes. I saw all these and felt an extraordinary peace my mind. The slowly moving bullock care arrived at a place where two mountain peaks coming forward as in love, locked themselves up in an embrace over the narrow forest path Observing carefully below the meeting points. I saw that there was a very big cleft from the crest to the foot of this mountain on one side of the path. and filling that cleft, there was banging on it an enormous honeycomb, the result of the bees' labour for ages Filled with wonder, as I was pondering over the beginning and the end of that kingdom of bees, my mind became so ! much absorbed in the thought of the infinite power of God, the Controller of the three worlds, that I completly lost my consciousness of the external world for some time. I do not remember how long I lay in the bullock cart in that condition. When I regained external consciousness, I found that we had crossed that place and come far away. As I was alone in the care, no one could know anything about it

We cannot deny that there is much misery in the world, to go out and help others is, therefore, the best thing us can do, although in the long tun we shall find that helping others is only helping outselves. As a boy I had some which had little wheels made for them, and when the mice tried to cross the wheels, the wheels turned and turned, and the mice never got anywhere. So it is with the world and our helping it. The only help is that we get moral exercise

When he (my tutor) came to our house, I brought my English and Bengali Books to him and showing him these portions of the books, as if he was himself learning

which part of which books were to be learnt that day, lay or sat freely. The teacher repeated twice or thrice the spelling, pronunciation, meaning etc. of the words of

his own lesson and went away. That was sufficient for me to learn them.

Even while I was a student at Calcutts, I was of a religious temperament. I was critical, even at that time of my life, mete words would not assist me.

I used to see all my life a wonderful point of light

between my eyebrows as soon as I would shut my eyes in order to go to sieep, and observe attentively its various changes. In order that it might be convenient to see it. I used to lie on my bed in the way people bow down touching the ground with their foreheads. That extraordinary point used to change its colours, and increasing in suc, become gradually converted into the form of a ball, and bursting at list, cover my body from head to foot with white lequid light. As soon as that happened, I lost extrenal concounners and fell sidep. I believed

that all people went to sleep that way. I was long under that impression.

When I grew up and began to practige meditation, that point of light used to come before me, first of all, as soon as I closed my eyes, and I concentrated my mind on it. In those days I duly practicated meditation with a few friends according to the interuction of Maharthi Devend-

sonn as I closed my eyes, and I concentrated my mind on it. In those days I dealy practised medication with a few fined a scooling to the instruction of Miharih Devenderanath. We talked among ourselves about the nature of visions and experiences each of or had. At that time I came in know from what they said that they never had

the vision of such light and that none of them went to sleep in that way.

From my very boyhood I was a dare-devil sort of fellow Otherwise do you think I could make a tour round the world without a single copper in my pocket?

While at school, one night I was meditating within closed doors and had a fairly deep concentration of mind. How long I meditated in that way, I cannot say.

it was over, and I still kept my seat, when from the southern wall of our room a luminous figure stepped out and stood to front of me. There was a wonderful radiance on its visage, yet there seemed to be no play of emotion on it. It was the figure of a sanyasin absolutely calm, shaven beaded, and staff and kamandalu (a sanyasin's wooden water-bowl) in hand. He gazed at the for some time, and seemed as if he would address me. I too gazed at him in speechless wonder. Then a kind of fright seized me. I opened the door and hurried out of the toom. Then it struck me that it was foolish of me to run away like that, and that perhaps he might say something to me. But I have never met that figure since. Many a time and often have I thought if I could again see him. I would no more be afraid but would speak to him, But I met him no more: I could find no clue to its solution. Ir was the lord Buddha whom I saw Lord Buddha is my Ishtam. my God. He preached no theory but Godhead; he was himself God. I fully believe it. All my life I have been very fond of Buddha. I have more veneration for that character than for any other. Of course, I do not endorse all his philosophy. I want a good deal of metaphysics for differ, is that any reason why I should not see the bea of the man." I with I had one colonicatural part Buddha's beart. Buddha may or may not have believed God, that does not matter to me. He reached the sa state of perfection to which others come by Brakin, is

I am not a Buddhist, and yet I am

of God, Yoga or Inana

From my very boyhood, whenever I came m contiwith a particular object, man or place, it would anoneur appear to me as if I had been acquainted with it below hand. But all my efforts to recollect were unsuccessfund yet the impression persisted. I will give you an it stance. One day I was discussing various topics with in friends at a particular place. Suddenly something we said which at once reminded me that in some time past this very house I had talked with these friends on the

very subject and that the discussion had even taken it same turn. Later on I thought that it might be due to the law of transmigration. But soon I decided that suc definite conclusions on the subject were not reasonable. Now I believe that before I was born I must have ha visions somehow of those subjects and people with who I would have to come in contact in my present birth 3. That memory comes, every now then, before me through

out my whole life.

Just two or three days before the Entrance examination I found that I hardly knew anything of feometry.

Then I began to study the subject keeping awake for th

whole night and in course of twenty four hours I mastered the four books of geometry

It so happened that I could understand an author Not whom reading his book line by line I could get the meaning by just reading the first and the last line of a paragraph As this power developed I found it unnecessary to read even the paragraphs. I could follow by reading only the first and last lines of the page.

Further, where the author introduced a discussion to explain a matter and it took him four or five or even more pages to clear the subject, I could grasp the whole trend of his arguments by only reading the first few lines

I remember that the year I graduated, several girls came our and graduated—the same standard, the same course, the same in everything as the boys, and they did very well indeed.

I studied hard for twelve years, and became a graduate of the Calcutta University.

All of us have heard of extraordinary happenings, many of us have had some personal experience of them. I would tell you certain facts which have come within my own experience.

I once beard of a man who, if any one went to him with questions in his mind, could answer them immediately, and I was also informed that he foretfald event. I was curious and went to see him with a few friends. We each had something in our minds to ask, and to avoid mittakes, we wrote down our questions and put them in our pockets.

As soon as the man saw one of us, he repeated not questions and gave the answers to them. Then he wrote something on paper which he folded up, asked me to sign on the back and said. Don't lock at it. Put it in your pocket and keep it till I ask for that again." And so to each one of us. He next to'd us some ever's that would happen to us in future. Then he said. 'Now think of a word or sentence from any language you like " I shought of a long sentence from Sanskiit, a language of which he was entirely ignorant "Now take out the paper from your pocket," he said. The Sanskrit sentence was written there! He had written it an hour before with the remark. "In confirmation of what I have written, this man will think of this sentence" It was correct. Another of us who had been given a similar paper which he had signed and placed in his pocket, was also asked to think of a sentence. He thought of a sentence in Arabic, which it was less possible for the man to know, it was some passage from the Koran And my friend found this written down on the paper? Another of us was a physician. He thought of a sentence from a German medical book. It was written on his paper. Several days later I went to this man again, thinking possibly I had been deluded somehow before I took other friends and on this occasion also

As soon as I went to bed, two ideals appeared before me every night since I had reached my youth One vision presented me as a person of endless wealth and property, innumerable servants and dependants, high rank and dignity, great pomp and power and I thought I was seated at

he came out wonderfully triumphant.

These two poctures, according to which I could mould my life in two different ways, thus acree in my mind. But the latter would grop the mind in the end. I thought that the latter would grop the mind in the end. I thought that would follow this path and not the other. Brooding on the happiness of such a life, my mind would then merge in the contemplation of God and I would fall salesp. It is a matter of astonishment that it happened to me, every night for a long time.

I never terrified children by speaking of hobgobins as I was afraid of uttering a falsehood, and scolded all whom I saw doing it. As the result of English education and my frequenting the Brahmo Samaj, the devotion to verbal expression of truth had increased so much then.

At the beginning of this century (19th) it was almost feared that religion was at an end. Under the tremendous sledge-hammer blows of scientific research, old superstitions were crumbling away like masses of porcelain. Those to whom religion means only a bundle of creeds and meaningless ceremonials were in despair; they were at their with end. Everything was slipping between their injects. For a time it seemed inevitable that the

surging tide of agnosticism and materialism would sweep all before it. When I was a boy, this scepticion restrict me, and it seemed for a time as if it mut give up all beyes of religion. But, fortunately for me. I studied the Christian religion, the Moliammedan, the Buddhist and others, and what was my surprise to find was that the same ton-damental principles taught by my religion were also taught by all religions. It appealed to me this way. What is the ruth! I asked

When I was a boy here, in the city of Calcutta, I used to go from place to place in search of religion, and everywhere I asked the lecture/lifer hearing very big lectures, "Have you seen God?" The man was taken abuck at the idea of seeing God and the only man who told me." I have "was Ramakrishna Paramahania, and not only so, but he said." I will put you on the way of seeing Him too."

Sri Ramkrishna was the son of a very orthodox Drahmin, who would refuse even a gift from any but a special caste of Brahmins

Owing to the extreme poverty of his family Sri Ramakrishna was obliged to become in his boyhood a priest in a temple dedicated to the Divine Mother, also called Prakritt or Kali, represented by a female figure standing with feet on a male figure, indicating that until Maya lifts, we can know nothing .....

The daily service of the Mother Kali gradually awakened such intense devotion in the heart of the young priest that he could no longer carry on the regular temple worship, so he abandoned his duties and retired to a small woodland in the temple compound, where he gave himself up entirely tolmeditation. These woods were on the bank of the Ganges and one day the swift current carried its his very feet just the necessary materials to build him a little but. In this he stayed and wept and prayed, taking no thought for the care of his body or for aught except his Divine Mother. A relative fed him once a day and watched over him. Later came a weaman Sanyasinion was account to help him find his 'Mother'. Whatever teachers he needed came to him unsought. From sevey sections old stant would come and offer to teach him and to each he listened eagerly. But he worshipped only Mother. All to him was Mother.

He is born to no purpose, who, having the privilege ill being born a man is unable to reslice God in this life

the truth. If I cannot be taught m one language, I w try another, and so on." Thus his benediction was f every religion.

I remember visually no first assist to him. It was the temple garden at Dakshineshwar in his own coor. That day I sang two songs. He went into Soradhi. He said to Ram Babu. 'Who is this boy? How well be sings!' He asked me to come again.

People came by thousands to see and hear the worderful man who spoke in patons, every word of white was forceful and institute with light. This man came e live near Calcutta, the Capital of India, the most import ant University town in our country, which was sending out sceptics and materialists by the hundreds every year Yet many of these University men, seeptics and agnostics used to come and listen to him. I heard of this man and I went to hear him. He looked just like an ordinary man with nothing remarkable about him.

Well. I sang the song, but shortly after, he suddenly rose and taking me by the hand led me to the northern verandah, shutting the door behind him. It was locked from the outside, so we were alone. I thought he would give me some private instructions. But to my utter surprise he began to shed profuse tears of joy as he held my hand, and addressing me most tenderly as one long familiar to him, said "Ab, you come so late! How could you had the said "Ab, you come so late! How could you for the said the said which we had a said the said the

who can appreciate my innermost experience!" Thus he went on amid sobs. The next moment he stood before me with folded hands and began to address me, "Lord," know that you are that ancient Sage, Nara, the Incarnation of Narayana-born on earth to remove the miseries of Mankind! and to on!

I was altogether taken aback by his conduct "Who is this man whom I have come to see?" I thought, "he must be atark mad Why, I am but the son of Vishwana-tha Dutta and yet he dares to address me thus?" But I kept quite allowing him to go on Presently he went back to his room, and bringing some sweets, sugar-candy and butter, began to feed me with his own hands. In vain did I say again and again, "Please give the aweets to me I shall share them with my (irrends!". He simply said, "They may have some afterwards," and desisted only after I had eaten all Then he served me by the band and said, "Promise that you will come alone to meat an early date." At his importunity I had to say "Yes", and returned with him to my friends!

I sat and watched him. There was nothing wrong in his words, movements or behaviour towards others. Rather from his spiritual words and ecitatic states, he seemed to be a man of genume renunciation, and there was a marked consistency between his words and life. He used the most simple language, and I thought, "Can this man be a great teacher?" I crept near him and atled him the question which I had asked so often. "Have you seen God Sir?" "Yes, I see him just as I see you here, only in a much intenser sense" "God can be

the truth. If I cannot be taught in one language, I w try another, and so on " Thus his benediction was f every religion

I remember vividly my first visit to him. It was the temple garden at Dakshineshwar in his own root That day I sang two songs. He went into Samadhi. I said to Ram Babu, "Who is this boy? How well I sings!" He asked me to come again.

People came by thousands to see and hear the wonderful man, who spoke in parots, every word of white was forceful and instituce with light. But I did not know anything of this I was sound asleep in our Calcutta house.

I did not realise then that the temple garden of Dakshineshwar was so far from Calcutta, as on the previous occasion I had gone there in a carriage The road seemed to be so long as to be almost endless. However. I reached the garden somebow, and went straight to Sri Ramkrishna's room. I found him sitting alone on the bedstead. He was glad to see me and calling me affectionately to his side, made me sit beside him on his bed. But the next moment I found him overcome with a sort of emotion. Muttering something to himself, with his eyes fixed on me, he slowly drew near me. I thought he might do something queer as on the previous occasion. But in the twinkling of an eye he placed his right foot on my body The touch at once gave rise to a novel experience within me With my eyes open I saw that the walls and everything in the room, whitled rapidly and vanished into naught and the whole Universe together with my individuality was about to merge in an all - encompassing mysterious void! I was terribly frightened and thought that I was facing death, for the loss of individuality meant nothing short of that Unable to control myself I cried out, "What is it that you are doing to me. - I have my parents at home." He laughed at this and stroking my chest said, " All right, let it rest now. Everything will come in time." The wonder of it was that no sooner he had said this than that strange experience of mine vanished. I was myself again and found everything within and without the room as it had been before-

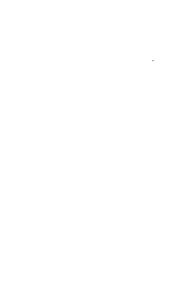

But I did not know snything of this I was sound asleep in our Galcutta house.

I did not realise then that the temple garden of Dakshineshwar was so far from Calcurta, as on the prewious occasion I had gone there in a carriage. The road seemed to be so long as to be almost endless. However, I reached the garden somehow, and went straight to Sri Ramkrishna's room. I found him sitting alone on the bedstead. He was glad to see me and calling me affectionately to his side, made me sit beside him on his bed. But the next moment I found him overcome with a sort of emotion. Muttering something to himself, with his eyes fixed on me, he slowly drew near me I chought he might do something queer as on the previous occasion. But in the twinking of an eye he placed his right foot on my body. The touch at once gave rise to a novel experience within me. With my eyes open I saw that the walls and everything in the room, whirled rapidly and vanished into naught and the whole Universe together with my individuality was about to merge in an all - encompassing mysterious void! I was terribly frightened and thought that I was facing death, for the loss of individuality meant nothing short of that. Unable to control myself I cried out, "What is it that you are doing to me .. I have my parents at home." He laughed at this and stroking my chest said, " All right, let III rest now, Everything will come in time." The wonder of it was that no sooner he had said this than that strange experience of mine vanished. I was myself again and found everything within and without the room as it had been beforethought, "What could it possibly be? It came and we at the mere wish of this wonderful man". I began question if it were measurements or bypnotism. But it was not likely, for these acted only on weak minds, any prided myself on being just the reverse. I had n as yet surrendered myself to the stronger personality the min, rather I had taken him to be a monominate, to what might this sudden transformation of mine be du I could not come to any conclusion. It was an enigma, thought, which had better not attempt to solve. I we determined, however, to be on my guard and not to git him another chance to agreet similar influence over me,

The next moment I thought how can a man we shatters to process a resoluter and strong mund like mine! dimmissed as a lunatic? Yet that was just the conclusion at which one would arrive from his effuvieness on or first meeting, unless he was an Incarnation of God, which was indeed a far cry. So, I was indiction of God, which was indeed a far cry. So, I was indiction as bout the ternature of my eartherece as well as the truth about the ternature of my eartherece as well as the truth about the ternature of my eartherece as well as the truth about the ternature of my eartherece which are in a supplied as child. My reasonaistic mind received an unpleasant rebuff at this failure in judging the true state of things. But I was determined to fathom this mystery simebow.

Thoughts like these occurred my mind during the whole of that day. Fur he became quite another marafter that incident, and as on the previous occasion truted no with great hadness and cordulary. His behavious towards me was like that of a man who meets an old

friend or relative after a long separation. He seemed not to be satisfied with entertaining and taking all possible care of me. This remarkably loving treatment drew me all the more to him. At last, finding that the day was coming to a clone, I saked his leave to go. He seemed very much dejected at this and gave me his permission only after I had promised to come again at my earliest convenience.

One day in the temple garden of Dakshineshwar, Sti Ramakrishna touched me over the beart, and first of all I began as see that the houses, rooms, doors, windows, verandahs, the trees, the sun, the moon, all were flying off, shattering to pieces as it were, reduced to atoms and molecules, and ultimately became merged in the Akasha Gradually again, the Akasha slov vanished, and after that my consciousness of the ego with it, what happened next I do not recollect I was at first frightened. Coming from that stack, again I began to see the houses, doors, windows, verandahs, and other things. On another occasion I had exactly the same realisation by the side of a lake in America.

How can you call this a derangement of the brain I when it comes neither as the result of delinium from any disease nor as an illusion produced by various sorts of queer breathing exercises, but when it comes to a normal man in full possession of his health and wirs? Then again, this experience is in perfect harmony with the Vedas I rails occincides with the words of railstand of the inspired Rishs and Acharyas of old. Do you take me, ar less to be a crack-brained map?

This knowledge of oreness is what the Sasteas are of as realization of the Bindman, by knowing which, or grainful of fear, and the shackles of little and objects for ever. Having once realized that supreme bit one is no more overwhelmed by pleasure and pain

That surreme bliss fully exists in all, from Brahma

down to the blade of geas Beng again and again entangled in the intiticate mare of delusion and hard he by softows and afflictions, the eye will turn of itself to ne's own real nature, the inner felf. In Trowing to the presence of this slenie to blass in the heart, that may fetting hard shocks one after another, turns his eye inwards - to his own self. A time it is use to come to everyone, without exception, when he will do so, to on it may be in this life, to another, after thousands o incatnations.

I did not heastate to use hatch words for his (Sin Ranajing that if he constantly thought of me he would become like me. - Just like king Bhrataha of the old begond, who so dored upon his pet deer that even at the legend, who so dored upon his pet deer that even at the

I did not bestate to use harsh words for his (Sr. Ramakrishias) bind lose for me I used to warn him saying that if he constantly thought of me he would become like me.-Just the king Bharatha of the old legend, who so dored upon his pet deer that even at the time of death he was unable to think of anything else, and, as a result, was born as a deer in his next life. At these words, Sri Ramakrishna, so simple was he, became very nervous, and said. "What you say is quite true, what is to become of me, for I cannot beat to be separated from you". Sadly dejected, he went to the Kali Temple, whence he returned in a few minutes imming and said, "You rougue, I would not histen to you any more. Mother says I love you because I see the Lord in you, and the day I shall no longet do so, I thall not be

able to bear even the sight of you". By this short and emphatic statement he dismissed once for all everything that I had ever said to him on the subject.

One day he sand to me, "You can see Kushna in your, heart if you want." I replied, "I don't believe in Krishna or any such nonsensel". Once I said to him, "The form of God and things like that which you see in your visions sre all figments of your magnation". He had so much tath in my words that he went to the Driven Wichter in the Temple and told Her what I had said to him. He siked Her, "Are these hallucinations then?" Afterwards he said to me, "Mother told me that all these are real".

Again, he said to me, "When you sing. He who dwells here (touching his heart) like a snake, hisses as it were, and then spreading the hood, quietly hold himself steady and listens to your music."

He has no doubt said many things about me

And how can Sri Ramakrishna's words prove false?

We (Sri Ramakrushna and I) talked of our revealed book, the Vedas, of the Bible, of the Quoran and of the revealed books in general. At the close of our talk this good man asked me to go to the shelf and take up a book. It was a book which, among other things, contained a forecast of the rainfall during the year. The sage said, "Read that". And I seed our the quantity of tain that was to fall. He said, "Now take the book and squeeze it". I did so and he said, "Why my boy, not a drop of water comes out. Until the water comes our it sail a book, book. So until your religion maker you

realise God. It is useless He who studies books only for religion reminds one of the fable of the ass which carried a heavy load of sugar on its back but did not know the sweetness of it."

I did not believe in anything At first I did not seccept most of what the Master said One day he asked me, "Then, why do you come here?" I replied, "I come here to see you, not to listen to you". He was very much pleased

One day when I was alone with him, he said some-

thing to me. Nobody else was present He said, "It is not possible for me to exercise occult powers, but I thill do so through you What do you say?" "No", I replied "you can't do that!"

I used to laugh at his words I told him that his vision of God was all halfucination of his mind.

He said to me, "I used to climb to the road of the Kuth, and cry, "O, Devotees where are you all? come to me; Ol Devotees, I am about to die. I shall certainly die if I do not see you And the Divine Mother told me, "The devotees will come." You see everything is turning out to be true." What else could I say? I kept quiet

I used to follow my own whim in every thing I did.

The Master never interfered I became a member of the Sadharan Brahmo Samaj.

The master knew that women attended the meeting of the Brahmo Samaj A man cannot meditate with women sitting in front of him, therefore he criticised the

mediation of the Brahmo Samaj Bur he Gidn't object to my going there. But one day he said to me, "Don' tell Rakhal about your being a member of the Brahmo Samai, or he too will feel like becoming one"

I had connection with Pandit Shivanath Shatts' Patty but only on points of social reform. Of course is religious matters even with my fixend Punditis, I differed much, -the chief being, I thinking Sanyasa or giving us the world as the highest ideal and he a sin So the Brahmo Sampaists consider becoming a monk a sin!

I never identified myself any way with Mr Mazum dar's party-chief (Keshab Chandra Sen), former leade of the Brahmo Sama) If he says so, he does not spea the truth.

When I found that the master dad not bestow the kind of grace on them (my frends) which he had don on me by accepting me and instructing me in religion, used to ask him importunately to bestow it on the On account of boysis frivolty. I became tesdy on main occasions so argue with him. I said, "Why Sir, God indeed never so partial that He will bestow His grace is some and not on others. Why should you then m accept them as you have done me?. In it not certain that one can attain spirituality and realise God if of wills and makes an effort just as one can become learned Pands if he puris forth an effort? The Mast. replied, "What can I do my child? Mother aboves me that there is the bestif mental attitude of a bull in them they cannot realine spirituality in this life. What can I

One day as soon as I went to Dakshineshwar, Master gave me those books (on non-dualism) iii rewhich he forbade others to. Amongst other books copy of Ashtavakra Samhita was in his room. Wh the master found anyone reading that book he wou forbid him to do so and would give him instead su books as "Mukts and how to attain it," "The Bhagas Gita," or some Purana. But scarcely had I gone to h when he took out the book and asked me to read it Or. would ask me to read some part of Adhyatma Ramaya which was full of non-dualistic ideas. I said, and som times in an outspoken way, "What is the use of readi this book? It is a sin even to think 'I am God': the boo teaches the same blasphemy. It should be burnt". T Master smiled and said, "Do I ask you to read it yourself? I ask you to read a little to me. Please do That being the case, you will not have to think that yo are God". So, I had to read a little for him at h request.

This magic touch of the Master that day immediately brought a wonderful change over my mind I was stupified to find that really there was nothing in the Universe but God! I saw it quite clearly but kept silent to see if the idea would last. But the impression did not share in the course of the day I returned home, but there too everything I saw appeared to be Brahman. I sat down to take my meal, but found that everything the food, the plate, the person who served and even myself was nothing but That I ate a morsel or two and sat still I was startled by my mother's words, "Why do you sit still? - finish your meal," and I began to eat again. But all the while whether eating or lying down or going to college. I had the same experience and felt myself always in a sort of comptose state. While walking in the streets, I noticed cabs plying, but I did not feel inclined to move out of the way. I felt that the cabs and myself were of one stuff. There was no sensation in my limbs which I thought were getting paralysed. I did not relish eating, and felt as if somebody else were eating Sometimes I lay down during a meal and after a few minutes got up and again began to eat. The result was that on some days I would take too much, but it did me no harm. My mothet became alarmed and said that there must be something wrong with me She was afraid that I might not live long. When the above state altered a little, the world began to appear to me as a dream While walking in cornwallis Square, I would strike my head against the iron railings to see if they were real or only a dream. This state of thing continued for some days. When I became normal again I realised that I must have had a glumpse of the Advaita State Then it struck me that the words of the scriptures wer not false. Thenceforth I could not deny the conclusion of the Advasta Philosophy

For the first time I found a man who dared 100.32 that he saw God, that religion was a reality, to be felt to be sensed in an infinitely more intense way than we can sense the world I began to go to that man, distinct day, and I settually saw that religion could be given Once touch, one glance, can change a whole life. I have read about Buddha and Christ and Mohammed, about all those different lumanatures of ancient times, how they would stand up and 137, "Be thou whole," and the man became whole. I now find it to be true and when I

myself saw this man, all scepticism was brushed side. It could be done and my master used to say, "Religion can be given and taken more cangibly, more really than anything else in the world."

The second sides that I learned from my master, and which in perhaps the most vital, is the wonderful truth that the religious of the world are not contradictory or antagonistic, they are but various phases of one Eternal Religion, as applied to different places of existence is applied to the opinions of

various minds and various races

In the presence of my master I found out that man
could be perfect even in this body.

Devotion as taught by Narada, he used to preach to the masses, those who were incapable of any higher

Ξ

training He used generally to teach dualism. As a rule, he never taught Advantism. But he taught it to me. I had been a Dualist before.

Srt Ramakrishna once told me that not one in twenty milltons in this world believe in God I asked him why, and he told me "Suppose there is a thief in th toom and he gets to know that there is a mass of gold the next com, and only a very thin partition betwee the rooms, what will be the condition of that thefe' answered, "the will not be able to sleep at all. His bra will be actively thinking of some means of getting at the gold and be will shink of nothing else". Then he reph "Do you be jueyey that a man could be lever in God a not go mad with Tim? If a man smortely believes the there is that immense, infinite mine of bliss, and that can be reached, would not that man go mad in struggles to reach it? Strong faith in God and the conjunt is struggles to reach it? Strong faith in God and the conjunt is selected.

One day at that time I spent a night with the M. ter at Dikthineshwar. I was atting quiet for some ill under the Panchavati, when the Master suddenly car there and catching hold of my hand, said smiling. "Yt intellect and learning will be examined today; you bi passed two and a half examinations\* only A teacher w has passed three and a half has continue today. Comme see how you fare in conversation with him." Nol.

Narendranath was then studying for his BA Examination Sti M, had passed that examination and was atudying I (BL). The Masterput these facts in that way

Volens, I had to go with the Master. When I reached his room and was introduced to M. (Mahendra Nath Gupta) I began to talk with him on various subjects. Having thus engaged us in a talk, the Master sat silent and went on listening to our words and observing us Afterwards, when Sir M. took leave and went away, be said. "What matters it, even if he has passed those examinations? The teacher is womanish in character-shy. He cannot talk with emphasis." Thus putting me sgainst others, the Master engoved the fun.

I might not have gained anything else by this practice of religion (shortly after I had met the Master), but it is certain that I have gained control over my terrible anger by His grace. Formerly I used to lose all control over myself in rage and was seized with repentance afterwards. But, now if anyone does me a great harm or even beats me severely, I don't become so very angry.

One day during one of my early visits, the Master in an estatic mood said to me, "You have come!" "How amazing". I said to myself, "it is as if he had known me for a long time". Then he said to me, "Do you ever see light"? I replact, "Yes, Sir, before I fall saleep I feel mething like a light revolving near my forehead."

I used to see it frequently. In Jadu Mallick's garden suse the Master one day touched me and fourmored smething to himself. I became unconscious. The effects it the touch lingered with me a month like an intoxication.

When he heard that a proposal had been made about my marriage, he wept, holding the feet of the image of Kali. With tears in his eyes he prayed to the Divine Mother, "O Mother!, please upset the whole thing, don't let Narendra be drowned"

One day grandmother overheard my Master speaking in you one about the efficacy of a chibate life. She told of this to my prents. They became greatly concerned lest I should renounce the world, and were increasingly annous that I should marry. My mother was especially fearful lest time I should leave the family to take upon myself the vows of a monestic life. She often spoke of the matter to me, but I would give a casual reply. But all their plannings for my marriage were frustrated by the strong will of the Master. On one occasion all negotiations of marriage were settled, when a perty difference of obinion arose and the entergement was broken.

Then came a terrible time for me personally and for all the other boys who used to frequent Srr Ramakrishna an well. But to me came such misfortune! My father died at that time, and we were left poor.

After my father's death my mother and my brothers were starving. When the master met Advance Guha one day, he said to him. "Natendra's father has died. His family is in a state of privation. Il would be good if his friends believed him now with money.

Annada

After Assemts had left, I scolded him. I said, "Why did you say all these things to him"? Thus rebuked, he wept and said, "Alast for your sake I could beg fro door to door." He tamed us by his love.

Even before the period of mourning (after my father death) was over I had to knock about in search of a jo Starving and barefooted I wandered from office to office under the scorching noon-day sun with an application i my hand, one or two intimate friends, who sympathise with me in my misfortunes, accompanying me sometime But everywhere the door was slammed in my face. The first contact with the reality of life convinced me thi unselfish sympathy was a rarity in the world. There wa no place in it for the weak, the poor and the destitute. noticed that those who only a few days ago would have been proud to help me in any way, now turned their facagainst me, though they had enough and to spare. Seein, all this, the world sometimes seemed to me to be the handswork of the devil. One day, weary and footsore. I sat down in the shade of the Ochterlong monument in the Maidan. Some friends of mine happened to be there one of whom sang a song about the overflowing grace of God, perhaps to comfort me. It was like a terrible blow on my head. I remembered the helpless condition of my mother and brothers, and exclaimed in bitter anguish and despondency, "Will you please stop that song? such fancies may be pleasing to those who are born with a silver spoon in their mouth and have no starving relatives at home. Yes, there was a time when I too thought like that. But today, before the hard facts of life, it sounds like grim mockery." My friend must have been wounded How could be fathom the dire misery that had forced these words out of my mouth? Some times when I four that there were not enough provisions for the family army purse was empty. I would pretend to my mother that had an invitation to dine out and remain practical without food. Out of self-respect I could not disclot the fact to others. My rich friends sometimes requested to come to their beams and gardens to sing. I had comply when I could not awould. I did not feel incline to express my woes before them not did they try their selves to find out my difficulties. A few among the sometimet used to sak me, "Why do you look so pale and weak today?" Only one of them came to know about my provesty without my knowledge, and now and then sent anonymous help to my mother by which act of kinderes he be in under a dead that of strande.

Some of my old friends who earned their livelihood by unfair means asked me to join them. A few among them who had been compelled to follow this dubous way of life by audden sures of fortune, as in my case, really felt symmathy for me. There were other troubles also Various temptations came in my way. A sich woman sent me an ugly preposal to end my days of renuty which I tripnive frected as his occon. Another woman also made similar overtures to me. I tand to be "You have waterd your life, seeking the pleasures of the flesh. The dark it alones of death are before you. Have you done anything to face that? Give up all these fifty desires and trimmiller God."

March 2, 1884: I am now studying the views of the athersts. A sarbled report of the matter soon reached the ears of the Master and his devotees in Calcutta Some of these came to me to have a first hand knowledge of the situation and hinted to me that they believed in some of the rumours at least A sense of wounded pride filled my heart on finding that they could think me so low. In an exasperated mood I gave them to understand plainly that it was cowardice to believe in God through fear of hell and argued with them as to His existence' or non-existence quoting several Western philosophers in support. The result was that they took leave of me with the conviction that I was hopelessly lost, and I was glad. I thought, Sri Ramakrishna perhaps also would believe that and this thought filled me with uncontrollable pique "Never mind". I said to myself, "if the good or had opinion of a man sests upon such flimsy foundation, I don't care" But I was amazed to hear later that the Master had, at first, received the report coldly, without expressing an opinion one way or the other. And when one of his favourite disciples. Bhavanath, said to him with tears in his eyes, "Sir, I could not even dream that · low." He was furious and said. et has told me that it can never

But notwithstanding these forced atheistic views. I wild memory of the Davine Vissons I had experience since my boyhood, and especially after my contact wild all the state of the state of the state of the state of the critic and there must be some way to realise H. Otherwise life would be meaningless. In the midst all troubles and troulations I must find that way. Da passed, and the mind continued to wave between down and certainty. My pecuniary wants also remained just easier.

The summer was over, and the rains set in. The search for a job still went on One evening, after a who day's fast and exposure to rain I was returning home with tired limbs and a jaded mind and overpowered with the search author and unable to move a step forward, I sandown on the outer planth of a house on the roadside.

I can't say whether I was insensible for a time of no Various thoughts crowded in my mind and I was to weak to drive them off and fir my attention on a patitud lar thing. Suddenly I felt as if by some Divine Power the coverings of my soul were removed one after another All my former doubts regarding the co-existence of Divine Justice and Mercy and the presence of intery in the creation of a Blistiful Providence, were automatically solved. By a deep introspection I found the meaning of it all and was statisfied. As I proceeded homewards if found there was no trace of fatigue in the body and the mind was refreshed with wonderful arrength and peace. The night was well-migh over

less to atrive for sense pleasures. I began secretly to prepare to renounce the world like my grandfather. I fixed a day for the purpose and was glad to hear that the Master was to come to Calcutta that very day. "It = lucky " I thought, "I shall leave the world with the blessings of my Guru" As soon as I met the Master he pressed me hard to spend that night with him at Dakshineshwar I made various excuses, but to no purpose I had to accompany him There was not much talk in the carriage Reaching Dakshineshwar I was seared for some time in his room along with others. when he went into a trance Presently he drew near me and touching me with great tenderness, began to sing a song, with tears in his eyes. I had repressed my feelings so long but they now overflowed in tears. The meaning of the song was too apparent. He knew of my intentions. The audience marvelled at the exchange of feeling between us When the Master regained his normal mood, some of them asked the reason of it, and be replied with a smile, "Oh, it was something between him and me!" Then at night he dismissed the others and calling me to his side said, "I know you have come for the Mother's work and won't be able to temain in the world But for my sake, stay as long as I live." Saying this he burst into tears again. The next day with his permission I returned home. A thousand thoughts about the maintenance of the family assailed me. I began to look about sgain for a hving

One day the idea struck me that God listen Ramakrishna's preyers So why should I not as pray for me for the removal of my pecuniary favout the master would never deny me I h Dakshineshwar and insisted on his making the a behalf of my starving family. He said, "My boy make such demands But why don't you go and Mother yourself? All your sufferings are due disregard of Her." All right, it is Tuesday-go to the Kal to night, prostrate yourself before the mother Her any boon you like It shall be granted. She I ledge Absolute, the Inscrutable Power of Braht by Her mere will she has given birth to this world thing in Her power to give". I believed every w eagerly waited for the night About 9 O' Ch Master cammanded me to go to the temple. As I was filled with a Divine intoxication. My feet w steady. Myl heart was leaping in anticipation of of beholding the living Goddess and hearing. Her I was full of the idea. Reaching the temple as I eyes upon the image, I actually found that the was living and conscious, the Perennil Fou Divine Love and Beauty. I was caught in a surging wave of devotion and love. In an ecstacy of joy honorated myself again and egam before the Mother and prayed, "Mother, give me discrimination! Give me reminication give me knowledge and devotion, grant that I may have an uninterrupted vision of Thee!" A screene peace reigned in my soul. The world was forgotten. Only the Divine Mother shone within my heart.

As soon as I returned. Sri Ramakrishna asked me if I had prayed to the Mother for a removal of my worldly wants I was startled at this question and said, "No. Sir. I forgot all about it. But is there any remedy now?" "Go again," said he, "and tell Her about your wants" I again set out for the temple, but at the sight of the Mother again forgot my mission, bowed to Her repeatedly and prayed only for love and devotion. The Master asked if I had done it the second time. I told him what had happened. He said, "How thoughtless! couldn't you restrain yourself enough to say those few words? Well try once more and make that prayer to Her. Outck!". I went for the third time, but on entering the temple a terrible shame overpowered me. I thought, "What a trille have I come to pray to the Mother about! It is like asking a gracious king for a few vegetables! What a fool I am! In shame and remorse I bowed to Her respectfully and said, "Mother, I want nothing but knowledge and devotion". Coming out of the temple I understood that all this was due to Srr Ramakrishna's will. Otherwise how could I fail in my object no less than thrice? I came to him and said "Ser. it is you who have cast a charm

of their causing any distraction in the way of my meditation. The solitude of the Panchayati, associated with the various spiritual realisations of the Master, was also the suitable place for our meditation. Besides, meditation and spiritual exercises, we used to spend a good

deal of time there in sheer fun and merry-making. Sri Ramaktishna sleo Joined with us and by taking a part enhanced our innocent pleasure. We used to run and skip about, climb on the trees, swing from the creepers and at times hold metry business.

On the first day of the picnic the Misser noticed that I myself had cooked the food and he partook of it. I knew that he could not take food unless it was cooked by Brahmans, and, therefore. I had stranged for his meal at the Kali Temple Bot he sald, "If won't be wrong for me to take food from such a pute sooil like yourself. Inspite of my repeated remonstrations, he enjoyed the food cooked by me that day.

He loved me so much! But whenever an inspure idea crept into my mind, he at nonce knew it. While going round with Annada, sometimes I found myself in the company of evil people. On those occasions, the Master could not eat any food from my hands. He could rave his hand only a little but could not bring it to his mouth. On one such occasion, while he was ill, he brought his hand very close to his mouth, but it did not go it. He said to me, "You are not yet ready".

How many times he prayed to the Drvine Mother for messket After my father's death when I had no food us home, and my mother and suters and brothers wer starving too, the Master prayed to the Divine Mother tgive me money. But I didn't get any money. Th Master told me what the Divine Mother had said t him. "He would get simple food and clothing."

How I used to hate Kali and all Her ways! This was the ground of my six years' light - that I could not accept Her But I had to accept Her elset! Rams krishna Paramshamsa dedicated me to Her, and I no believe that She guides me me verything I do, and do with me what She will. 'Yer I fought so long! I love. him (the Master) you see, and that was what held me I saw his marvellous purity. I felt his wonderful love. His greatness had not dawned on me then. All that came afterwards, when I had given in At that time I thought him a brain-sick baby, always seeing wisions and the rest. All that I bated. And then I too had to accept Her!

No, the thing that made me do it is a secret which will die with me I had great misfortunes at that time... It was an opportunity... She made a slave of me. Those were the very words — "a slave of you." And Ramakithina Paramakimis, made me over to Her.... Strange! He lived only two years after doing that, and move of the time he was suffering. Not more than me months did he keep has own he selds and leightness.

Indeed, I was, in a fix in trying to explain to the Master one day the meaning of 'blind faith'. I could find no (meaning for the expression. I gave up using that phrase since then, as I was convinced of the truth of the Master's contention

Oct. 27. 1885 We think of him (Sri Ramakrishna) as a person who is like God. Do you know what it is like? There is a point between the agetable creation and the animal creation where it is very difficult to determine whether a particular thing is a vegetable or an animal. Likewise, there is a stage between the man-world and the God-world where it is extremly hard to say whether a person is a man or a God. I do not say he is God. What I am saying is that he is a God-like man. We offer worship to him bordering on driving worship.

Dec. 21 1865: I have been thinking of going there
(to Diskinneshwar) today. I intend to light
a fire under the bel-tree and meditate. I shall
feel greatly relieved if I find a meditione that
will make me forset all I have studied.

I was meditating here (Cossipore garden-house where he Master was then staying for health reasons) last faturday when suddenly I felt a peculiar sensation in ay heart

Probably, it was the awakening of the Kundalini. 1 2 clearly perceived the Ida and the Pingala nerves I asked Harra to feel my chest. Yesterday I saw him (Sir Ramakrishna) upstairs and told him about it. I said to him. "All the others have had their realisation, please give me some. All have succeeded, shall I alone remain unsatisfied?" He said, "Why don't you settle your family affairs first and then come to me? You will get everything What do you want?" I replied. "It II my desire to remain absorbed in Samadhi continually for three or four days, only once in a while coming down to the sense plane to eat a little food " Thereupon he said to me. "You are a very small-minded person. There is a state higher even than that (Samadhi). 'All that exists art Thou', it is you who sing that song! Settle your family affairs and then come to me You will attain a state higher than Samadhi" I went home My people scolded me saying, "Why do you wander about like a vagabond? Your law examination is near at hand, and you are not paying any attention to your studies You wander about aimlessly" My mother did not say anything. She was eager so feed me She gave me venison. Tate a little, though I didn't feel like eating mean

I went to my study at my grandmother?a. As I treed to read I was serred with a great fear, as if studying were a terrible thing. My heart stringgled within me I burst into tears. I never wept so bitterly in my life. I left my books and tan away I ran along the streets. My shoes slipped from my feet - I didn't know where I ran past haystack and gor hay all over me. I kept on running along the road to Cossoprer.

Since reading the Vivekachudanam I have felt vers much depressed In it Sankaracharya says that only through great tapasya and good fortune does one acquire these three things a human birth, the desire for liberation, and refuge with a great soul I staid to myself: "I have surely gained all these three As a result of great tapasya, I have been born a human being; through great tapasya, again, I have the desire for liberation, and through great tapasya, again, I have secured the companionship of such a great soul."

January 5, 1886. A friend who came here (Cossipore) said he would lend me a hundred rupees. That will take care of the family for three months. I am going home to make that arrangement

Oh, very poor, almost starving all the time. I was the only hope of the family, the only one who could do anything to help them. I had to stand between my two worlds. On one hand, I would have to see my mother and brothers starve unto death, on the other, I believed that this man's (Sri Ramakrishna's) ideas were for the good of India, and the world, and had to be preached and worked out. And so, the fight went on in my mind for days and months. Sometimes, I would pray for five or six days and nights together, without stopping. Oh, the angony of those days! I was living in hell! The natural affection of my boy's heart drawing me to my family -I could not bear to see those who were the pratert and dearest to me suffering. On the other hand this with me. Who would symmothic

with the imaginations of a boy? Imaginations that caused so much suffering to others! Who would sympathise with me? None.

Has anybody seen God as I see that tree? Sri Ramkrishna's experience may be his hallucination. I want truth The other day I had a great argument with Sri Ramkrishna himself. He said to me, "Some people call we God". I replied, "Let a thousand people call you God, but I shall certainly not call you God as long as I do not know it to be true" He said, "Whatever many people say is indeed truth, that is dharms." Thereupon, I replied, "Let others proclaim a thing as truth, but I shall certainly not listen to them unless I myself realize it as truth."

April 23, 1886 How amazing it is! One lestins hardly anything, though one reads book for many years. How can a man realise God by-practising Sadhana for two or three days? Is it easy to realise God? I have no ease.

Staying in the Cossipore garden, Sri Ramakrishna said to us, "The Divine Mother showed me that all of these are not my inner devotees." Sri Ramakrishna said so, that day, with respect to both his men and women devotees.

Once I came to know about my true Self in Nirvikalpa Samadhi at the Cosspore garden-house. In that experience, I felt that I had no body. I could see only my face. The Master was in the upstats room I had that experience downstairs. I was weeping. I said, "What has happened to me?" The elder Gopal went to the Master's room and said. "Naren is crying" When I saw the Master he said to me, "Now you have known. But, I am going to keep the key with me" I said to him "What is it that happened to me?" Turing to the devotees, he said, "He will not keep his body if he knows who he is. But I have nut a veel over his vees."

One day, in Cossipore garden, I had expressed my prizer to Sr Ramakrisina with great exmestines. Then, in the evening, at the hour of meditation, I lost the consciousness of the body, and felt that it was absolutely mone-existent. I felt that sun, moon, space, time, ether and all that melted far away into the unknown; the body consciousness had almost vanished, and I had neatly merged in the Supreme. But I had just a trace of the feeling of Ego, so I could again recure on the world of relativity from the Samshii. In this state of Samshii all the differences between 'I and 'Brahman' go away; everything is reduced to unity, like the waters of the Infinite Ocean, - water everytwhere, nothing else exist-

everything is reduced to unity, like the waters of the Infinite Ocean,—water everywhere, nothing else exists—language and thought, all fail there.

After that experience, even after trying repeatedly, I failed to bring back the state of Samadhi. On informing Sri Ramakrishna about it, he said, "If you remain day and night in that state, the work of the Divine Mother will not be accomplished, therefore, you won't be able to induce that state again, when your work is finished, it will come again."

Sri Ramakrishna used to say that Avataras alone can descend to the ordinary plane from that state of Samadhi, for the good of the world. Ordinary must do not, immersed in that state, they remain alive for period of 21 days, after that, their body drops like a ser leaf from the tree of Samsara

All the philosophy and scriptures have come from the plane of relative knowledge of subject and object But, no thought or language of the human mind m fully express the Reality which lies beyond the plane of relative knowledge ! Science, Philosophy, etc are only partial truth, so, they can never be the adequate char nels of expression for the transcendent reality. Henc viewed from the transcendent standpoint, everythin appears to be unreal - religious creeds and works. I ap thou, and the universe - everything is unteal! The only it is perceived that I am the only reality - 'I am the all - pervading Atman and I am the proof of my own existence! Where is the room for a separate proof to establish the reality of my existence? I am, as the scriptures says, "निष्यसस्मन् प्रसिद्ध्" - always known to myself as the eternal subject I have actually seen that state, realised at

It happened when I used to meditate before a lighted fire under a tree at the Cossipore garden house. One day, while meditating, I siked Kali. (later Abbedaganda) to hold my hand. Kali said to me, "When I touched your body, I felt sometting like an electric shock coming to my body."

Now all the ideas that I preach are only an attempt to echo his (Sri Ramakrishna's) ideas. Nothing is mine originally. Every word that I have ever uttered which is true and good is simply an attempt to echo his voice. Read his life by Prof. Max Muller.

Well, there at his feet I concerved these ideas — there, with some other young men. I was just a boy. I went there (to Sri Ramakirishna) when I was about sixteen. Because of the other boys were still younger, some a little older—about a dozen or more. And together we concerved that this ideal had to be spread. And not only spread, but made practical a That is to say, we must show the piprituality of the lindus, the merciuloness of the Bud-

He used to prepare those youngmen (the former class) for his work, and though many complained to him about them, he paid no heed I may have pethaps a better opinion of a Bahtwarga than an Antaranga through his actions, but I have a superstituous regard for the latter "Love me, love my dog," as they say I love that Brahmin priest (our teacher) intensely, and, therefore, love whatever he used to love, whatever he used to regard! He was afraid about me that I might create a sect. I felt to movel!

He used to say to some, "You will not attain spirituaing in this life. He sensed everything, and this will explain his apparent partiality to some He, as a scientist, of used to see that different clearmer? It has become a true saying that idolatry is wrong, and every man swallows in at the present time without questioning. I once thought so, and to pay the penalty of that, I had to learn my lesson sitting at the feet of a man who realized everything through idols, I allude to Rinaktishna Paramahamsa, my teacher, my master, my hero, my ideal, my God in life.

Despite the many inequaties that have found entrance into the practices of image-worship as it is in vogue now. true and good is simply an attempt to echo his voice. Read his life by Prof. Max Muller

have become a beggar. With this power, you are to do many works for the world's good before you return.'

Yes, Str Ramakrishna did say out of his own lips that he was God, the all-perfect Firshman, so many times. And he said this to all of us One day while he was staying at the Cosispore garden, his body in immunent danger of failing off for ever, by the side of his bed. I was saying in my mind, "Well, now if you can declare this you are God, then only will believe you are really God Hisself?"

It was only two days before he passed away Immediately he looked upwards, all on a sudden and said, "He who was Rama. He who was Krishna, verily is He now Ramakrishna in this body. And that not from the scandpoint of your Vedanta !" At this, I was struck dumb Even we haven't had yet the perfect faith, after hearing it again and again from the holy lips of our Lord lumself -our minds still get disturbed now and then with doubt and despair - and so. what shall we speak of others being slow to believe? It is indeed a very difficult matter to be able to declare and a belive a man with a body like ours to be a God Himself. We may just so the length of declaring him to be "a perfected one", or "a knower of Brahman" Well, it matters nothing, whatever you may call him and think of him, a Sunt or a Knower of Brahman, Never did come to this earth such an all-perfect man as Sri Ramakrishna! In the utter darkness of the world, this creat man m like the shining pillar of illumination in this age! And by his light slone will man now cross the ocean of Samsara I

In Greish Chandra Ghesh alone I have seen that true resignation - that true spirit of a zervant of the Lord, I do not condemn it. Age, where whould I have been I had not been I lessed with the dust of the boly feet of that outhodox, image- worth ipping Brahmin I

When my Master, Sti Ramakrishna, fell il. a Brakmettal power to cure linesil, I e stid that if my Maste would only concentrate his mird on the diseased part is the lody it would heal Sti Ramakrishna answers "Whart bring down the mind that I have given to floot of this little body?" He refused to think of body an illness. His mind was continually conscious of God it was dedicated to him utterly. He would not use if or any other purpose.

Am I able to sit quiet? Two or three days before St Markithma's passing away. She whom he used to cal "Kali" entered this body (of mine) I et a She who take me here and there and makes me work, without letting me remain quiet, or allowing me is book to my persons comforts.

No, I am nor speaking metaphorically. Two or three does not have to his leaving the body, he called me to his side one day, and asking me to an before him, looked steadfastly at me and fell into Samadhi. Then I really felt that a subtle force like an electric shock was entering my body! In a little while, I also lost outward consciousness and sat motionless. How long I stayed in that condition I do not remember, when consciousness returned I found Sr Ramakrishna shedding tears. On questioning him, he answered me affectionately, "Today, giving you my all, I

off - in spire of my desire to the contrary - after getting me brought to his presence ... Him alone I have found in this world to be like an ocean of unconditioned mercy.

Time and again, have I received in this life the matter so first grace. He stands behind and gets all the work done by me When I ling helpless under a tree in an agony of hunger, when I had not even a scrap of cloth for heapin, when I was resolved on travelting penniless round the world, even then help came in, always by the grace of Sti Ramakrishna. And again when crowds jortled with one another in the streets of Chicago to have sight of this Vivekananda, then also I could digest without difficulty all the honours - a hundredth part of which would have been enough to turn mad any ordernary man - because I had his grace, and by his will, victory followed everwhere.

He (Sr: Ramakrishna) was all Bhakti without, but, within the was all Janna, I am all Jiana without, but, within my heart, it is all Bhakti. All that has been wast, has been mine. All that has been life-giving, strengthening pure and bold, has been his inspiration, his words and be himself.

If there has been anything achieved by me, by thoughts, or words, or deeds, if from my hip has ever failen one word than has believed anyone in the world. I lay no claim to it, it was his But if there have been curses failing from my lips, if there has been hatred coming out of me, it is all mine and not his.

And was it not because he was ever ready to sacrifice itimself that Sri Ramakrishna took upon himself all his responsibility? What a unique spirit of resignation to the Lord? I have not met his parallel, From him have I learnt the lesson of self-surrender

I am a disciple of Ramakrishina Paramahamsa, a perfect Sannyasin, under whose influence and ideas I fell. This great Sannyasin never assumed the negative or critical attitude towards other religions, but showed their positive side - how they could be carried into life and practised.

It was given to me to live with a man who was as atdent a Dushit, as ardent an Advaitist, as ardent as Bhakta and a Jinam. And living with this man first put into my head m understand the Upanishads and the text of the scriptures from an independent and better bails than by blindly following the commentators, and in my researches, I came to the conclusion that these texts are not all contradictory.

Never during his life did he (Set Ramakrishna) refuse a single prayer of mine; millions of offences has he forgiven me, such great love even my parents never had for me. There is no poerry, no exaggeration in all this. It is the bare truth and every disciple of his however, in extreme agony with the prayer, "O God, do sixye me", and no extronse has come from anybody; but this wonderful same, or Avarars or anything that he my be, has come to know of all my affliction through his powers of insight on human hearts and has lifted it.

When by the process of time, fallen from the trite ideals and rules of conduct and devoid of the spitie of renunciation, addicted only to blind usages and degraded in intellect, the descendants of the Aryans failed in space. ciate even the spirit of the Puranas etc., which taught men of ordinary intelligence the abstruse truths of the Vedanta in concrete form and diffuse language, and appeared antagonistic to one another on the surface. because of each inculcating with special emphasis only particular aspects of the spiritual ideal. - and when, we a consequence, they reduced India, the fair land of religion. to a scene of almost infernal confusion by breaking up piecemeal the one Eternal Religion of the Vedas (Sansa tana Dharma), the grand synthesis of all the aspects of the spiritual ideals, into conflicting sects and by seeking to sacrifice one another in the flames of sectarian harred and intolerence, - then, it was that Sri Bhagayan Ramakrishna incarnated himself in India to demonstrate whee the true religion of the Arvan race is, to show where amidst all its many division and offshoots scattered over the land in the course of its immemorial history. lies the true unity of the Hindu religion, which, by its overwhelming number of sects discordant III superficial view, quarreling constantly with each other and abounding in customs divergent in every way, has constituted itself into a misleading enigms for our countrymen and the butt of contempt for foreigners and above all, to hold up before men, for their lasting welfare, as a living Six Remainship a limited is his own provided. So Remakrishna's was a different case. What come can there be between him, and ordered the practiced in his life all the different idea's of this to them that each of them leads but no the One Two Shall you of lever be able to do all this life. None of us hade understood him fully So I don't wenture to speak about him anywhere and werrybor yellow only knows what he ceally was, his frame was human one only, but everything else about him we entirely different from others.

The fact is that St: Ramakrishna is not exactly whithe ordinary followers have comprehended him to be the had infinite moods and phase. Thousands of Vinkthandas may spring forth through one greeous glare of his yeas! But instead of doing that he has chosen for this yeas! But instead of doing that he has chosen for the himself of the had been the state of the ment, and what can I do in this matter?

<sup>-</sup> SRI RAMAKRISHNA

To be good and to do good - that fit be whole of rehition. - WAMI VIVEKANANDA.

Sankara had a great head, Ramanuja had large heart; and the time was rup for one to be born, the embodiment of both this head and heart; the time was rupe for one to be born who in one body would have the brilliant intellect of Sankara and the wonderfully expansive infinite heart of Chaitanya, one who would see in every sect the same spirit working, the same God, one who would see God in every being; one whose heart would weep for the poor, for the weak, for the outcast, for the downtrodden, for everyone in this world, inside India or outside India, and bring a marvellous harmony, the universal religion of head and heart into existence, such a man was born, and I had the good fortune to six at his feet for years.

It was while reforms of various kinds were being inaugurated in India, that a child was born of poor Brabmin parents on the 18th of February 1856, in one of the remote villages of Bengal The father and mother were very orthodot people Very poor they were, and yet many a time the mother would starve herself a whole day to help a poor man Of them, this child was born, and he was a peculiar child from very boyhood. He remembered his past from his borth, and was conscious for what purpose he came into the world, and every power was devoted to the fullificant of that purpose.

While he was quite young, his father died. The boy was sent to school He was peculiar, for after a few days he said, "I will not go to school any more." And he did not; that was the end of his going to school. But this boy had an elder brother, a learned professor, who took him to Calcutta, to study with him. After a short time,

every day, until be could think of nothing else. He could no more conduct the worship properly, could no more attend to the various details in all their minuteness. Often he would forget to place the food-offering before the image, rometimes he would forget to wave the light, are other times, he would wave it for hours, and forget systemidia.

And that one idea was in his mind every day "Is it true that Thou existest, O Mother? Why dost Thou not speak? Art Thou dead? "At last, the became impossible for him to serve in the temple. He left it and entered into a little wood that was near and lived there. About this part of his life, he told me many times, he could not tell when the sun rose or set, or how he lived. He lost all thought of himself and forgot to eat. During this period, he was lovingly warched by a relative who put into his mouth food which he mechanicall's availlowed.

the boy became fully convinced that the aim of all secular

more, and he resolved to give up study and devote himself solely to the pursuit of spiritual knowledge. The father being dead, the family was very poor, and this boy had to make his own living. He went to a place near Calcutta and became a temple priest.

In the temple was an image of the "Blissfull Mother," This boy had to conduct the worship morning and evening

and by degrees, this one idea filled his mind: "Is there anything behind this image? Is it true that there is a Mother of Biss in the universe? Is it true that She

learning was mere material advancement and nothing

lives and guides this universe, or is it all a dream? Is there any reality in rehgion?"

This idea took possession of the boy and his whole life became concentrated upon that Day after day, he would weep and say "Mother, is it rue that Thou existes, or is it all poetry? Is the Blissfall Alother an imagination of poets and misguided people, or is there such a Reality?" We have seen that of books, of education mour sense of the word, he had none; and so much the more natural, so much the more healthy was his mind, so much purer his thoughts undivided by drinking in the thoughts

fair or clean, original man, as that he was not broug versity. However, of seen—which was

heard and asked, "Does a wife foreake her husband in case he becomes lame?" What followed? The Pandits were struck dumb, all their Sistric commentaires and learned comments could not withstand the force of this simple statement. That is why Sri Ramakrishna came down to this earth, and discouraged mere book-learning so much That new life-force which he brought with him has to be instilled into learning and education

We have seen in Sti Ramaktishna how he had ther idea of divine motherhood in every woman, of whatever caste she might be, or whatever might be her worth

This whole universe is the manifestation of the Mother, and She was in every woman's body "Every woman represents the Mother, how can I think of woman in mere sex relation?" That was the idea Every woman with his Mother, he must bring himself to the state when he would see nothing but Mother in every woman, and he carried it out in his life.

Later on, this wery man said to me. "My child, suppose there is a beg of fold mone room, and a robber in the next room, do you think that robber can sleep? He cannot His mind will be always thinking how to get into that room and obtain possession of that gold Do you think then that a man firmly persuaded that there is a Reality belond all these appearances, that there is a God, that there is One who never dies, One who is unfinite bluss, compared with which these pleasures of the senses are simply playthings, can rest contended without struggling to attain it? Can be cease

never came until everything had been given up for He He had heard that the mother wanted to come to every one, but they would not have Her; that people wante all sorts of foolish little idols to pray to, that they wante their own enjoyments, and not the Mother, and that th moment they really wanted Her with their whole soul and nothing else, that moment She would come So, h began to enter into that idea. he wanted in he exact even on the plane of matter. So, he threw away all the little property he had, and took a yow that he would never touch money and this one idea 'I will not touch money' became a part of him It may appear to be something occult, but even in after-life, when he was sleeping if I touched him with a piece of money, his hand would become bent, and his whole body would become, as it were, paralysed. The other idea that came into his mind was - lust was the other enemy Man is a souland soul is sexless, neither man nor woman. The idea of sex and the idea of money were the two things, he thought, that prevented him from seeing the Mother

This illiterate box, possessed of renunciation, turned the heads of your great old Pundits. Once at the Dakhinneshwar Temple, the Brahmana who was in charge of the worship of Vishnu broke a leg of the image. Pundits were brought pogether at a meeting to give their opinions, and they, after consulting old books and manuscripts, declared that the worship of this broken image could not be sanctioned according to the Sastras, and a new image would have to be consecrated There was consequently a great sit. Sit Ramakrishna was called at last. He

Later there came to the same grove a Sannyasm, of the begging friars of India, a learned man, a philosopher. He was a peculiar man; he was an idealist. This man began to teach the boy the philosophy of the Vedas, and he found very soon, to his astomalment, that the pupil was in some respects wiser than the master. He spent several months with the boy, after which he initiated him not the Order of Sannyasms, and took his deporture.

When detemple-priest his extra-ordinary worship made people think him detanged in his head, his relatives took him home and matried him to a little girl, thinking that would turn his thoughts and restore the balance of his mind

But, he came back, and merged deeper in his madness. The husband had entirely forgotten that he had a wife. In her far off home, the git heard that her husband had become a religious enthusiast, and that he was even connidered misme by many.

She resolved to learn the truth for herself, so she set out and walked to the place where her husband was. When at last she stood in her husband's presence, he at once admitted her right to be his life-partner. The young man fell at the feet of his wife and said, "As for me, the Mother has shown me that She render in every woman, and so, I have learned to look upon every woman as Mother. That is the one idea. I can have about you, but if you wish to draw me into the world, as I have been morated to you, Jam as your acresses."

The maiden was a pure and noble soul, and was able to understand her husband's arpirations and symmathise

He went to all the sects be could find, and whatever he took up, he went unto it with his whole heart. He did exactly as he was told, and in every instance, he arrived at the same result. Thus, from actual experience he came to know that the goal of every religion is the same, that each is trying to teach the same thing, the difference being largely in method, and still more in language.

That is what my Master found and he then set about to learn humbirty, because he had found that the one idea in all religions is "not me, but Thou, "and he who says "not me", the Lord fills his heart. He now set himself to accomplish this. As I have told you, whenever he wanted to do anything, he never confined himself to fine theories, but would enter into the practice immediately. We see many persons talking the most wonderfully fine things about charity and about equality and the rights of other people and all that, but only in theory. I was so fortunate as to find one who was able to carry theory into practice. He had the most wonderful faculty of carrying everything into practice which be thought was right.

Now, there was a family of Parishs living near the the place. My Mastet would go to a Parish and asked to be allowed to clean his house. The business of the Parish is to clean the streets of the crites, and to keep houses clean. By birth the Endmin stands for boliness, and the parish for the very reverse. And this Brahmm saked to be allowed to do the mensal services in the house of the parish! If course, could not house of the parish! If course, could not

with them. She quickly told him that she had no we to drag him down to a life of worldhines; but that she desired was to remain near him, to serve him and learn from him. She became one of his most devot disciples, always reversing him as a divine being. The through his wife's consent, the last batter was temove and he was free to feat the life he had chosen.

That was the woman The husband went on ar became a monk, in his own way, and from a distant the wife went on helping as much as she could. An later, when the man had become a grees spiritual gan she came - really, she was the first disciple and the spet the rest of her life taking care of the body of this mat He never knew whether he was living or dying. Some times when taking, he would get so absorbed that if he sate on the could store the sate of the sate

The next desire that serzed upon the soul of this mass to know the truth about the various religions. Up to that time, he had not known any religion but his own. He wanted to understand what other religions. He found a Mahommedan Saint and went to live with him; he underwent the disciplines prescribed by him, and to his astonishment found that when faithfully carried out, these devotional methods led him to the same goal fe had afready attained. He gathreed similar experience from following the true religion of Jesus the Christ.

Think of the blessedness of that life from which all carnality has vanished, which can look upon every woman with that love and reverence, when every woman's face becomes transfigured, and only the face of the Divine Mother, the Blissful One, the Protectires of the luman race, shines upon it! Such purity is abupliedly necessary if real spirituality is to be attained

This rigorous, unsulfied purity came into the life of that man, all the struggles which we have in our lives were past for him. His hard-carned sewels of spirituality, for which he had given three-guarters of his life. were now ready to be given to humanity, and then began his musion. His teaching and preaching were peculiar This teacher had no thought whether he was to be respected or not be had not the least idea that he was a great teacher and thought that it was the Mother who was doing exervibing and not be. He always said. "If any good comes from my line it is the Mother who speaks, what have I to do with it? That was the one idea about his work, and to the day of his death, he pever gave it up. This man sought no one, his remember was first form character, first earn spirituality, and results will come of themselves. His favourite illustration was "When the lotus opens, the been come of their own accord to seek the honey an let the lotus of your character be full-blown and the results will follow" This is a great lesson to learn. My Master taught me this lesson hundreds of times, yet, I often forget it

5ri Ramakrishna, too, practised the Tantra, but not in the old way. Where there is the sejuction of drieding to do such mental work, it will be an awful sin, and they will become extinct. The parab would not permit it so in the dead of night, when all were sleeping, Ramakrishna would enter the house. He had long hair, and with his hair, he would wipe the place saying. "Oh my Mother, make me the servant of the parab, make me feel that I am even lower than the parab."

There were various other preparations, which would take a long time to relate, and I want m give you just a sketch of his life. For years, he thus educated himself. One of the sadhanas was to root out the sex idea. Having been born in a masculine body, this man wanted to bring the feminine idea into everything. He began to think that he was a woman, he dressed like a woman, spoke like a woman, spoke like a woman, spoke like a woman of a good family, until after years of this discipline, his mind became changed, and he entirely forgot the idea of sex; thus, the whole view of life became changed to him.

We best in the West about worthipping woman, but this is usually for her youth and beauty. This man meant by worshipping woman, that to him every woman's face was that of the Blissfull Mother, and nothing but that, I myself have seen this man standing before those women whom society would not touch, and falling at their free bathed in tears saying. "Mother, in one form Thou art in the street, and in snother form Thou art the universe I saluce Thee, Mother, I salute Thee."

some are mad after worldly love, some after Name, some after salvator and going to heaven In this big lunatic asylum, I am also mad, I am mad after God. You are mad, so am I, I think my madness is after all the best "

Ramaktishna was born in the Hooghly district in 1836 and died in 1886. He produced a deep effect on the life of Keshub Chandra Sen and others. By discipling of the body and subduing of the mind, he obtained a wonderful innight into the spiritual world. His face was distinguished by childlike tenderness, profound humility, and tematikable sweetness of expression. No one could look upon it

If melts in the inner Self, which is the essence of infinite knowledge. One, and liself its own support. This is what mealled Altrindadys Amandh, free from all entirties. In Sri Ramakrishna, we have again and again noticed both these forms of Samadh. He had not to struggle to get these taxes. It was a wonderful phenomenon! It was by seeing him that we could rightly understand these things.

It is not very difficult to bring under control the material powers and flaunt a muracle; but I do not find a more marvellous miracle than the manner in which this mid Brainaria (Sri Ramakrishna) used to handle human mids, like lumps of clay, breaking, moulding and remoulding them at ease and filling them with new ideas by mere touch.

wine, he would simply touch his forehead with a drop it. The Tantrika form of worship is a very slippe ground.

The Puris seem to have a peculiar mission in rousing the spirituality of Bengal. Str Chaitanya Deva was init ated into Sannyasa by Ishwar Puri, at Gaya. Bhagwa Sri Ramakrıshna got hıs Sannyasasrama from Tota Puri.

Sti Ramakrishna went and prayed to the Divin Mother to send him such a one to talk with as would have in him not the slightest tinge of Kamakanchana for he would say, "My lips butn when I talk with the worldly-minded." He also used to say that he could no even beer the touch of the worldly-minded and the impure

This habit (in me) of seeing every person from his strongest aspect must have been the training under Ramakrishna Paramabamsa We all went by his path 10 some extent. Of course, it was not so difficult for us as be made it for himself. He would ear and dress like the people he wanted to understand, take their initiation, and use their language. 'One must learn," he said, "to put oneself into another man's very soul!" And this method was his own! No one ever before in India became

Christian and Mohammedan and Vaishnava by turns! Take a thousand idols more if you can produce Ramakrishna Paramahamsa through idol-worship, and may God speed you!

The world used to call him mad, and this was his

answer: "My friends, the whole world is a lunavic asylum:

yet he could not be persuaded to refrain from these exertions. As soon as he heard that people were asking its
see him, he would insist upon having them admitted, and
would answer all their questions. When expossulated
with, he replied, "I do not care. I will give up the entythousand such bodies to belp one man. It is glorious to
help even one man." There was no rest for him. Once
a man asked him, "Sir, you are a great Yogi; why
do you not put your mind a little on your body and
cure your disease?" At first he did not answer, but when
the question was repeated, he gently said, "My firend, I
thought you were a sage, but you talk like other men of
the world. This mind has been given to the Lord; do
you mean to say that I should take it back and put it
upon the body, which is but a mere cage of the soul?"

So, he went on preaching to the people, and the news spread that his body was about to pass away, and the people began to flock to him in greater crowds than ever When the people heard that this holy man was likely to go from them soon, they began to come round him more than ever and my Master were not neaching them without the least regard for his health We could not prevent this Many of the people came from long distances, and he would not rest until he had answered their questions. "While f. can speak I must teach them," he would any and he was as good as his word. One day, he told ut that he would lay down the body and that day, on repeating the most sacred word of the Vedas, he entered into Samadhian dan assed away.

I could not believe my own ears when I heard westem people talking so much of consciousness! ConsciousHe began to preach when he was about forty; bu never went out to do it. He waited for those wanted his teachings to come to him

He is worshipped in India as one of the great in nations, and his birthday is celebrated there as a teligifestival

He never spoke a harsh word about anyone, beautifully tolerant was he that every seet thought it be belonged to them. He found a place for each one is was free, but free in love, not in "thunder." The metype creates, the thundering type speeads.

Ramkrishna came to teach the religion of todiconstructive and not destructive, he had to go afresh nature to ask for facts and he got scientific religious to have says "believe" but seed "I see, and you can see." Sri Ramakrishna's teachings are "the girt Rinduism," they were not peculiar to him. Not did claim that they were, he cared naught for name at fame.

The other idea of has life was intense love to others. The first part of my Master's life was spent; a acquiring spirituality, and the remaining years in distributing it. Men came in crowds to hear him and he would the state of the state

Gradually, there developed a vital throat disorder, and

The artistic faculty was highly developed in our Lord, Sri Ramakrishna, and he used to say that without this faculty none can be truly spiritual.

He used to say, "As long as I live, so long do I learn "

A certam young man of little understanding used always to blame Hindu Shastras before Sri Ramakrishna. One day, he praised the Bhagavad-Gita, on which Sri Ramakrishna said, "Methinks some European Pandit has praised the Gita, and so he has followed suit!"

It was no new truth that Ramakrishna Paramahamsa came to preach, though the advent brought the old truths to light. In other words, he was the embodiment of all the past religious thoughts of India. His life alone made me understand what the Shastras really meant, and the whole plan and acope of the old Shastras.

He was the Saviour of women, Saviour of the masses, Saviour of all, high and low

And the most wonderful part of it was that his life's work was just near a city which was full of Western thought, a city which had run mad after these occidental ideas, a city which had become more Europeanued than any other city of Iods. There he lived, without any book-learning whatsoever, this great intellect never learne even to write his own name, but the most builliant graduates of our university found in him an intellectual giant. He was a strange man, the Ramakritishne Paramahamas, the fulfillment of the Indian nages the sage for the time, one whose teaching is just now, in the present time, most beneficial. And mark the Divine Power working behind

ness? What does consciousness matter! Why, is nothing as compared with the unfarlomable depths of subconscious, and the heights of the superconscious, this, I could never be misled, for had I not seen Rin

krishna Parmahamsa gather in ten minutes from a ma aubconscioua mind, the whole of his past, and determifrom that his future and his talent and powers?

from that his future and his talent and powers?

Sti Ramakrishna was quite unable to rake food in indirections as a from the lands of one and all

inditeriminate way from the hands of any and all happened many a time that he would not accept for touched by a certain person or persons, and on rigoro investigation, it would turn out that these had son particular stain to hide

He used to deprecate lukewarmness in spiritus attainments, as, for instance, saying that religion woul come gradually, and that there was no hurry for it

He used to disparage the longing for supernatura powers; his teaching was that one cannot attain to the Supreme Truth if one's mind is diverted to the manifistation of the powers.

We have seen how Sr: Ramakrishna would encourage even those whom we considered as worthless, and change the very course of their lives thereby! His very method of teaching was a unique phenomenon.

He never destroyed a single man's special inclinations. He gave words of hope and encouragement even to the most degraded of persons and lifted them up

Ramakrishna Paramahamsa was alive to the depths of his being, yet on the outer plane, who was more

In the Ramakushna Incarnation, there is Knowledge Deption and Loye, infinite knowledge, minist love, infinite work, infinite compassion for all beings. What the whole Hindu race has thought for ages, he fixed none life. His fire is the living commentary on the Dedas of all nations.

People will come to know him by degrees.

The future, you say, will call Ramakrishna Paramahamsa an Incarnation of Kalt Yes, I think there is no doubt that She worked up the body of Ramakrishna for Her own ends

He was contented simply to live that great life, and to leave it to others, to find the explanation !

One drop from the full ocean of his spirituality, if Y realised, will make gods of men Such a synthesis of universal desay you will not fund in the huttory of the world again. Understand from this who was born in the person of Str. Ramakrishia. When he used to instruct his Sannyasi disciples, he would rise from his seat and look about to see if any householder was coming that way or not. If he found none, then in glowing words he would depict the glory of renunciation and tanature. As a result of the rousing power of that ferry dispassion, we have renounced the world and become averse to worldli-

Of course, everybody who has come to Sri Ramakrishna has advanced in spirituality, is advancing and will advance; Sri Ramakrishna used to say that the perfected Rishis of a previous Kalpa (cycle) take human bodies and the man. The son of a poor priest, born in an out-ofway village, unknown and unthought of, today is a shipped literally by thousands in Europe and America, comorrow will be worshipped by thousands more. V knows the plans of the Lord? Let me say that if I h told one word of truth, it was his and his alone and have told many things, which were not true, which w not correct, which were not beneficial to the human it they were all mine, and on me ressy the tersponsibility

It requires striving through many births to reach prection or the ultimate stage with regard to a single to of the many devotional attitudes. But, Sri Ramakins the king of the realm of spirittal sentiments, perfect himself in no less than eighteen different forms dixtotion! He also used to say that his body would in have endured had he not held himself on to this play spiritful sentiments.

To remove all the corruption in (present-day) relion, the Lord has incarnated Himselfon earth in the prese age in the Person of Sri Ramakrishna. The univers teachings this the offered, if agreed all over the work will do good to Lumanity and the world not for many century part has India produced so great, so wonderfuateacher of scittons synthesis.

Ramphreshna Paramahamaa came for the good of the world, call him a man, or God, or an Incarnation, just a you please

From the day. See Ramakeethea was born, dates the growth of modern folia and of the Golden Ate

In the highest truth of the Parabrahman, there is no different of 822. We only notice this on the relative plane. And the more the mind becomes introducerus, the more that idea of difference vanishes. When the raind is wholly merged in the homogeneous and undifference in the state of the st

entiated Brahman, then, such ideas as this is a man or that a woman, do not remain at all. We have actually seen this in the life of Sri Ramakrishna.

You study all the great teachers the world has produced, and you will see that more of them went into the various explanations of easts, on their part, there is no attempt at "rest-torturing," no assuing "this word means this, and this is the philological consection between this and that word." If they truth.

The Master used to say that the saping must be hedred a round.

come on earth with the Avataras, They are the associate of the Lord. God works through them and propagates Hi religion. Know this for truth that they alone are the associates of the Avatara who have renounced all self-for the sake of others, who giving up all sense enjoyens with repugnance, apend their lives for the good of the world, for the wolfare of the draws.

Shit Ramakrishna was a wonderful gardener. Therefore, he has made a bouquet of different flowers (me of different types) and formed his Order All different types and ideas have come into it and many more will come.

All devotees (of Sz: Ramakrishna) do not belong to the group of his most intimate and nearest disciples.

When an Avastate comes, then with him are born liberated persons as helpers in his world-play Only Avastats have the power to dispel the darkness of a million souls and gave them salvation in one life. This is known as grace.

The way is to call on him (Sri Ramakrishna). Calling on him, many are blessed with his vision, can see him in a human form just like ours and obtain his grace.

Those who have seen Sts Ramaktishna are really blessed. Their family and birth have become purified by it.

Nobody has been able to understand who came on fearth as Sri Ramakushna. Even his own nearest devorces have got no real clue so it. Only some have got a luttle inklung of it. All will understand it afterwards,

ledge. Love and renunciation, catholicity and the desir to serve mankind. So, where is anyone else to compar with him? He is born in vain who cannot appreciat him! My supreme good fortune is that I am h servant through life after life. A single word of his to me far weightier than the Vedas and the Vedanta Oh. I am the servant of the servants of his servants .. Certain fishermen and illiterate people called Jesus of Christ a God, but, the literate people killed him. Buddha was honoured in his life time, by a number of merchants and cowherds. But Ramakrishna has been worshipped in his life time - towards the end of the nineteenth century - by the demons and giants of the university as God incarnate. Here is a man in whose company we have been day and night, and yet consider him to be a far greater personality than any of the earlier Avataras.

Our ideal st. of course, the abstract Brahman. But ar all cannot be inspired by an abstract ideal, we must have a personal ideal. We have got that in the person of Sri Ramakrishna. In order that Vedanta may be realised by everyone, there must be a person who is in sympathy with the present generation. This is fulfilled in Sri Ramakuhna. So now, we should place him before everyone. Whether one accepts him as a Saduo or an Avstara, does not matter.

He said be would come once again with us. Then, I think he will embrace Paleha-Mukti (Absolute Emancipation).

The mind of those who have truly received Sri Ramakrishna's grace cannot be attached to worldliness.

If anyone accepts Paramahamsa Deva as an Avatara. it is all right; if he doesn't do so, it is just the same. The truth about it is that in point of character, Paramahamsa Deva beats all previous record, and as regards teaching, he was more liberal, more original and more progressive than all his predecessors. In other words, the older Teachers were rather one-sided," while the teaching of this new Incarnation or Teacher is that the best point of Yoga, Devotion, Knowledge and Work must be combined now so as to form a new Society . The older ones were no doubt good, but this is the new religion of the age the synthesis of yoga, knowledge, devotion and work the propagation of knowledge and devotion to all, down to the very lowest, without distinction of age or sex. The previous Incarnations were all right but they have been synthesised in the person of Ramakrishna

That Ramakrishna Paramahamsa was God incarnate I have not the least doubt. but, let people find out for themselves what he used to teach

Without studying Ramakrishna Paramahamsa first, one can never understand the real import of the Vedsa, the Vedanta, of the Bhagavata and the other Puranas. His life is a searchlight of infinite power thrown upon the whole mass of Indian religious thought. He was the living commentary on the Vedas and their aim. He had lived in one life the whole cycle of the national religious life of India.

The life of Srt Ramakrushna was an extraordinary searchight under whose illumination one is able to really understand the whole scope of Hindu religion. He was the object-lesson of all the theoretical knowledge given in the Shattras. He showed by his life what the Rishia and Avataras really wanted to reach. The books were theories, he was the realisation. This man had in fifty-one years lived the five thousand years of national spritting life and so raised himself to be an object-lesson for future generations. The Vedas can only be explained and the Shattras reconciled by his theory of Avasida or "conditioned" stages – that we must not only tolerated others, but positively embrace them, and that truth is the basis of all treligions.

He had a whole world of knowledge to teach

He did not found a sect. No, His whole life was spent in breaking down the battiers of sectationism and dogma. He formed no sect. Quite the reverse He advocated and strove to esselinh absolute freedom of shought He was a great Yog:

While others, who have nothing to teach, will take up a word and write a three-volume book on its torigin and use, my Master used to say "Think of the men who went into a mango orchard and bussed themselves in counting the leaves, and examining the clour of the leaves, the size of the twigs, the number of branches, and so forth, while only one of them had the sense to begin to eat the mangoral"

These Teachers of all reachers, the Christs of the world, represent God Himself in the form of man. They can

In company of such Avataras and by their grace, the darkness of the mind disappears in a trice, and realisation flashies immediately in the heart. Why or by what process is occurs cannot be ascertained. But, it does occur I have seen it happen like that

The work which the Jinam does only conduces to the welling of the world Whatevers mush of realisation asy or does contributes to the welfate of all. We have minutely observed Sr Ramakrishna, he was as it were trainful a term. "In the body but not of it!" - About the motive of the actions of such personages, only this can be said a draw with the world when the said a draw with the world with the motive of the actions of such personages, only this can be said a draw with the world wi

Whoever could have thought that the life and teachings of a boy born of poor Brahmin parents in a wayside Bengal village would, in a few years, teach such distant lands as our ancestors never even dreamed of? I refer to Bhagavan Ramakrishna Prof Max Muller has already written an article on Sri Ramakrishna in the "Nintetenth Century,"

This is the Message of Sri Ramakrishna to the modern world. "Do not care for doctrines, do not care for dogmais, or churches or temples: they count for little compared with the essence of existence in each man, which is spuriously, and the more this is developed in a man, the more powerful is be. Earn that first, sequire that, and criticies no one, for all doctrines and creeds have some good in them. Show by your lives that religion does now mean words, or names, or seet, but that

spirituality can communicate to others, can be great teachers, of mankind. They alone are the powers of light."

To proclaim and make clear the fundamental unity underlying all religions, was the mission of my Master Other teachers have taught special religions which beat their names, but this great Teacher of the inneteenth

## CHAPTER IV

## THE BARANAGORE MATH AND PERIPATETIC DAYS

Nobody. At least, in India, boys are nobodies, Just think of ir - a dozen boys telling people vast, big ideas, saying they were determind to work these ideas out in life.

they were determind to work these ideas out in life. Everybody laughed From laughter, it became serious; it became persecution. The parents of the boys came to feel like spanking everyone of us. And the more we were derided, the more determined we became.

Sti Ramakrishna used to say, "In the morning and evening, the mind remains highly imbued with satural ideas, those are the times when one should meditate with experience."

After the passing away of Sri Ramaktishna, we went through a lot of religious practice active Baranagore Math. We used to get up at 3 A M and after washing our face tto. - some after taking bath, and some without it. - we would set in the worship-room and become absorbed in Jaram and medication. What a strong spitic of dispassion we had in those days!

We had no thought even as to whether the world existed or not. Ramakiishnananda bussed himself day and night with the duties pertaining to Srs Ramakiishna's worship and service, and occupied the same position in the Math as the mistress of the house does in a family. It was he who would procure, mostly by begging, the requisite articles for Sri Ramakrishna's worship and our sustenance. There were days when the Japam and meditation continued from morning till four of twe in the afternoon. Ramakrishnanda waited and waited with our meals ready, till at last he would come and drag us from our meditation by sheer force. Oh, what a wooderful constancy of devotion we noticed in him!

What was collected by begging and such othermeans, were utilized for defraying the Match expenses Today, both Sureah Babu and Balaram Babu are no more. Had they been alive, they would have been exceedingly glad to see this Math (at Belur) Sureah Babu was na way the founder of this Math. It was he who used to bear all the expenses of the Barangore Math. It was Sureah Mitra who used to worry most for us in those days. His devotion and faith have no parallel!

Owing to want of funds, I would sometimes fight for

closing the Math altogether But, I could never induce Ramakrishnananda to accede to the proposal... There were days when the Math was without a grain of food... If some rice was collected by begging.

On some days, there would be only rice and salt, but nobody cared about it in the least. We were then being carted away by a stall wave of spirtual uppurage. Boiled Nimba leaves, rice and salt - this was the menu for a

month at a stretch.Oh! Those wonderful days! The austerities of that period were enough to dismay supernatural beings, not to spenk of men But, it in a tremendous truth that if there is real worth in you, the more circumstances are against you, the more will that inner power manifest itself. But the reason why I provided for beds and a tolerable living in the Math is that the Sannyasins that are enrolling themselves nowadays will not be able to bear so much strain as we did. There was the life of Sri Ramakrishna to inspire us. and that was why we did not care much for privation and hardships Boys of this generation will not be able to undergo so much hardship Hence, it is that I have provided for some sorr of habitation and a bare subsistence for them If they get food and clothing, the hove will devote themselves to religious practice, and will learn to sacrifice their lives for the good of humanity .

Let outside people say anything against this sort of bedding and furniture. Even in jest they will at least once think of this Math. And they say it is easier to attain liberation through cherishing a hostile spirit!

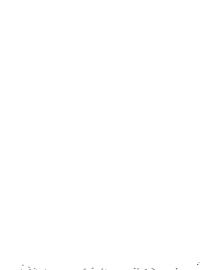

After Sr. Ramakrishna's passing away, all forsook us as o many worthirst, ragged boys. Only people like Suresh Babu and Balaram Babu were our friends in that hour of need. And we shall never be able an repay our delts to them.

Well, that lady, his (Sri Ramakrishna's) wife, was the only one who sympathised with the idea of those boys. But she was powerless. She was poorer than we were. Never mind! We took the plunge. I worship and service, and occupied the same position in the Math as the unstress of the house does in a family. It was he who would procure, mostly by hegsing, the requisite articles for Sri Ramakrahana's worship and our suttenance. There were days when the Japan and meditation continued from morning till four of five in the afternoon. Ramakrahanada waited and waited with our meals ready, till at last he would come and draf waffer on the most process of the constant of the substantial continued from our meditation by sheet force. Oh, what a wonderful constancy of devotion we noticed in line.

What was collected by begging and such otherments, was utilized for defraying the Math expenter. Today, both Suresh Babu and Balaram Babu are no more. Had they been alive, they would have been exceedingly glad to see this Math (at Belur) Suresh Babu was in a way the founder of this Math. It was he who used to beer all the expenses of the Batangore Math. It was Suresh Mitra who used to worty most for us in those days. His devaption and faith have no parallel!

believed, as I am Irung, that these ideas were going to revolutionise India and bring better days to many lands and foreign races. With that belief, came the realisation that it is better that a few persons suffer than that such deas should die out of this world. What if a mother of two brothers die? It is a sacrifice. Let it be done. No great thing, can be done without sacrifice must be plucked out and the bleeding heart placed upon the altar. Then great things are done. Is there say other way? None have found it. I appeal to each one of you, to those who have accomplished any great thing. Oh, how much it has cost! What agonyl what tortired What terrible suffering is behind every deed of success, in every life! You know that, all of you.

And thus we went on, only a band of boys The only thing we got from those around us was a kick and a curse, that was all

Of course, we had to beg from door to door for our food - got hips and haws - the refuse of everything. A piece of bread here and there. We got hold of a brokendown old house, with hissing cobras living underneath; and because that was the cheapest, we went into that house and lived there.

Thus we went on for some years, in the meanwhile many excursions all over India, trying to carry out the idea stadually. Ten years were spent without a ray of light! Ten more years! A thousand times despondency came; but there was one to the tremendous faith each other, the tremendous faith

dous love among us I have got a hundred men and women around me, if I become the deval humself comortow, they will say. "Here we are still we will never give you up!" That is the great blesting. In happeness, in misery, in famme, in pain, in the grave, in haven or in hell he, who never gives me up, is my firend. Is such friendship a joke? A man may have salvation through such friendship a joke? A man may have salvation through such friendship. If we have that faithfulness, why, there is the essence of all concentration. You need not curriship any gods in the world if you have that faith, that strength, that love Any one that was there was with us all throughout the hard time. That made us go from the Himislayses to Cape Comorin, from the Indus to Brahmaputra.

This band of boys began to travel about Gradually we began to draw attention, innerty per cent was antegonism, very little of it was helpful. For we had one fault, - we were boys - in poverty, and with all the roughness of boys.

He who has to make his own way in life is a bit rough; he has not much time to be smooth and suave and pointe "my lady and my gentleman," and all that. You have seen that in life, alasys! He is a rough diamond, he has not much polish, he is a jewel in an indifferent sering.

And there we were "No compromise," was the watchword. "This is the ideal and this has got to be realised. If we meet the lang, though we die, we must give him a bit of our mind, if the present, the same." Naturally, we met with antispoinism

believed, we I am living, that these ideas were soing to revolutionise India and bring better days to many lands and foreign races. With that belief, came the realisation that it is better that a few persons suffer than that such ideas should die out of this world. What if a mother two brothers die? It is a sacrifice. Of course, we had to beg from door to door for our foot pot hips and haws - the refuse of everything. A piece of bread here and there. We got hold of a broken-down old house, with hissing cobras living underneath; and because that was the cheapest, we went into that house and lived there.

Thus we went on for some years, in the meanwhile many excursions all over India, trying to carry out the idea gradually. Ten years were spent without a ray of light! Ten more years! would have to go from house to bouse to collect sufficient food for one meal. And then the bread was so hard, it made my mouth bleed to eat it Literally, you can break your teeth with that bread. Then I would put it in a pot and pour rivet water over it For months and months, I lived that way - of course, it told on the health

He who has a dogged determination like that shall have everything. It is because we had such a determination that we have attained the little that we have Otherwise, what dire days of privation we had to pass through! One day for want of food I fainted in the outer platform of a house on the roadside, and quite a shower of rain denched my head before I recovered my senses Another day, I had to do odd jobs in Calcutta for the whole day without food, and had my meal on my return to be Math at ten or eleven in the night. And these were not solitary instances.

I worked for fulfulng the purpose for which the Lord (Sr: Ramakrishna) came He gave me the charge of them all (the youngaters), who will contribute to the great wellbeing of the world, though most of them are not yet aware of ir. They are each a centre of zeligious power and in time that power will manufest itself

The disciples of Jesus were all Sannyasins. The direct represents of the grace of Sankara, Ramanuja, Sri Chaitanya and Buddha were all renouncing Sannyasins It is men of this stamp who have been spreading the Brahma-vidya in the world. In Veda, Vedanta, Inhaus

But, mind you, this is life's experience. If you really want the good of others the whole universe may stand against you, but cannot hurt you It must crumble before the power of the Lord Himself in you, if you are sincere and really unselfuh. And those boys were that

They came as children, pure and fresh from the hands of nature. Said our Master, "I want to offer at the altar of the Lord only those flowers that have not even been smelt, fruit that have not been touched with the fingers " The words of the great man sustained us all. For he saw through the future life of those boys that he collected from the streets of Calcutta, so to say People used to

laugh at him when he said. "You will see - this boy, that boy, what he becomes" His faith was unalterable "Mother showed it to me I may be weak, but when She says this is so She never makes mistakes, it must So things went on and on for ten years without any It tells on the body in the long run- sometimes one

Attempts were made routh them But they stood time, having the inspiration of that great his before them. Having had the control that blested life for years, they stood their grow. These young men living as Sannyasims, begged through the streets of the city where they were born, althout some of them came from high families. At first, it met with feat antagonism, but they persevered and we not from day to day spreading all over India the mession that great man, until the whole country was filled wite ideas the Autoreached.

Sit Ramskrishna used to 183. "Whoever has prayed to God successly for one day must come here." Know each of Tile disciples of Sir Ramskrishna to be of great stratual power. Do not that them to be ordinary souls. They will be the source of the awakering of spirituality in people. Know them to be part of the spiritual body of Sir Ramskrishna, who was the embodiment of infinite religious ideas. I look upon them with that eye. See Brahmananda – even I have not the spirituality which be lins. "Sir Ramskrishna looked upon him as his spiritual non and he lived and walked, ate and slepe with him. To create a band of men who are tied and bound together with the most undying love in apite of differences, is it not wonderful? This band will increase

The ways, movements and ideas of our Master were all cast in a new mould, so we are also of a new type. Sometimes dressed hie gentlemen, we use engaged in lecturing; at other times, throwing all aside, with "Hara, Hara, Aum, Aum." on the lims, ash smeared on the body, we are immersed in meditation and austerities in mountains and forests.

Referring to history, we see that only that fragment which is fit will survive and what makes fit to survive but character?..

Let me tell you a little personal experience. When my shater left the body, we were a dozen penniless and unknown young men. Against us were a hunded powerful organisations, struggling hard to nip us in the bud. But Ramakrishna had given us one great gift, the desire, and the lifelong struggle, not to talk alone, but to live placifies. And today all India knows and reverences the Master, and the truths he taught are spreading like wildfire. Ten years ago, I could not get a hundred persons together to celebrate his birthday anniversary. In 1894, there were fifty-thousand

His thoughts and his message were known to very few capable of giving them out. Among others, he left a few young boys who had renounced the world, and were ready to carry on his work. Attempts were made to crush them. But they stood firm, having the inspiration of that great life before them. Having had the contact of that blessed life for years, they stood their ground. These young men living as Sannyasins, begged through the tirects of the city where they were born, although some of them cames from high families. At first, they met with great antagonism, but they persevered and went on from day to day spreading all over India the message of that great man, until the whole country was filled with the ideas he had presched.

I am not taking pride in this. But, mark you, I have told the story of that group of boys. Today, there is not a village, not a man, not a woman in India that does not know their work and bless them. There is not a famine in the land where these boys do not plunge in and try to work and rescue as many as they can

I believed, and still believe that without my giving up the world, the great mission which Ramakrishna Paramahamsa, my great Master, came to preach, would not see the light; and where would those young men be who have stood as bulwarks against the surging waves of materialism and luxury of the day? These have done a great deal of good to India, especially to Bengal. and this is only the beginning With the Lord's help, they will do things for which the whole world will bless them for ages. So on the one hand my vision of the future Indian religion and that of the whole world, my love for the millions of beings sinking down and down for ages with nobody to help them, any nobody with even a thought for them, on the other hand, making those who are nearest and dearest miserable. I chose the former and "Lord will do the rest." He is with me, I am sure of that, if of anything. So long as I am sincere, nothing can resist me because He will be my help. Many of these men hide, in order to guard themselves against intrusion People are a nuisance to them. One had human bones strewn about his cave, and gave it out that he lived on corpses. Another threw stones; and so on.

Sometimes the thing comes upon them in a flash. There was a boy, for instance, who used to come to read the Upanishads with Abbrdanands One day, be turned and said, "Sir, is all this really etue?" "Oh, Yes!" said Albhedanands, "It may be difficult to realise, but is it certainly true" And next day, that boy was a silent Sannyasin, nude, on his way to Kedanath!

## PAVAHARI BABA

I once knew a Yogs, a very old man, who lived in a hole in the ground all by himself. All he had was a pan or two to cook his meals in He are very little and wore scarcely anything and spent most of his time meditating

With him all people were alike He had attained to non-injuring What he saw in everything, in every person, in every animal was the Soul, the Lord of the universe. With him, every person and every animal was

secret of this wonderful initiation for shame, and carried out to the best of his ability the injunction of his master. Thus, a whole sect of nose-cut saints spread over the country. Do you want me to be the founder of snother such?"

Later on, in a more serious mood, another query brought the answer: "Do you think that physical help is the only help possible? Is it not possible that one mind can help other minds even without the activity of the

body?"

When asked on another occasion, why he, a grest Yogi, should perform Karma, such as pouring oblations into the sacrificial fire, and worshipping the image of Str.

Yogi, should perform Karma, such as pouring oblatents into the sacrificial lire, and worshipping the image of Sti Zathunathi, which are practices only meant for beginners, the reply came. "Why do you take for granted that everyone was maken Karma for his own good? Cannot one part of the Karma for others?"

When asked on another occasion, why he, a great Yogi, abould perform Karma, such as pouring oblation into the sacrificial fire, and worshipping the image of Sr Raghunathy, which are practices only meant for beginners, the reply came, "Why do you take for granted that every-body makes Karma for his own good? Cannot one perform Karma for others?"

One of his greet peculiarities was his entire absorption in the task in hand, however trivial. The same amount of care and attention was bestoned on cleaning a copper pot, as on the worship of Siri Raghunathy, he himself being the best example of the secret he once told us of work, "The means should be loved and cared for as if it were the englished."

His humility was not kindred to that which meanly pain and anguish of self-abasement. It apraing naturally from the realisation of that which he once so beautifully explained to us. "O king, the Lord is the wealth of those explained to us." who have nothing - yes, of those," he continued, "who have thrown away all desires of possession, even that of one's own soul"

In appearance he was tall and rather fleshy, had but one eye, and looked much younger than his real age. His voice was the sweetest we have ever heard. The present writer owes a deep debt of gratitude to the departed saint and dedicates these hiers however, unworthy, to the memory of one of the greatest. Masters he has loved and setved.

Ghazipur' March 1890 - I am staying with Pavahann, the wonderful Raja-Yogin, and he has given me some hopes, too There is a beautiful bungalow in a small garden belonging to a gentleman here. I mean to stay there. The garden in quite close to the Babaji's cottage A brother of the Babaji stays there to look after the comforts of the sadhus, and I have my Bhiksha at his place. Hence, with a view to seeing to the end of this fun, I give up for the present my plan of going to the hills. Let me wait and see what Baban will give me.

My motto is to learn whatever good things I may come across anywhere. This leads many friends to think that it will take away my devotion to the Guru

After Srt Ramakrishna's leaving the body, I associated for some time with Pavhari Baba of Ghazipur. There was a garden not far distant from his Ashrama where I lived People used to say it was a haunted garden, but I am a sort of demon myself and have not much fear of ghosts. In that garden there were many lemon tree.

Ghazipur 3-3-90 - The Imbago obstinately recibes to leave me, and the pain is very great. For the last few days I haven't been able to go to see Pavharin, but out of his kindness he sends every day for my report, but, now I see the whole matter is inverted in its hearings! While I myself have come as a beggar at his door, he runs round and wants to learn of me! This sam prethaps is not yet perfected - too much of works, yows, observances, and too much of self-iconcastiment.

By my stay here, I have been cured of all other symptoms of malaria, only the pain in the loins make me frantic, day and might it is aching and chafes me very much. I find wonderful endurance in Babaji, and that is why I am begging something of him, but no inking of the mood to give, only receiving and receiving! So, I also fly off

To no big person am I going any longer. "Remain, O mind, within yourself etc," Says the poet Kamalakanta

So now the great conclusion is that Ramakrishna has no peet, nowhere else in this world exists that unprecedented perfection, that wonderful kindness for all, that does not stop to justify itself, that intense sympathy for the man in bondage. Either he must be an Avatara sabe himself used to say, or else the ever-perfected divine man of whom the Vedanta speaks as the Free One who assumes a body for the good of humanity. This is my conviction sure and certain, and the worship of such a divine man has been referred to by Patrajiali in the aphorism;

15-3-90 - I am leaving the place t morrow. Let me see which was destine leads?

31.3.90. I haven't been breek at the lattice days and am again away today. I have asked brother Gangadhar to come here and if he comes we go over to Blenates tofether. For some special reason, I shall continue to say in secret in a viblage some distance off this place. The news of his atrival is not yet received and his health being bad, I am wery anxious to his take. Have behaved vety cruelly towards him—that is, I have hatswed him much to make him leave my company. There is no help...... I amy overty weak-hearted, so mych overmastered by the distractions of forel.... What thall 1337 about the condition of my mind! Oh, at it is if the hell- fire is burning there day and might! Nothing.

nothing could I do yet! And this life seems muddled, away in vain. I feel quite helples as to what to do! The Babsi; throws out honeyed words and keeps me from leaving Ah, what shall I say? I sam... a man driven mad with mental agones. Abbedananda is suffering from dysentery. . My Gurubais must be thinking me very cruel and selfish Oh, what can I do? Who willsee deep down into my mind? Who will know how much I sm suffering day and nath? My jumpages is as before.

2-4-90 - My salutations to Pramada Babu, his is a friendship which greatly benefits both my mind and body And I am particularly indebted to him. Things will turn up some way, anyhow.

Baranagore 10-5-90 - Directly the hot weather relaxes a little I am off from this place but I am still at a loss where to go

Haghbazar, Col. 26-5-90. I am Ramaktrihna's slave, having laid my body at his feet "with itd and fulsi leaves." I cannot divergated his behest. If it is in failure that that great sage laid down his life after having attained to superhuman heights of Janan, Bhakit, Love and Powers and after having practised for forey years stern renunciation, non-attachment, holiness and great auteries, then where is there anything for us to count or 350, I am obliged to trut his words as the words of one identified with Truth.

Now his behest to me was that I should devote myself to the service of the Order of all-renouncing devoters founded by him, and in this, I have to persevere, come what may, being ready to take heaven, hell, salvatio or anything that may happen to me.

His command was that his all-tenourcing devoted should group themselves together and I am entrusted with seeing to this Of course, it materia not if anyon of us goes out on visits to this place or that, but their shall be but wisits, while his own opinion was that absolute homeless wandering suited him alone who was perfected to the highest point. Before that state, it is proper to settle somewhere to dive down into practice.

So in pursuance of this his commandment, his group of Sannyasins are now assembled in a dilapidated house at Baranggore, and two of his lay disciples. Babu Suresh Chandra Mitta and Babu Balaram Bose, so long provided for their food and house-rent

For various reasons the body of Bhagavan Ramakinhan had to be consigned to fire The remains of his ashte are now preserved, and if they can be now properly enshitmed somewhere on the banks of the Ganges, I presume we shall be able in some measure to expiate the sin lying on our head. These sacred remain, his seat and his perture are everyday worshipped in our Math in proper form, a brother-disciple of mine, of Brahmin parentage, is occupied day and night with the task. The expenses of the worship used also to be borne by the two great souls mentioned above

What greater regret there can be than this that no memorial could yet be raised in this land of Bengal in the very neighbourhood of the place where he lived his life of sadhana - he by whose birth the zace of Bengalees has been sanctified, the land of Bengal has become hallowed, he who came on earth to save the Indians from the spell of the wordly glamour of Western culture, and who, therefore, chose most of his all-renouncing disciples from university men?

The two gentlemen mentioned above had a strong desire to have some land purchased on the banks of the Ganges and see the sacred remains enshined on it, with the disciples living there together; and Suresh Babu had offered a sum of R 1,1000<sup>1</sup>-for the purpose, promising to give more, but for some inscrutable purpose of God, he left this world yesternight! And Balacam Babu's death has already occurred

Now there is no knowing as to where his disciples will stand with his space fermant and his seat. The disciples are Sannyasins and are ready forthwith to depart anywhere their way may he. But, I, their servant, am in an agony of sufferings, and my heart is breaking to think that a small peace of land could not be had in which to install the reasons of Bhadearan Ramakrisharan.

I have not the singhtest qualm to beg from door to door for this noble cause, for the sake of my Lord and hor for this noble cause, for the sake of my Lord and hor Children. To my mind, fall these suncere, educated youthful Sannyasins of good birth fail to live up to the ideals of Sri Ramakrishna owing to want of an abode and help, then also for our country!

If asked "You are a Sannyasin, so why do you trouble over these desires" - I would then reply, "I am Ramakiishna's servant, and I am willing even to steal and rob, if by doing so, I can perpetuate his name in the land of his birth and sadhana, and help even a little bir disciples to practise his great ideals... I have returned to Calcutte for this reason.

Baghbazar, Cal. 4-6-90. It is quite true that the Lord's Will will prevail. We are spreading out here and there in small groups of two or three. I got two letters from Brother Gangadhar. He is at present in the house of Gagan Babu, suffering from an attack of influenza. Gagan Babu is taking special care of him. He will come here is soon as he recovers.

6-7-90 - I had no wish to leave Ghazipur this time, and certainly not to come to Calcutta, but Kali's illness made me go to Banezas, and Balzam's sudden death brought me to Calcutta So, Suresh babu and Balaram Babu have both gonel GC Ghosh is supporting the Math. I intend shortly, as soon as I can get my fare, to go up to Almora and thence to some place in Gharwal on the Ganges where I can settle down for a long meditation Gangadhar is accompanying me. Indeed it was with this desire and intention that I brought him down from Kashmit.

I am in fine bealth now.

I was once travelling in the Himalayas and the long road stretched before us. We poor monks connot get any one to carry us, so we had to make all the way on foot. There was an old man with us. The way goes up and down for hundreds of noiles, and when that old monk to the sand. "Oh. Str., how to cross." it? I cannot walk any more, my chest will break." I said to him, "Look down at your feet." He did so, and I said, "The road that is under your feet is the road that you see before you; it will soon be under your feet." The highest.

## nature Be strong, get beyond all superstition, and be free-

Many times I have been in the jaws of death, starying, footstore, and weary, for days and days I had had no food, and often could walk no further, I would sink down under a tree, and life would seem ebbing away I could not speak, I could scarcely think, but at last the mind reverted to the idea "I have no fear of death, I never hunger or thirst. I am it, lam it, the whole of nature cannot crush me, it is my servant. Assert thy strength, Thou Lord of Lords and God of Gods! Regain Thy lost empire! Arise and walk and stop not!" and I would rise \( \) up, re-invigorated, and here am I, living roday

Real monasticism is not easy to actain. There is no order of his or rigorous as this. Ill you stumble ever so little, you are hurled down a precipice - and are smashed to pieces. One day I was travelling on foot from Agra to Virindaban. There was no farthing a time. I was about a couple of miles from Virindaban, when I found a man smoking on the roadside - and I was seried with a desire to smoke. I said to the min, "Hello, will you let me have a puff at your chillsum?" He seemed to be hesitating streatly and said. "Sir, I am a sweeper!" Well, there was the miluence of the old samukarar, and I

immediately stepped back and resumed my journey without smoking. I had gone a short distance when the thought occurred to me that I was a Sannyasin who had remounced caste, family, prestige and everything and still drew back as soon as the man gase himself out at sweeper, and could not smoke the chillum touched by him. The thought made me restless as theart then I had walked on half a mile. Again, I retraced my steps and came to the sweeper whom I found still string there. I hasterist to tell him. "Do prepare a chillum of tobacco for me, my dear friend". I paid no heed to his objection and missees with himself. So, the man was compelled to prepare 3.

You find that in every religion, mortifications and arcticisms have been practized. In these religious convergions the Hindus always go to the extremes. day, the teacher got amazed and said, "Swamiji, I could not make you understand the meaning of the first aphorism even in three days, I fear, you will not be much benefited by my teaching " Hearing these words, a great self-reproach came over me Putting food and sleep aside. I set myself to study the commentry on the first aphorism independently. Within three hours the sense of the commentary stood explained before me as clearly as anything Then going to my teacher. I gave him the sense of the whole commentary My teacher, hearing me said, "How could you gather the sense so excellently within three hours, which I failed to explain to you in three days?" After that, every day, I began to read chapter after chapter, with great case Through concentration! of mind everything can be accomplished - even mountains can be crushed to atoms

In Malabar the women lead in everything Exceptional cleanliness is apparent everywhere, and there is the great importus to learning. When I myself was in that country. I mer many women who spoke good Sanskirt, while in the rest of India, not one woman in a miltion can sheak it.

Once while I was putting up at Manmatha Babu's place (in Madras), I dreamt one night that my mother had died My mind became much distracted Not to speak of correspondence with anybody at home, I used to speak of correspondence with anybody at home, I used to speak of correspondence with anybody at home, I used to speak of correspondence with anybody at home, I used to speak of correspondence with anybody at home, I have a speak of the distraction of the distraction

At first, the man took absolutely no notice of us, and then, when we were about to retriet from the place, he made a request to us to wait.

Next, the man commenced drawing some figures with a pencil, and presently found him getting perfectly still in mental concentration. Then, he began to give our my name, my genealogy, the hittory of my long line of forefathers, and said that Sit Ranakrishna was keeping close to me all through my wanderings, intimating also to me good news about my mother. He also forefold that I would have to go very soon to far-off lands for preaching tellston. Getting good news thus about my mother, we all travelled back to town, and after arrival these, received by wire from

I know very little of this science (of mind), but for the little that I gamed. I worked for thirty years of my life, and for six years I have been telling people the little that I know. It took me thirty years to learn it, thirty years of hard stringgla. Sometimes I worked at it twenty—hours dourn in the night, sometimes I worked whole mights, sometimes I lived in places where there was hardly a sound, hardly a breath sometimes I had to live in caves. Think of that I had be I have listed the little of the science. But, I can understand that it is true and vast and wonderful

I have met some who told me they did remember their previous life. They had reached a point where they could remember their former incornations.

In the course of my wanderings, I was in a certain place where prople came to me in crowds and asked for instruction. Though it seems almost unbelievable, people came and made me talk for three days and might without Ametica immediately, and I felt rather unsulling to leave before getting any news of my mother. So Manmith, who discerned this state of my mind suggested out repairing to a man living some way off from rown, who having acquirted mystic powers over apritis could tell fortunes, and tead the past and future of man's life. O, the days of suffering I passed through! Once after eating nothing for three days. I fell down senseless on the road I did not know how long I was in that state When I regained my consciousness I found my clothing wet through a shower of rain. Drenched in it, I felt somewhat refreshed I arose, and after trudging along some distance, I reached a monastery, and my life was saved by the food I received there.

I find that whenever I have made a mistake in my life, it has always been because left entered into the calculation, where self has not been involved, my judgement has sone straight to the mark.

I had from before a desire to go to Chicago When at Madras, the people there of their own accord, in conjunction with the H iii of Mysore and Ramnad, made every arrangement to send me up. Between the H H of Khetti and myself there exist the closest tree of love. Well, I, as a matter of course, wrote to him that I was going to America. Hearing this, the man shrank in fear, he was subject of the Maharajah of Kheeri and was afraid tha if the latter came to hear that he, a cobbler, had given Chapatis to a Sannyasın, he would be severely dealt with and possibly banished from the State I told him. however, that he need not fear and the Maharajah would not punish him. ## THE DIVINE CALL AND THE CHICAGO PARLIAMENT OF RELIGIONS

I do not take into any consideration whether peop accept Sti Ramakrishna's name or not, but I am ready thay down my life to belp his teachings, his life and h message spread all over the world

I am called by the Lord for this I have been dragge through a whole life full of crosses and tortures. I hav seen the nearest and dearest die, almost of starvation: have been tidiculed, distrusted, and have suffered for me armonally for the very men who scoff and scort me

I do not care for liberation, or for devotion, I would rather go = a hundred thousand hells, "doing good to others (silently) like the spring" - this is my religion

From Bombay we reached Colombo Our steams remained in post nearly the whole day, and we took if opportunity of getting off to have a look at the town. We drove through the streets and the only thing I remember was a temple in which there was a gigantic Murti (image) of the Lord Budha in a reclining posture, entering Nirwana

The next station was Penang, which is only a strip of land along the sea in the body of the Malay Peninsula. On our way from Penangro Singapore, we had glimpses of Sumatra with its high mountains, and the captain pointed out to me several places as the favourite haunts of pirates in days gone by.

Singapore has a fine botanical garden with the most splendid collection of palms. The beautiful fan-like palm called the traveller's palm, grows here in abundance, and the breadfunt tree is everywhere. The celebrated mangoteen is as plentiful here as mangoes in Madras, but mango is monpared. Singapore possesses a fine museum, too

Hong Kong next. Yon feel you have reached China, the Chinese element predominates so much. All labour, all trade seems to be in their bands. And Hong Kong is real China. As soon as the steamer casts anchor, you are beinged by hundreds of Chinese boast to carry you to the land. These boats with two helms are tather peculiar. The boatman lives in the boat with his family. Almost always the wife is at the fielms managing one with her hands and the other with one of her feet. I have seen three big cities in the interior - Osaka, a great manufacturing town, Kioto, the former capital, and Tokyo, the present capital Tokyo is pearly twice the size of Calcutta with nearly double the population

The match factories are simply a sight to see

I saw quite a lot of temples In every temple, there are some Sanskin Mantras written in old Bengali characters Only a few of the priests know Sanskitt But they are an intelligent sect

I have heard in Japan that it was the belief of the girls of that country that their dolls would be animated if they were loved with all their heart. The Japanese girl never breaks her doll

There in Japan you find a fine assimilation of knowledge...They have taken everything from the Europeans, but they remain Japanese all the tame, and have not turned Europeans. They are great as a nation because of their art

And one special feature about them (the Japanese) is this that while in Europe and elsewhere Art generally former to the transfer of the trans

is entirely different from what you see in Ceylon. It is the same as Vedenta. It is positive and thenric Buddhirm!

I hold the Makayana to be older of the two schools of Boddhism

The Shvetashvatara Upanishad contains the work "Maya". I hold that Upanishad to be at least older that Buddhism

The theory of Maya is as old as the Rik Samhita

- I have had much light of late about Buddhism, and I am ready to prove 1. That Shiva worship in various forms antedated
- the Buddhists, that the Buddhists tried to take hold of the sacred places of the Sharvas but failing in that, made new places in the precints just as you find now at Bodh-Gaya and Sarnath (Benares).
- 2. The story in the Agni-Purana about Gayasura does not refer to Budba at all - as Dr Rasendralal will have it - but simply to a pre-existing story 3. Gava was a place of ancestor-worship already,
- and foot-print worship the Buddhists conied from the Hindus.
- 4 That Buddha went to live on Gaya-sirsha mountain proves the pre-existence of the place
- 5. About Banazas, even the oldest records go to prove it as the great place of Shiva-worship etc. etc.
- In China and Japan, on the walls of all temples I have observed various monosyllabic Mantrams written in big oils letters, which approach the Bengali characters so

much that you could easily make out the resemblance I shought. I have tried India, it is time for me to try

are time the Parliament of

Religions was to be held, and someone was to be sent from India I was just a vagabond, but I said, "If you send me, I am going I have not much to lose, and I don't care if I lose that." It was very difficult to find the money, but after a long struggle, they got together just enough to pay for my passage-snd I came-came one or two months earlier, so that I found myself drifting abour in the street's here. Without knowing anybody

That I went to America was not my doing, or your doing, but the God of India, who is guiding her destiny tent me

In view specially of the poverty and ignorance (in India). I had no aleep At Cape Comortin, sitting in Mother Kumari's temple, sitting on the last bit of Indian rock - I hit upon a plan the first thing we need is men, and the next is funds. Through the grace of the Guttu, I was sure to get men. I next travelled in search of funds. I have come to America to earn morey imprell and then return to my country, and devote the rest of my days to the resistance of this man of my life.

Metcolit(Mass U.S.A). 20-8-1893 - From Japan I teathed Vancouver. The way was by the Northern Partie. It was very cold and I suffered much for wayer of watern clothing. However, I reached Vancouver anyhow, and thence went through Canada to Chicago Iremained about 12 days in Chicago. And almost averyday I used to got to the Fair. It was a tremendous affair. The lady to whom Vatada Rao introduced me, and her butband, belong to the highest Chicago society, and they were so very fund to me. I took my departure from

Chicago and came to Boston. Mr Lulloobhoy was wit me up to Boston He was very kind to me.

The expense I am bound to run into here is a wful. On an average it costs me £I everyday, a cips cost eight annus of our money. The Americans are so rich that the spend money like water, and by forced legislation kee up the pitce of everything so high that no other nation on eatth can approach it. Every common coolie estimates were supposed as an expensive the server common to sight against impossibilities. A bundred times I had a mind to go out of the country and go back to India. But. I am determined and I have no way, but His eyes see. And I must stick to my guns, life or death.

Jux now I am hvng as the guest of an old lady in a village near Boston I accudently made her acquaintance in the trailersy tram, and the invited me to come over and live with her I have an advantage in hvng with her, saving for some time my expenditure of 21 per day, and she has the advantage of inviting her friends over here, and showing them a curio from India\* And all this must be borne. Starvation, cold hooting in the streets on account of my quaint dress, these are what I have tyfight against. But, my dear boy, no great things were ever done without ereat fabour.

This is the land of Christians, and any other influence than that is almost zero. Nor do I care a bit for the enmity of any "ists" of the world I am here amongst the children of the Son of Mary, and the Lord Jesus with help me. They like much the broad views of Hindurst and my Jove for the Prophet of Mazneth. I tell the I preach nothing against the Great One of Galilee. I onleask the Christians to take in the Great Ones of Indialong with the Lord Jesus, and they appreciate it.

Yesterday, Mrs. Johnson, the lady supermendent; the women's prison, was here They don't call it priso but reformatory. It is the grandest thing I have seen; America. How the immates are benevolently treated that they would be appropriately the seen of the second and the secon

They sink lower and lower everyday, they feel the blows showered upon them by a cruel society. and they do not know whence the blow comes They have forgotten that they too are men. Thoughtful people within the last few years have seen it, but unfortunately laid it at the door of the Hindu religion, and to them the only way of bettering is by crushing this grandest religion of the world Hear me, my friend, I have discovered the secret through the grace of the Lord Religion is not at fault. On the other hand, your religion teaches you that every being is only your own self multiplied. But it was the want of practical application, the want of sympathy the want of heart. The Lord once more came to you as Buddha and taught you how to feel, how to sympathise with the poor, the miserable, the sinner, but you heard him not ...

Salem Sept 4, 93 - I have received a letter from Mr Theles of Chicago giving the names of some of the delegates and other things about the Congress.

countries. It is the first time in the history of the world that a Hindu monk crossed the ocean.

When I, a poor, unknown, friendless Sannyasin was going to America, going beyond the waters to America without any introductions or friends there, I called on the leader of the Theosophical Society. Naturally I thought, he being an American and a lover of India, perhaps, would give me a letter of introduction to somemost of your doctrines " 'Then, I am sorry I cannot anything for you," he answered That was not pay the way for me I reached America through the help of few friends in Madras I attived in America sever months before the Parliament of Religious began. To money I had with me was little, and it was soon sper Winter approached and I had only thin summer clothe I did not know what to do in that cold, dreary climat for if I went to beg in the streets, the result would be that I would be sent to juil There I was with the lat few dollars in my socker.

I sent a wire to my friends in Madras. This came to be known to the Theosophists, and one of them wrote "Now the devil is going to die, God bless us all." Was that paving the way for me? I would not have mentioned this, but as my countrymen waited to know, ill must come out. For three years I have not opened my lips about these things. Shence has been my motto, but today the thing has come out. That was fint all I saw some Theosophists in the Parliament of Religions, and I waited to talk and mix with them. I temember the looks of scorn which were on their faces as much as to agy, "What business has this worm to be here in the midst of the Gods?"

Chicago: 20-9-93-1 came here to seek aid for my improversished people, and I fully realised how difficult it was to get help for the heathen from Christians in a Christian Ind. I must try to the end First I will try in America, and if I fail, I will try in England, if I fail there, too, I can go back to India. and want for further commands from On High

It must be particularly remembered that the same ideals and activities do not prevail in all societies and countries. Our ignorance of this is the main cause of much of the hatred of one nation towards another. It is very hattaful, it is the cause of half the uncharitableness found in the world. When I came to this country (America) and was going through the Chicago Fair, a man from behind pulled at my turban I looked back and saw that he was a very sentlemanly looking man. neatly dressed. I spoke to him, and when he found that I knew English he became very much abashed On another occasion, in the same Fair, another man gave me a push. When I asked him the reason, he also was asbamed and stammered out an apology saying, "Why do you dress that way !" The sympathies of these men were limited within the tange of their own language and their own fashion of dress. Much of the oppression of powerful nations on weaker, ones is caused by this premadice It dries up their fellow feeling for fellow-men. That very man who asked me why I did not dress as he did and wanted to ill-treat me because of my dress, may have been a very good man, a good father and a good Citizen; but the kindliness of his nature died out as soon as he saw a man in a different dress!

Before I knew the customs of this country (America) I received such a shock when the son, in a very refined

family, got up and called the mother by name ! However. I got used to that. But with us (in India) we never pronounce the name of our parents, which they Present.

I belong to an Order very much like what you have in the Mendicant Friars of the Catholic Church; that is

to say, we have to go about without very much in the way of dress and beg from door to door, live thereby. preach to people when they want it, sleep where we can get a place "that way we have to follow. And the rule III that the members of this Order have to call every woman "mother" Coming to the West, that old habit remained and I would say to ladies, "Yes mother," and they were horrified. I couldn't understand why they should be horrified Later on. I discovered the reason: because that would mean that they were old? Power comes to him who observes unbroken Brahmacharge for a period of twelve years, with the sole object of realising God I have practised that kind of Brahmacharya myself, and so a screen has been removed. as it were, from my brain. For that reason, I need not any more think over or prepare myself for any lectures on a subtle subject as philosophy Suppose I have to lecture enmorrow, all that I shall speak about will pass conight before my eyes like so many pictures, and the next day. Tout into words during my lecture all those things that 57

Chicago. 2-10-93 - I dropped on the Congress in the eleventh hour, and quite unprepared, and that kept me very busy for some time. I was speaking almost everyday in the Congress. The Congress is now over.

I was to afraid to stand before that great assembly of fine speakers and thinkers from all over the world and speak, but the Lord gave me strength and I almost everyday heriocally faced the audience If I have done well, He gave me the strength for it

Prof Bradley was very kind to me and he always cheered me on And oh! everybody is so kind here to me who am nothing Glory unto Him in the highest in whose sight the poor ignorant monk from India is the same as the learned divines of this mighty land And how the Lord is helping megyery day of my life I sometimes wish for a life of million ages to serve Him through the work dressed in rass and fed by charity.

Here were some of sweet ones from India-the tenderhearted Buddhist Dhammapal and the orstor Mazoomdar,

Col Higginson, a very broad man, was very sympathetic to me lam going to Evansion tomorrow and hope to see Prof Bradley there

At first in America I was almost out of water. I was affind I would have to give up the accustomed way of being guided by the Lord and cater for myself - and what a horrid piece of muschief and ingrastrude was that. I now clearly see that He who was guiding me on the snow tops of the Himalayas and the burning plants of India is here to belp me and guide me. Givey mits Him.

Somebody or other gives me a shelter and food and somebody or other comes to aske to speck about Hum and I know He sends them and mine is to obey. And then He III supplying my necessities, and His will be done.

When I come to Chicago, I always go to see Mr and Mrs Lyons, one of the noblese couples I have ten here Chicago: 10-10-93 - Just now I am lecturing cout Chicago, and I am doing, as I think, very well—it ranging from 30 to 80 dollars a lecture and just now have been so well advertised in Chicago greats by the

gagements every day this week.

So I want to go to work earnestly for my own project only keeping the project in the backround and working like any other lecturer.

He who has brought me hither and has not left me yet will not leave me ever. Of course, I am too green in the business (of getting money), but would soon learn the trade. I am very popular in Chicago. So I want to say here a little more and get money.

Tomorrow, I am going to lecture on Buddhism at the ladies' fortnightly club - which is the most influential in this City I think the success of my project probable.

2-11-93 - At a village near Boston, I made the sequents need of Dr. Wright, Professor of Greek in the Harvard University. He sympathised with me very much and ured uron me the necessity of going to the Parliament of Religions, which be thought would give me an introduction to the nation. As I was not acquainted with anybody, the Professor undertook to arrange everything for me and eventually I came back to Chicago. Here the coircuits and occudental delegates to the Parliament of Religions and I were all ledged in the bouse of a struleman.

On the morning of the exeming of the Parliament, we were all assembled in a building called the Art Palace, where one huge and other smaller temporary halls were remed for the artings of the Paliament. Men tion all harmons were there. From India were Mazonedate of the Brishno Samas, and Nagarkar of Bombay, Mr. Gandhi representing the Jarva, and Mr. Chalvasaru.

representing Theosophy with Mrs. Annie Beint. Of these, Matoomdar and I were, of course, eld friends, and Chafravarit knew me by name. There was a grad procession, and we were all marshalled on to the platform

Imagine a hall below and a huge gallery above. packed with six or seven thousand men and women representing the best culture of the country and on the platform learned men of all the nations of the earth. And I, who never spoke in public in my life, to address this august assemblage! It was opened in great form with music and ceremony and speeches, then the delegates were introduced one by one, and they stepped up and spoke Of course, my heart was fluttering and my tongue nearly dried up I was so nervous, and could not venture in speak in the morning. Mazoomdar made a nice speech, Chakravarts a nicer one, and they were much applauded. They were all prepared and came with ready-made speeches. I was a fool and had none, but bowed down to Devi Saraswatt, and stepped up, and Dr. Barrows introduced me I made a short speech I addressed the assembly as "Sisters and Brothers of America,"-a deafening applause of two minutes followed and then I proceeded and when it was finished I sat down, almost exhausted with emotion. The next day all the papers announced that my speech was the bit of he day, and I became known to the whole of America. Truly has it been said by the great commentator Sridhata मुद्र क्रोति वाचालम् " "Who maketh the dumb a fluent peaker." His name be praised ! From that day I became

hall was packed as II had never been before. I quote from one of the papers. "Ladies, ladies, ladies packing every place-filling every conner, they patiently waited and waited while the papers that separated them from Vivekansnda were read, etc. Suffice it to say that whenever I went on the platform a defeating applause would be raised for me. Nearly all the papers paid high tributes to me, and even the most bioted had to admit that "This man with his bandsome face and magnetic presence and wonderful oratory is the most prominent figure in the Parliament' etc .....

I have no more wants now I am well off, and all the money that I require to visit Europe I shall get from here...

Many of the handsomest houses in this city are open to me — All the time I am living as a guest of somebody or other

The Lord will provide evtything for me.. Day by day I am feeling that the Lord is with me, and I am trying to follow His direction. His will be done. We will do great things for the world, and that for the take of doing good and not for name and fame.

It is a great art to press the largest amount of though had to be cut very short. More than a thousand papers had to be cut very short. More than a thousand papers were read, and there was no time to give to wild percorations. I had a good long time given to me over the ordinary half hour, because the most popular speakers were always put down last, to hold the audience. And

Lord bless them what sympathy they have, and what patience! They would sit from ten o'clock in the membel to ten o'clock at suith-enly a recess of half an hear fer a meal, and paper after paper tend, most of them very titivals, but they would wast and wast to hear their favourite.

I cease from quoting more lest you should think me concerted

I am the same here as in India, only here in this halfsy cultured land there is an appreciation, a sympathy. There our people gradge us monks a crumb of bread, here they are ready to pay one thousand rupees a lecture and remain grateful for the instructions for ever I am appreciated by these strangers more than I was ever in India I can, if I will, live here all my life in the greatest luxury, but I am a Sannyasin, and "India, with all thy faults I love thee still "So, I am coming back (to India) and go on sowing the seeds of religion and progress from city to city, as I was doing so loop?

I have travelled all over India, and seen this country, too "Admist all the scriptures and Puranas, know this statement of Vyasa to be true, ther doing good to others conduces to ment, and doing harm to them leads to sin."

"Fifty years ago," said Ingersoll to me, "You would have been hanged in this country if you had come to preach. You would have been burnt aline or you would have been stoned out of the willages."

## ✓ CHAPTER VI MARCH OF EVENTS

As our country is poor in social virtues, so this country (America) is lacking in spirituality. I give them spirituality, and they give me money. I do not know how long I shall take to realise my end I shall take to realise my end I shall try to carry out my plans or die in the attempt You my pethaps think what Utopian nonsense all this 11 You little know what is in me Gurudeva will show me the way out.

I have heard many stories about the American home of liberty running into keence, of unwomanly women smashing under their feet all the peace and happiness of home-life in their mad liberty-dance and much noneess of that type And now after a year's experience ( American homes, of American women, how utterly fill and erroneous that sort of judgement appears! American women, how underd lives would not be sufficient to 72 my deep debt of grantude to you! I have not word appears to suppose to growth to growth my deep debt.

Last year I came to this country in summer, a wandering preacher of a far durant country, without name, time, wealth, or learning to recommend mentioned, helpless, almost in a state of destitution. And American women befirended me, fave me shelter and food, took me to their homes and treated me as their own sen, their own brother. They stood as my friend even when their own priests were trying to private them to give up the "dangerous beathers" even when

day after day them best friends had told them not to stand by this "unknown foreigner, maybe, of dangerous character". But they are better judges of character and soul-for it is the pure mirror that catches the reflection.

And how many beautiful bomes I have seen, how many mothers whose purity of character, whose unselfish love for their children are beyond expression, how many daughters and pure maidens, "pure as the icicle on Dana's temple" and withal with much culture, education and spirituality in the highest sense. Is America then full of only wingless angles in the shape of women? There a good and bad everywhere true, but a nation is not to be judged by its weakings, but by the good, the noble and the pure

And then the modern American women - I affinite their broad and liberal minds

There are thousands of women here (in America) whose minds are as pure and white as the snow of this country. And look at our girls (of India), becoming mothers below

surprised to meet so many liberal men and women. But after the Patliament of Religions, a great Presbytein paper came out and gave me the benefit of a seething article. This the editor called enthusiasm

I pity the Hindu who does not see the beauty it Jesus Christ's character. I pity the Christian who does not reverence the Hindu Christ

Detroit 12-3-94 - I am now living with Mr Palmet. He is a very nice gentleman. I spoke at an opera house for two hours and a half. People were very much plessed. I am going to Boston and New York. I am not going to lecture in Michigan. Mr Holden tried to persuade me this morning to lecture in Michigan. To tell the trith the more I am getting popularity and facility in spealing the more I am getting fed up. My last address was the best I ever delivered. Mr Palmer was in eccesses and the audience remained almost spell-bound, so much 30 that it was after the lecture that I found I had spoken 30 lone.

15-3-94 - The funniest thing said about me here was no of the papers which said. "The cyclonic Hindu has come, and is a guest with Mr. Palmer . . . .". The first lecture was not properly managed, the cost of the hall being 150 dollars.

I am pulling on well with old Palmer He 19 a very jolly, good old man. I got only 127 dollars by my last lecture I am going to speak again in Detroit on Monday.

## Mr Palmer makes me laugh the whole day

This mixing with hundreds of varieties of the human animals has disturbed me I will tell you what is to my taste, I cannot write and I cannot speak, but I can think deeply, and when I am heated, can speak fire It should be, however, to a select, a very select few

Just because this assertion of independence, this pround that man in set a machine, is the essence of all religious thought, it is impossible to think of it in the routine mechanical way. It is this tendency to bring everything down to the level of a machine that has given the West its wonderful prosperity. And it is this which has driven away all religion from its doors. Even the little that is left, the West has reduced to a systematic drill

Detron. 17-3-94 - I have recurred today to Mrs Bagley's as she was very sorry that I should remain so long with Mr Palmer In Palmer's house, there was real 'good time' He is a real jovual heartwhole fellow.

18-3-94 - There was a letter from my brethen at Calcutta and it was written on the occasion of a private invitation to celebrate the birthday of my Master. The letter says that Mazoomdar has gone back to Calcutta and its preaching that Viveknanda is commuting every sin under the sum in America. This is your America's wonderful spiritual men! It is not their fault; until one is really spiritual, that is, funtil one has got a real insight into the nature of one's own soul and has got a ghimpse of the world of the soul, one cannot

The address smale the letter of the English and it my cold have written by a comparison of my glad-deed on his also taken orders. It is a very potent artering the action the letter in an abbressione, the felling bong Natendra meaning the "Chief of most itself means man and "India" stands for roler in els very ludations sint at? But such are the names our country me cannot help, but I am glad I have en this time.

Chicago 19-3-94-1 have no wants in this country, the midicancy has no vogue bere and I have to labor, it is, lecture in places. It is as cold here as it is bette summer is not a bri less hot than at Calcutta. And we to describe the cold in winter? The whole country covered with snow, three or four feet deep, say, if of ven feet, at place? In the southern parts there is no ow. Snow, however, is a thing of hitle consideration ite. For it snows when the mercury stands at 32 sigrees F. In Calcutts, it seacely come down to 60 sigrees, and it rarely approaches zero in England. But the your mercury snikt to missue 3 or 5 degrees. In anada, in the north, mercury becomes condensed, when ser have one see the alcohol theremomers.

When it is too cold, that is, when the mercuty rands even below 20 deg. F., it does not snow. I used a think that it must be an exceedingly cold day on thich the snow falls. But it is not so; it snows on comparatively warm days. Extreme cold produces a sort of intoxication; no carriages would run; only the sledge, which is without wheels, slides on the ground! Everything is frozen stiff: e-even an elephant can walk on rivers and canals and likes: The massive Falls of Niagara: of such tremendous velocity, are frozen to marble!!! But, I am doing nicel! I was a little sfraid at first, but necessity makes me travel by rail to the borders of Canada one day, and the next day finds melectroning in South America! The carriages are kept quite warm, - like your own room, by means of steam pipes, and all round are masses of snow, spotleasly white, - oh othe beauty of it.

I was mortally afraid that my nose and ears would fall off, but to this day they are all right. I have to go out, however, dressed in a heap of warm clothing surmounted by a furcoat. No sooner you breathe out than the breath freezes among the beard and moustache! Notwithstanding all this, the fun of it is that they won't drink water without purting a lump of ice into it. This III because it is warm indoors Every room and the staircase are kept warm by steam pipes. They are first and foremost in arts and appliances, foremost in enjoyment and luxury, foremost in making money, and foremost in spending it. The daily wages of a coolie are six rupees as also are those of a servant: you cannot hire a cab for less than three rupees, nor get a cigar for less than four annas. A decent past of shoes costs twenty-four supees and a sust, supees five hundred As they earn, so they spend A lecture fetches two hundred m three thousand rupees I have got up to five hundred. Of course, now I am in the very heyday of fortune. They like me, and thousands of people come to hear me speak.

As it pleased the Lord, I met here Mr. M. He was very cordual at first, but when the whole Chicago population began to flock to me in overwhelming numbers, then grew the canker in his mind!. The priests tried their utmost to snub me But the Guru is with me, what could anybody do? And the whole American nation loves and respects me, pays my expenses, and reverse me as a Guru It was not in the power of the priests to do anything against me Moreover, they are a nation of scholars. What they want is philosophy, learning and empty talk will no more do

Nowhere in the world are women like those of this country. How pure, independent, self-relying and kind-pheated! It is the women who are the life and soul of this country. All learning and culture are centred in them.

This is a very funny country. It is now summerthis morning it was as hot as April in Bengal, but now it
is as cold as February as Allashadd I so much fluctuation within four hours! The horels of this country
beggar description. For instance there is a hotel in New
York where a room can be hired for up to Rs 5,000-a
day, excluding board charges. —Not even in Europe is
there a country like this in point of luxury. It is indeed
the richest country in the world. I seldom live in horels,
but am mostly the guest of his people here. To them I
am a widely known man. The whole country knows me
now, so wherever I go they receive me with open arms
into their homes. Mr. H's home is my centre in Chicago

I scattely find a family so highly pure and kind. Oh, how wonderfully kind they are?

As for lectures and so forth, I don't prepare them beforehand Only one I wrote out. The test I deliver off-hand, whatever comes to my lips—Guradeva backs ree up. Once at Detroit I held forth for three hours at a stretch. Sometimes I myself wonder at my own achievement—to think that there was such stuff in this pate!

A friend criticised the use of European terms of photosophy and religion in my addresses. I would have been very field to use Sanskrit terms, it would have been much more easy, as being the only perfect vehicle of religious thought. But the friend forgets that I was addressing an audience of western people, and although a certain Indian Missionary declared that the Hindus had forgotten the meaning of their Sanskrit books, and that it was the missionairies who unearthed the meaning, I could not find one in that large concourse of Missionaires who could understand a line in Sanskrit-and yet some of them read learned papers criticising the Vedas, and all the ascept sources for the Hindus religion!

Detroit 30-3-94 - I am very glad to receive the Khetri letter... He (the Raja) wants some newspaper clippings. Miss Breed wrote to me a stiff burning letter first, and then I got a telegram from her inviting me to be her guest for a week. Before this, I got a letter from Miss Smith of New York writing on her behalf and another lady Miss Helen Gould and another Dr. asking me to come over to New York. As the Lynn

Next summer if I do not go away and Mrs. Bagley nsists I should not - I may go to Annisquam where Mrs. lagley has engaged a nice house Mrs. Bagley is a very piritual lady and Mr. Palmer a spiritual gentleman but ery good. I am all right in nice health of body and aind.. Afes. Sherman has presented me with a lot of nings, amongst which is a nail-set and letter holder an little satchel, etc. etc. Although I objected, especiall, the nail-set, as very dudish with mother of peat andles she insisted and I had to take them, though I do ot know what to do with that brushing instrument ord bless them all! She gave me one advice - never to ear this Afrikee dress in society Now I am a society

an I Lord I what comes next? Long life brings queer periences I New York: 9-4-94 - I have lectured in many of s big towns of America. I have made a good many ends here, some of them very influential. Of course, orthodox clergymen are against me and seeing that

s not easy to grapple with me, they try to hinder, ise and vilify me in every way... Lord bless them! I believe that the Satya-yuga will come when there I be one caste, one Veda, and peace and harmony. is idea of Satya-yuga is what would revivify India. I have an old mother. She has suffered much all life and in the midst of all she could bear to give me for the service of God and manThe cat in out of the bag-without my seeking at all. And who is the editor of one of our (Indian) papers which praises me so much, and thanks God that I came to America to represent Hindiaism? Mazoomdar's coustil Poor Mazoomdar-he has injured his cause by relling lies through jealousy. Lord knows I never attempted any defence.

I had a very good time in Boston at Mrs. Bred's as w Prof Wright I am going to Boston again. The tailor is making my new gown, I am going to speak at Cambridge University (Harvard) and would be the guest of prof Wright there. They write grand welcomes in the Boston papers inviting the

2nd May 94 - I could not find the exact orange color of my coat here, so I have been obliged to satisfy myself with the next best, a cardinal red with more of yellow. The coat will be ready in a few days.

Got about 70 the other day by lecturing at Waldorf and hope to get some more by tomorrow's lecture.

From 7th to 18th there are engagements in Boston but they pay very little.

our people wanted to send me for it I came over telling them." that may or may not join that assembly-and you may send over if you like." They sent me over leaving me quite free. I do not care for the attempts of the old Missionary, but the fever of pealousy which attacked Mazoomdar gave me a terrible shock, and I pray that he would know better-for he is a great and good man who has tried all his life to be good. But this proves one of my Master's sayings. "Ive in a room covered with black soot; however careful you may be, some spots must stick to your clothes."

So however one may try to be good and holy-so | | / long he is in the world - some part of his nature must | | + gravitate downwards

I was never a missionary nor ever would be one-my place is in the Himalayas. I have satisfied myself so far that I can with a full conscience say, God -I saw terrible misery among my brethren I searched and discovered the way out of it, tried my best to apply the remedy but failed - so The will be done.

24-5-94. 'Some would call you a saint, some a chandala, some a lunatic, others a demon, go on then straight to thy work without heeding any,' thus tayeth one of our great Sannyasins, an old Emperor of India, King Bhartthan who joined the Order in old times.

Chicago: 28-5-94 I was whithing to and fro from New York to Boston. I do not know when I am going back to India. It is in the hands of Him who is at my back directing me. Have drove a good deal of lecturing here.....

18-6-94. I am going to New York in a week. N Bigley neems to be uncertied by that arricle in the Pospaper against me. She sent me exer a copy from B rout, and his ceased correspondence with me. Lord E. her, the has been very kind to me.

20.6.94 The backbiters, I must tell you, had a andirectly benefited me on the other hand, they h injured me immensely in view of the fact that our Hire people did not move a finger to tell the Americans the I represented them Did our people send some were thanking the American people for their kindness to # and stating that I was representing them? No, the told the American people that I had donned the Sannya sin's garb only in America and that I was a cheat, bare and simple. So far as reception went, it had no effec on the American nation, but so far as helping me with funds went, it had a terrible effect in making them take off their helping hands from me And it in one year since I have been here, and not one man of note from India had thought it fit to make the Americans know that I am no cheat. There again the missionaries are always eacking for something against me and they are buty picking up anything said against me by the Christian 4 1 2 17 L' - '- 1 " : people here

So, I crossed over to America I begged all the money from the poor, and the offers of the rich I would not accept because they could not understand my ideas Now lecturing for a year in this country. I could not succeed at all (of course, I have no wants for myself) in my plan of raising some funds for setting up my work. First this year ma bad year in America, thousands of their poor are without work. Secondly, the missionaties and thetry to thwart all my views Thirdly, a year has rolled by, and our countrymen could not even do so much for

me as to say to the American people that I was a real Sannyasin and no cheat, and that I represented the Hindu religion Even this much, the expenditure of a few words, they could not do ! (yet) I love them . He who has been with me through hills and dales, through

deserts or forest, will be with me. I hone I am sincere to the backbone, and my greatest fault is that I love my country only to well 23-6-94: Mrs Potter Palmer is the chief lady of the United States. Now as to my prospects here - it is well night Why, because although I had the best purpose it has made null and void by these causes All that I get India is from Madras letters. The letters say again again how I am being praised in India But, I never a single Indian paper writing about me except the square inches sent to me by Alasinga. On the hand, everything that is said by Christians in Ind sedulously gathered by the missionaries and regi published and they go from door to door to make friends give me up They have succeeded only too for there is not one word for me from India. It Hindu papers may laud me to the skies, but not a of that ever came to America, so that many people this country think me a fraud. In the face of missionaries and with the realousy of the Hindus her back them, I have not a word to say I now thin

I had one man of some true abilities and brains to back me in India ! But His will be done I stand a fraud in this country. It was my foolishness to go to the Parliament without any credentials, hoping that there would be many for me I have to work it out slowly.

Fuery moment I expected something from India. No. if never came Last two months especially I was in torture every moment. No. not even a newspaper from India ! My friends waited waited month after month. nothing came, not a voice. Many consequently grew cold and at last gave me up But, it is the punishment for relying upon man,

My thanks eternal to the Madras young men May the Lord bless them for ever . . I am praying always for their welfare and am I not in the least displeased with them, but I am not pleased with myself I committed a terrible error of calculating upon others' belp-once in my life-and I have paid for it. Now York : July 94 . I came vesterday to this place. and shall temain here a few days I did not receive any "Interior" for which I am glad I want to keep aloof from rousing bad feelings towards these "sweet Christian gentlemen" in my heart ....... I do not care the least for the gambols these men play, seeing as I do through the

insincerity, the hypocrisy and love of self and name that is the only motive power in these men.

I am bearing the heat very well here. I had an invitation to Swamscott on the sea from a very rich lidy whose acquaintance I made last winter in New York, but I declined with thanks. I am very careful now to take the hospitality of anyhody here, especially rich. I had a few other invitations from some very rich people here. U.S.A.: 11-7-94 - We will do great things yet! Last only sowed the seeds; this year. I mean to rean. In the Detroit lecture I got \$ 900, i.e. Rs 2, 700 In other lectures, I earned in one \$12,500, i.e. Rs 7,500, in one hour, but got only 200 dollars! I was cheated by a roguish lecture bureau I have given them up.

Swampscott 26-7-94 - I had a beautiful letter from sister Mary Sister Jeany can jump and run and play and swear like a devil and talk slang at the rate of 500 a minute, only she does not much care for religion, only a little She m gone home today and I am going to Greenacre I had been to see Mrs Breed. Mrs Stone was there, with whom is residing Mrs Pullman and all the golden bugs, my old friends hereabouts. They are kind as usual On my way back from Greenacte I am going to Annisquem to see Mrs. Bagley for a few days. Darn it. I forget everything I had duckings in the sea like a fish. I am enjoying every bit of it. How nice and cool it is here, and it increases a hundredfold when I think about the gasping, sizzling, boiling, frying four old maids (the Hale Sisters), and how cool and nice I am here Whanaaal

Miss Philips has a beautiful place somewhere in N Y, State - mountain, lake, river, forest sltogether what more? I am going to make a Himslaysi there and start a monastery as sure as I am living - I am not going to leave this country without throwing one more apple of discord into this already roating, kicking, mad whithool of Ametican relision.

Greenacre Inn, Eliot, Maine 26-7-94 - This is a big inn and farm house where the Christian Scientists are holding a session. Last spring in New York, I was invited

by the lady projector of the meeting to come here, and here I am. It is a beautiful and cool place, no doubt, and many of my old friends of Chicago are here. Mrs. Mills, Miss Stockam and several other ladies and gentlemen live in tents which they have pitched on the open ground by the river They have a lively time and sometimes all of them wear what you call the scientific dress the whole day. They have lectures almost everyday One Mr. Colville from Boston is here; he speaks every day, it is said, under spirit control. The Editor (7) of the Unitersity Truth has settled herself down here She is conducting religious services and holding classes to heal all manner of diseases, and very soon I expect them to be giving eyes to the blind, and the like! After all, it is a queer gathering. They do not care much about social laws and are quite free and happy Mrs Mills is quite brilliant and so are many other ladies. A very cultured lady from Detroit is going to take me to an Island fifteen miles into the sea. I hope we shall have a nice time. I may go over to Annisquam from here, I suppose. This } is a beautiful and nice place and the bathing is splendid. Cora Stockham has made a bathing dress for me, and I am having as good a time in the water as a duck - this is delicious even for the denizens of Mudville ... Here is Mr. Wood of Boston, who is one of the great lights of the Christian Science sect. But, he objects to

belong to the sect of Mrs Whirlpool. So he calls himself a mental bealer of meta-physical-chemico-physicareligiosic what-not I Yesterday, there was a tremendous cyclone which gave a good "treatment" to the tents The big tent under which they had the lectures, had developed

so much spirituality under the "treatment" that it entirely disappeared from mortal gaze and about two hundred chairs were dancing about the grounds under spiritual ecitary! Mrs Figs takes a class every morning, and Mrs. Mills in jumping all about the place - they are all in high spirits. I am especially glad for Cora, for they suffered a good deal last winter and a little hilarity would do her good. You will be astounded with the liberty they enjoy in the camps, but they are very good and pure people there, a little erranc, that in all

I shall be here till Saturday next. The other night the camp people went to sleep beneath a pine tree under which I sit every morning a la. Hindu and talk to them. Of course, I went with them, and we had a nice night under the start, sleeping on the lap of mother earth, and I enjoyed every bit of it. I cannot describe that night's glories - after a year of brutal life that I have led, to aleep on the ground, to meditate under the tree in the forest! The inn people are more or less well-to-do-, and the camp people are healthy, young, sincers and holy men and women. I teach them "Shivoham" "Shivoham" and they all repeat it, innocert and pure as they are and brave beyond all bounds. And so I am happy and glorified.

Thank God for making me poor, thank God for making these children in the tents poor. The Dudes and Dudines are in the Hotel, but iron-bound nerves and souls of traple steel and spirits of fire are in the camp. If you had seen them yesterday, when the rain was falling in torrents and the cyclone was overturning everything, haping by their tent strings to keep them

a grand and good place. The New York people have a tenacity of purpose unknown in any other city. I had a letter from Mrs Potter Palmer saking me to see her in August. Annisquam 20-8-94 - I am with the Basgleys once more. They are kind as usual. Professor Wright was not here. But he came day before yesterday and we have very nice time together. Mr. Bradley of Evanation was here. His siteter—haw had me six for a picture several days and had painted me. I had some very fine boating and one evening overturned the boat and had a good denothing, clothes and all...

From here I think I will go back to New York. Or I way for Doston to Mrs Ole Bull, widow of the great violinat of this country. She is a very spiritual lady She lives in Cambridge and has a fine big parlour made of woodwork brought all the way from India She wants me to come over to ber any time and use her parlour for lectures.

I have kept presty good health all the time and hope to do in the future. I had no occasion yet to draw on my reserve, yet I am rolling on presty fair. And I have given up all money making schemes and will be quite satisfied with a bite and a shed and will work on.

to touch money. It is disgusting and debasing...I have friends here who take care of all my monetary concerns Boston: 13-9-94 - I have been in this hold (Hotel Bellevue, Becon St.) for about a week I will remain in

Boston some time yet.. I am vagabondima! I say sety much amused the other day to read Abe Hugh description of the vagabond lamss of Tibet-a true picture of our fraternity. He says they are queer people. They come when they will, sat e verybody's table, invitation or no invitation, hive where they will and go where they will. There is not a mountain they have not climbed, not a river they have not crossed, not a language they do not talk im. He tohnis that Colo must have put into them a part of that energy which makes the planet 16 round and round eternally. Today this wagabond lams was seized with a desure of going right a long-cirbbling and to I walked down and entering a store brought all sorts of writing materials and a beautiful portfolio which shut!

with a clasp and has even a little wooden inkstand. Lost month, I had mail enough from India and am greatly delighted with my countrymen at their generous appreciation of my work. Good enough for them. Prof. Wright, his wife and children were as good as ever. Words cannot express my gratitude to them.

Everything so far is not going bad with me, except

This time I tried Christian Science for insomnia and really found it worked very well.

Hotel Belle Vue, Boston. 19.9-94-1 am at present lecturing in several places in Boston. What I want is to get a place where I can sit down and write down in thoughts. I had enough of speaking, now, I want to write. I think I will have to go to New York for it. Mrs. Guernsey was so kind to me and she is ever willing to help me. I think I will go to her and sit down and write my book.

U.S.A., 21-9-94 - I have been continuously travelling from place to place and working incessently, giving lectures and holding classes

I have made some nice friends here amongst the liberal people, and a few amongst the otthodox. Too much work is making me nervous. The giving of too many public lectures and constant hurry have brought on this nervousness...

New York 25-9-94 "Here in summer they go to the sea side-I also did the same. They have got almost a manua for beating and yatching. The yacht is a kind of light vessel which everyone, young and old who has the means, possesses. They set sail in them every day to the sea and return home to eat, drink and dance-while music continues day and night. Planos render it a botheration to stay indoors!

I shall now tell something of the Hales. Hale and his wife are an old couple, having two daughters, two nieces and a son. The son lives abroad where he earns a living, The daughters live at home. In this country relations: is through the girls The son marries and no loss belongs to the family, but the daughter's husbard pal frequent visits to his father-in-laws's house. They say.

"Son is son till he gets a wife. The daughter is daughter all her life."

All the four are young and not yet married. Martist is a very troublesome business here. In the first place one must have a husband after one's heart. Secondly, but must be a moneyed man...They will probably live unmarried, besides they are now full of 'renunciation' through my contact and are busy with thoughts of Brahman'.

The two daughters are blondes, that is, have golder

hair, while the two nieces are brunettes, that is of dark hair. They know all sorts of occupations. The niece are not so tich, they conduce a kindergaren school, but the daughters do not earn. Many giels of this country earn their living. Nobody depends upon others. Even millionaires sons earn their living, but they marry and have separate establishments of their own. The daughters call me brother, and I address their mother as mother. All my things are at their places, and they look site them, whetever I may go. Here the boys go in search of a living while quite young, and the girls are educated in the universities. So, you will find that man meeting there will be ninety-nine per cent girls. The boys are nowheren occupations with them.

Next comes Christian Science They form the most influential party, nowadays, figuring everywhere They are spreading by leaps and bounds, and causing heart-burn to the orthodox. They are Vedantins, I mean, they have picked up a few doctrines of the Advasta and grafted them upon the Bible. And they cure diseases by proclaiming, "thit this?" "I am He" "I am He" -through strength of mind. They all admire me highly.

Nowdays the orthodox section of this country are crying for help "Devil Worship" is but a thing of the past. They are mortally afraid of me and exclaim, "What a pest! Thousand of men and women follow him! He is going to root out orthodoxy!" Well, the corch has been applied and the conflagration that has see in through the grace of the Gurus shall not be put out. In course of time, the bigots will have their breath knocked out of them.

The Theorophists have not much power But, they too are dead against the orthodox section

Thu Christian Science is exactly like our Kartabhija. sets (an offithoot of Vashnayim during its degeneracy in Bengal). Say, "I have no diseases," and you are quits-be at large. This is a thoroughly materiabitic country. The recopie of this Christian land wall recognise religion if only you can cure disease, work miracles, and open up

What nonsensel...I heard that Rev. Kali Charan Baner in a lecture to Christian mussonaries said that I was a political delegate. This is their trick! Chicago Sept. 94 -1 have been traveling all over this country all this time and seeing everything. I have come to this conclusion that there is only one country in the world which understands religion-it is India, with all their faults, the Hindius are shoulders above and ahead of all other nations in morehity and spirituality... I have seen enough of this country. I thank, and so soon will go over to Europe and then to India.

Baltimore Oct. 94 - I am here now. Form here I go to Washington, thence to Philadelphia and then to New York.

V.6.1.95 - I have been in the midst of the genume article in England. The English people received me with open arms and I have very much toned down my sides about the English race. First of all, I found that that fellows, as Lund etc. who came over from England to a attack me were nowhere. Their existence is simply ignored by the English people. None but a person belonging to the English Church is thought to be gented. This was another sort of experience from what I me in America.

The English people laughed and laughed when I told them about my experience with the Presbyterinas and other fanatics here (in America) and my reception in hotels etc. I also found the difference in culture and breeding between tha two countries, and came to understand why American girls go in shoals to be married to Europeans

Everyone was kind to me there (in England), and I have left many noble friends of both sexes anxiously awaiting my return in the spring

I find strong-minded men and women take up the work and carry it forward with the peculiar English grip and energy. This year my work in New York is going on splendidly. Mr. Leggett is a very rich man of New York and very much interested in me. The New Yorker has more treadmens than any other people in this country (America), to that I have determined to make my centre here. In this country my teachings are thought to be queer by the "Methodist' and "Presbyterian" anstocracy, in England, it is the highest philosophy to the English Church anistocracy.

Moreover those talks and gossips, so characteristic of the American women, are almost unknown in England. The English woman is alow, but when she works up to an idea she will have a hold on it sure, and they are regularly carring on my work there and sending every week a report—think of that <sup>1</sup> Here (in America) if I go away for a week, everything falls to pieces.

Chicago 11-1-95 - I have been running all the time between Boston and New York, two great centres of this country of which Boston may be called the brain, and New York, the purse In both, my success is more than ordinary... I am indifferent to newspaper reports... A little boom was necessary to begin work.

Yours are man-made and mine are not, their nonhistoricity is in their favour.

I have myself been told by some of the Western

scientific minds of the day how wonderfully rational the conclusions of the Vedanta are I know one of them personally, who scarcely has time to eat his meals, or go out of his laboratory, but who yet would stand by the hour to attend my lectures on the Vedanta, for, as he expresses it, they are so scientific, they so exactly harmonise with the aspirations of the age and with the conclusions to which modern science is coming at the present time.

It struck me more than once that I should have to leave my bones on foreign shores owing to the prevalence of religious intolerance

By improper representation of the Hindu Gods and Goddesses, the Christian missionaries were trying such all their beart and soul to prove that really religious men could never be produced from among their worthippers; but like a straw before a radial wave that attempt was swept away, while that class of our countrymen-intersted organized bodies of mischef-makers—which set itself to devise means for quenching the great fire of the rapidly spreading power of Sin Ramakurians, seeing all it efforts futile, has yielded to despair. What is human will in exposition to the Divence?

many new ideas and new veins of thought which I had scarcely heard or thought of in my life. On awaking I temembered them and reproduced them in my lecture I cannot enumerate how often this phehomenon took place. Many, many days did I hear such licetures while lying in bed. Sometimes the lecture would be delivered in such a loud vouce that the immates of the adjacent rooms would hear the sound and ask me the next day. "With whom, Swamji, were you talkings to loudly last night?" I used to avoid the question somehow. Ah, it was a wonderful observations or the sound and so the sound and so the sound and so the sound in the sound and sake me the next day. "With whom, Swamji, were you talkings to loudly last night?" I used to avoid the question somehow. Ah, it was a wonderful observations.

When pepole began to honour me, then the Padris were after me They spread many slanders about me by publishing them in the newspapers. Many asked me to contradict these slanders But I never took the slightest notice of

paying

sessing for my massion. The upphos, I used to find, was that often my slanderers feeling tepenant afterwards, would surrender to me and offer apologies; themselves contradicting the slanders in the papers. Sometimes, it so happened that learning that I had been invited to a certain house, somebody would communicate those slanders to my host, who hearing them, would leave home, locking the door. When I went there, to attend the invitation, I found it was deserted and nobody was there. Again a few days afterwards, they themselves learning the truth, would feel sorry for their previous conduct, and come to offer themselves as disciples. The fact is... this whole world is full of mean ways of worldiners. But

persons, and that will cover the expenses. Miss Hamlin has been very kind to me and does all she can to help me

N Y. March 27, 95 - Mrs. Bull has been greatly benefitted by Mrs. Adam's lessons. I also took a few but no use, the ever-increasing load in front does not allow me to bend forward as Mrs. Admas wants!

My classes are full of women Sometimes, I get disgusted with eternal lecturings and talkings, want to be silent for days and days

When I was a boy. I thought that fansticism was a great element in work, but now, as I grow older, I find that it is not

My experience comes to this, that it is rather wise to avoid all sorts of fanatical reforms.

To make a man take in everything and believe it. would be to make him a lunatic I once had a book sent to me, which said I must believe everything fold in it I said there was no soul, but that there were Gods and Goddesses in heaven, and a thread of light going from each of our heads to heaven! How did the writer know all these things? She had been inspired, and wanted to believen; too, and because I refused, the said, "You mus be a very bad man, there is no hope for you!" This I fantictim.

N. Y · 10-4-95 - Tomorrow I have a class at Mis Andrews' of 40. W 9th Street.

11-4-95 - I am going away to the country tomo rrow to Mr. L. for a few days. A little fresh air will dime good. I hope.

Everyone of my friends thought it would eed in nothing, this my living and preaching in poor quattert by all myself, and that no leaders would ever come bert. Miss Hamlin especially thought that "she" or "her right sort of people" were way up from such things as to \$0 and listen to a man who lives by himself in a poor lodering. But, the "right kind" came for all that, day and night, and she too Lord' how hard it is for man to believe in Thee and Thy merces! Shiva!

24-4-95 - I am perfectly aware that although some truth underlies the mass of mystical thought which has burst upon the western world of late. It is for the most part full of montes properly or mane.

For this reason, I have never had anything to do with these phases of religion, either in India or elsewhere, and mystics as a class are not very favourable to me...

Only the Advaita philosophy can save mankind, whether in East or West, from "devi worship" and kindred superststeons, giving tone and steength to the very nature of man India herself requires this, quite ## much or even more than the West. Yet, it is had up-hill work, for we have first to create a easte, then teach, and lastly proceed to build up the whole fabric.

Perfect sincerity, holiness, gigantic intellect, and an all-conquering will—let only a handful of men work with these, and the whole world will be revolutionized. I did a good deal of platform work in this country last yest, and received plenty of applause but found that I was only working for myself. It is the patient upbuilding of haracter, an intense arregile to realise truth, which alone

will tell on the future of humanity. So this year, are hoping to work along this line—training up to practical I Advants realisation a small band of men and women. I do not know how far I shall succeed. I can teach, and preach, and sometimes write. But, I have intense faith in Truth. The Lord will send help and hands to work with me. Only let me be perfectly nume, perfectly unafferer, and perfectly unsufferer, and perfectly unsufferer, and perfectly unsufferer.

New York 25-4-95 - The day before yesterday, I received a kind note from Miss F—including a cheque for a hundred dollars for the Barbar House lectures She is coming to N Y next Saturday

I have arranged to go to the Thousand Islands There is a cottage belonging to Miss Dutcher, one of my students, and a few of us will be there on cest and peace and seclusion I want to manufacture a few "Yogis" out of the materials of the classes.

New York. 5-5-95 - I always though that although Prof Max Muller in all his writings on the Hindu religion adds in the last a derogatory remark, he must see the whole truth in the long tun. His last book "Vedanstim" there you will find him swallowing the whole of six re-incernation and all it is only a part of what I have been telling. Many points smack of my paper in Chicago. I am glad now the old man has seen the truth, because that is the only way to have religion in the face of modern research and science.

I know very little; that little I teach without reserve; where I am ignorant confess it and never am I so glad as when I find people being helped by Theosophists. Christians, Mohammedans or any body in the world I am a Sannyasin and as such I consider myself as a servan, not as a master in the world. If people love me, they are welcome, if they bate, then too are they welcome

I have a firm footing in N Y, and so my work will go on I am taking several of my disciples to a summet retreat to finish their training in Yoga and Bhakti and Jaana

New York 7.5.95 - I am going to have two public lectures more in NY, in the upper half of Mort's Memorial Building. The first one will be Monday next, on the Science of Religion, the next, on Rationale of Yoga

I am left alone I am living mostly on nuts and fruits and milk, and find it very nice and healthy, too. I hope to lose about 30 to 40 lbs this summer. That will be all right for my size I am afraid I have forgotten all about Mrs. Adam's lessons in walking I will have to renew them when she comes a stain to NY.

This year, I could hardly keep my head up and I did not go about lecturing I intend to write a book this summer on the Vedanta philosophy

T I Park, N Y 26-6-95-In the articles by Prof Max Muller on the "Immortality of the Soul," the old man has taken in Vedanta, bones and all, and has boldly come out.

I am saked again and again in the letters from India to 88 over They are getting despectate Now if 16 ot to Europe, I will go as the guest of Mr. Francis Leggett of N Y. He will travel sill over Germany, England, France and Switzelland for six weeks From there I shall go to India, or I may return to America I have a seed planted bere and wish it to grow This winter's work in N. Y. was splended and it may due if I suddenly go to India; so I am not sure about going to India soon.

Nothing noticeable has happened during this visit to the Thousand Islands. The scenery is very beauful and I have some of my friends here with me to talk about God and soul ad libitum. I am eating fruits and drinking milk and so forth, and studying huge Sanskirt books on Vedanta which they have kindly sent me from India...

My reply to Madras (address) has produced a tremendous effect there. A late speech by the President of the Madras Christian College, Mr. Miller, embodies covered with a huge forest, with nobody but ourselves. So lovely, so quier, so restful! How glad I am to be here after the bustle of cities!

It gives me a new lease of life to be fire? I go mot the forest alone and read my Gita, and am quite bapp? I will leave this place in about ten days and go to the Thousand Islands Park. I will medicate by the hout there, and be all alone to myself. The very idea is ennobling.

N.Y.. June, 95 - I have just arrived home. The ttip did me good, and I enjoyed the country and the bills, and especially Mr Leggert's country-house in N Y State

May the Lord bless Landsberg wherever he goes! He is one of the sincere vouls. I have had the privilege in this life to come across

in the same old fashnon, talking when I can and silent
when forced to be, I do not know whether I will go to
Greenarce this summer. I saw Miss Farmer the other
lay ... She is a noble, noble lady

I am asked again and again in the letters from India to go over. They are getting desperate Now if I go to Europe, I will go as the guest of Mr Francis Leggett of N V ' will travel all over Germany, England, France From there I shall go to

America I have a seed planted f. This winter's work in N Y and the if I suddenly go to India, so a large amount of my ideas, and declares that the Wett is in need of Hindu ideas of God and man, and exiurent the young men to go and preach to the Wet-This has created quite a futote, of course amongst the Missions.

9-7-95 - I am a man of dogged perseverence. The more the Christian priests oppose me, the more I am determined to leave a permanent mark on their country.

I have already some friends in London I am gond there by the end of August.

Aug. 95 - My 1Jess are going to work in the West better than in India

I am free, my bonds are cut, what care I where this body goes or does not go? I have a truth to teach, I the child of God And, He, who gave me the truth will send me fellow-workers

T.I. Park, N. V. I am enjoying this place immensely; very little eating, good deal of thinking and talking, and study. A wonderful calimness is coming over my soul. Every day I feel I have no dury to do. I am, always in eternal rest and peace I to it worth. We are only instruments. Blessed be His name! The threefold bondage of lost and gold and fame is as it were fallen from me for the time being, and once more even here. I feel what sometimes I felt in India: "From me all difference has fallen, all right or wrong, all delunon and ignorance has wanshed. I am walking in the path

From that height, the universe looks like a mudpuddle Hari Om Tat Sat. He exists; nothing else doss. I in Thee and Thou in me. Be Thou, Lord, my eternal refuge! Peace, Peace, Peace!

N. Y. Z-8-95 - I am going to Paris first with a friend and start for Europe on the 17th of Aug I will, however, remain in Paris only a week, and then I go over to London.

Some Theosophists came to my classess in N, Y., but as soon as human beings perceive the glory of the Vedanta, all abracadabras fall off themselves This has been my uniform experience. Whenever mankind attains a higher vision, the lower vision disappears of itself. Multitude counts for nothing. A few heatt-whole, sincere and energetic men can do mote in a year than a mob in a century, if there is heat in one body, then those others that come near it must catch it. This is the law

So success is ours, so long as we keep up the heat, the source of truth, sincerity and lone. My own life has been a very chequered one, but I have always found the eternal words verified, "Truth alone triumphs, no unitruth. Through Truth, alone, lies the way of God."

New York 9-8-95 - The names of those who will wish to injure us will be legion. But in that not the surest sign of our having the truth? The more I have been opposed, the more my energy has always found expression. I have been shandered by presest and laymen slike. But, what of it? Bless them all! They are my very Self and have they not helped me by acting its:

and higher flights?

I have discovered one great secret - I have nothing to feat from talkers of religion. N.Y. Aug. 95 - The work here is going on splen-

didly. I have been working incessantly at two classes I day since my arrival Tomorrow I go out of town with Mr Leggett for a week's boliday Madame Antoinettee iterling, one of the great (English) singers is very much nterested in the work. I have made over all the secular eart of the work to a committee and am free from all hat botheration. I have no aptitude for organisms. I nearly breaks me to pieces

My friend being a Sanskrit scholar, we are busy working on the great commentaries of Shankara, etc. I am going to try to get up classes in October in London.

It is taught in the West that society began 1800 years ago, with the New Testament Before that there was no society. That may be true with regard to the West, but it is not true as regards the whole world.

Often, while I was lecturing in London, a very intellectual and intelligent friend of mine would argue with me, and one day after using all his weapons against me, he suddenly exclaimed, "But why did not your Rishis come to England to teach us?" I replied, "Because there was no England to come to Would they preach to the forcest?"

Whatever in my teaching may appeal to the highest intelligence and be accepted by thinking men, the adoption of that will be my reward

All religions have for their object the teaching either it devotion, knowledge or Yoga, in a concrete form Yow, the philosophy of Vedanta is the abstract science shich embraces all these methods, and this is that I teach saving each one to apply it to his own concrete form. I fier each individual to his own experiences, and where streence is made to books the latter are procurable, and any be studied by each one for himself. Above all, I each no authority proceeding from hidden beings, speaking through visible agents, any more than I claim learning om hidden books or manuscripts. I am the exponent inc. I teach only the self, hidden in the heart of every individual and common to all

I propound a philosophy which can serve as a basis to every possible religious system in the world, and my attitude towards all of them is one of extreme sympathy-my teaching in antagonistic to none. I direct my attention to the individual, to make him strong, to teach him that he himself is divine, and I call upon men to make themselves conscious of this divinity within.

At first, I found mostly in a critical position owing to the bottle attrible assumed against the people of this country (India) by those who went these (America) from [rd a Ar first many fell first of me, manufactured Luge lies against me by easing that I was a fraud, that I had a harem of wives and half a regiment of children. But my experiences of these missionance opened my eyes as to what they were capable of Joing to the name of tell; ion. Missionaties were nowl ere in England. None care to fift me. Mr Lund went over to America to abuse me behind my back but people would not listen to Lim. I was very popular with them. When I came back to England, I thought this missionary would be at me, but Truth silenced him. They (the English Church people) greatly sympathised with me I was agreeably surprised to find that the English clergymen, though they differed from me, did not abuse me behind my back and stib in the dark.

When I first lectured in Eng'and, I had a little class of twenty or thirty, which was kept going when I left, and when I came back from America, I could get an audience of one thousand. In America, I could get a more all properties on the could get a more all properties of the properties of America.

P. S.

June, 6, 96 - What an extraordinary man is Prof. Max Muller! I paid a visit to him a few days ago. The Professor was first induced to inquire about the power, which led in sudden and momentous changes in the life of the late Keshab Chandra Sen, the great Pstahmo leader; and since then, he has been an earness student and adjuter of the life and teachings of Six Ramakithan.

"Ramakrishna is worshipped by thousands today, Professor" I said "To whom else shall worship be accorded if hot to such?" was the answer The Professor was kindness uself, and asked Mr Sturdy, and myself to lunch with him He showed us several colleges in Oxford, and the Bodlein histay He also accompanted us to the railway station and all this he did because as he said, "It is not everyday one meets a disciple of Ramakrishna Paramahams"

The visit was really a revelation to me. That nice little house in its setting of a beautiful garden, the silver-headed sage, with a face calm and beings, and forehead amouth as a child's in spite of seventy winters, and every line in that face speaking of a deen-seated rune of spirtuality somewhere behind, that noble wife, the helpmate of his life through his long and arduous tash of excuing interest, overriding opposition and contempt, and at last creating a respect for the thoughts of the sages of ancient India-the trees, the flowers, the calments, and the clear sky-sil these sent me back in unagination to the glorious days of ancient India, the days of our Brithmarshis and Rajarshis, the days of the great Vanaprasthis, the days of Arundhars and Vasishish, and Arundhars and Vasishish and Arundhars and Vasishish and Arundhars and Vasishish and Vasishish and Arundhars and Vasishish and the same of the same of Arundhars and Vasishish and the same of the same of Arundhars and Vasishish and the same of the same o

That Advairism is the highest discovery in the domain of religion, the Professor has many times publicly admitted.

Perhaps his previous birth was in India; and lest by coming to India, the old frame should break down under the violent rush of a suddenly aroused mass of past recollections—in the fear in his mind that now stands foremost in the way of his visit to this country (India). It is nor a facer that the Perfosor is an utter disbelever in such subtle subjects as the mysterious psychic powers of the Yogis.

Prof. Max Muller presented Sri Ramakruhna's life to the learned European public in an article entitled "A Real Mahatman" which appeared in the Nineteenth Gentury in its August number, 1896

Subsequently, he has published the book-Ramakrishna, His Life and Samnos

The greater portion of the book has been devoted to the collection of the sayings, rather than to the life itself. That those sayings have attracted the attention of many of the English -speaking readers throughout the world, can be essily inferred from the rapid sale of the book. The sayings falling direct from his holy lips are impregnate with the strongest spiritual force and power and therefore they will surely exert their divine influence in every part of the world. ## BACK TO ENGLAND

London 17-9-96 Today I reached London, after my two months of climbing and walking and glatter seeing in Switzerland. One good is hat done me-a few pounds of unnecessary adipose tissue have returned to the fascous state!

I had a pleaseant visit from Prof. Deussen in Germany, the greatest living German Philosopher. He and I travelled together to England, and today came together to see my friend here with whom I am to ste for the rest of my stay in England. I am going to start a centre in Calcutta and another in the Himalayas The Himalayan one will be an entire hill about 7000 ft bigh, cool in summer, cold in winter, Capt and Mrs Sevier will live there

People there in the West think that the more a man is religious, the more demure he must be in his outward bearing.—no word about anything else from his hips! As the priests in the West would on the one hand be struck with wonder at my liberal religious discourses, they would be as much puzzled on the other hand when they found me after such discourses, talking frivolities with my friends. Sometimes, they would speak out to my face: "Swami, you are a pirest, you should not be joking and laughing in this way like ordinary man Such levily does not look well in you." To which! I would reply: "We are children of Bliss, why should we look morses and sombre?" But, I doubt if they could rightly catch the drift of my words.

In England, I worked only six months There was not a breath of scandal save one, and that was the working of an American woman, which greatly relieved my English friends,-not only no attacks, but many of the best English Church clergymen became my firm friends, and without asking I got much help for my work

Germany and France, but England and America were the chief centres of my work All the social upheavalists (in America and England). at least leaders of them, are trying to find that all their communistic or equalising theories must have a spiritual basis, and that spiritual basis is in the Vedanta only. I

have been told by several leaders who used to attend my lectures, that they required the Vedanta as the basis of the new order of things. Many times, I was near being mobbed in America and England, only on account of my dress. But, I never

Let this association be named after him in whose name, indeed, we have embraced the monastic life, and within twenty years of whose passing away a wonderful diffusion of his holy name and extraordinary life has taken place both in the East and the West

This is on Sr. Ramakrishna's lines. He had an ambiguing breadth of feeling. I will break down the limits and scatter broadcast over the earth his boundless impiration. We have been blessed with obtaining refuge at the feet of the Masser, and we are born to carry his message to the world.

V Calcutta. May 5, 97 - I have been to Darjeeling for a month to recuperate my shattered health I am very much better now The disease disappeared alcogether in Darjeeling I am going tomorrow to Almors, another hill station, to effect this improvement

Things are looking not very hopeful here, though the whole nation has risen as one man to honour me and people went almost mad over me! The price of the land has gone very much high near Calcutta My idea at Present its to start three centres at three Capitals These would be my normal achools, from thence I want to invade India.

a bit of hope of seeing it partially accomplished, there comes a tremendous thwarting blow I do not care for the disease but what depresses me methat my ideals have not had yet the least opportunity of being worked out And you know the difficulty is honey.

The Hindus are making processions and all that, but they cannot give money. The only help I got in the world was in England, from Miss S, and Mr S. I thought then that a thousand pounds, sufficient to start at least the principal centre in Calcuta, ten or twelve years ago. Since then the prices have gone up three or four times.

The work has been started anyhow A rickety old little house has been retarde for as or aven shillings, where about twenty-four young men are being trained. I had to go to Darjeeling for a month to recover my health, and I am very much better—without taking any meditine, only by the exercise of mental healing. I am slong again to another hill-attaint homotrow, as it yery hor in the plains. The London work is not doing well at all, I hear And that was the main reason why I would not go to England, just now, although some of our Rajas going for the Jublice trued their best to get me with them, as I would have to work hard again to revive the interest in Vedants. And that would mean a good deal more trouble physically.

I may go over for a month or so very soon, however

But one can never rest assured until the chickens are hatched, and I am not now going down to the hot plains within two or three months. After that I shall make a tour and shall certainly secure some money

On account of the great hear in Almora, I am now nan excellent garden twenty miles from there. This place is comparatively cooler but still warm. The heat does not seem to be particularly less than that of Calcutta...

The feverishness is all gone I am crying to go to a still cooler place Heat or the fatigue of walking, I find. at once produces trouble of the liver. The air here is to dry that there is a burning sensation in the nose all the

I am afraid the work in London is going to pieces
I am living in a beautiful garden belonging to a met-

It was a finghtful dim the servants made and the berking of the big Tibet watchdogs. These dogs are kept chained at a distance all night since I am here, so that they may not disturb my sleep with their deep barks The leopard thus found his opportunity and got a decent meal, perhaps, after week. May it do much good to him

Miss Muller has come here for a few days and was tather frightened when she heard of the leopard incident. Before me, reflecting the afternoon's glow, stand

But I have started work in the fashion in which I myself was trained—that is to say, under the treet, us keeping the body and soul together, anyhow. The plan has also changed a little. I have sent some of my bost to work in the famine district. It has acced like a mircle, I I think, as I always thought—it is through the heart and that alone, that the world can be reached.

A number of boys are already in training, but the teetent earthquake has destroyed the poor abelier we had to work in, which was only rented, anyway. The Math 11-4-99 - Two years of physical suffeting have taken away twenty years off my life

∨ Belur Math 16-4-99 - If by the sacrifice of some specially cherished object of either myself or my brother disciples, many pure and genuinely patriotic souls come forward to help our cause, we will not hesitate in the least to make that sacrifice, nor shed a tear-drop But my hairs have turned grey since I began the study of man. I have some doubts about those parnotic souls who can join with us if only we give up the worship of the Guru Well, if as they pose, they are indeed panting and struggling so much almost to the point of dissolution from their body to serve the country, how can the single accident of Guru-worship stop everything? If this trifle of Guru-worship serves as a stone to choke one to death.

## CHAPTER VIII THE PLAN OF WORK

I am grateful to the lands of the West for the many warm hearts that received me with all the love that pure and dimneteested souls alone could give, but my I allegiance is to this my motherland, if I had a thous lives, every moment of the whole series would be c secreted to you service, my countrymen, my friends!

For, to this land I owe whatever I possess, physmental and spiritual, and if I have been successful in a thing, the glory is yours, not man. Mine alone are weaknesses and failures, as they come through my inat of profiling by the mighty lessons with which this I sutrounds one, even from one's very brith.

I am thoroughly convenced that no individual or na can live by holding itself apart from the community others, and whenever such an attempt has been a under false ideas of greatness, policy or holiness result has always been disastrous to the seceeding one.

To my mind, the one great cause of the downfall the degeneration of India was the building of a wall the degeneration of India was the building of a wall counter whose foundation was harred of others—rother nation, and the real aim of which in ancient it was to prevent the Hindy from commit in contact with suffrounding Buildings frameworks.

A bit of public demonstration was necessary Guru Maharaja's work. It is done and so far so good

I do not believe in a God or religion which car wise the widow's tears or bring a piece of bread to orohan's mount. I believe in God and I believe in man I believe helping the miserable. I believe in going to hell to so there

India has suffered long, the religion eternal has a fered long. But the Lord is metalful. Once more He come to help His children, once more the opportunity given to fallen India to rise. India can only rise by sittle at the feet of Sri Ramakrishna. His life and his teaching are to be apread far and wide, are to be made to peners every note of Hindia society.

My master used to say that these names, Hind Christian, etc. stand as great bars to all brotherly feelin between man and man. We must try to break them dow first. Well, we will have to work hard and must success

That is why I desire so much to have a central Organisation has its faults, no doubt, but without the nothing can be done.

Sankarachasya had caught the rhythm of the Vedat the national cadence. Indeed I always imagine that he had some vision such as mine when he was young, and recovered the ancient music that way

But finally the Parliament of Religions opened and I met kind friends who helped me right along. I worked a little, collected funds, started two papers, and so on After that I went over to England and worked there. At the same time, I carried on the work for India in America, 100.

My plan for India, as it has been developed and centralised, is this; I have told you of our lives as monks there, (in India) how we go from door to door, so that

religion is brought to everybody without charge, except, perhaps, a broken piece of bread. That is why you see the lowest of the low in India holding the most exalted religious ideas. But sak a man, "Who are the English" — he does not know. "Who governs you?" "We do not know." "What is the Government?" They don't know but they know philosophy it is a practical want of intellectual education about life on this earth they suffer from These millions and millions of people are ready for life beyond this world—is not that enough for them? Certainly not They must have a better piece of bread and a better of rag on their bodies. The great question is how to get that better bread and better rag for these sunken millions

First I must tell you, there is great hope for them, because you see, they are the gentless people on earth, not that they are ismid. When they want to dight, they fight like demons. The best soldiers the English have, are recruired from the peasantity of India Death is a thing of no importance to them. Their attitude is, "Terenty times! have deel before, and I shall die many times after this, what of that"? They never turn back. They are not given to much emotion, but they make very good fighters.

Their instinct, however, is to plough If you rob them, murder them, tax them, do anything to them, they will be quiet and gentle, so long as you leave them fire, to practise the type from They never interfere with the religion of others. "Leave us liberty to worship our Gods, and take everything else." That is their attrude. Touch them there, trouble starts: That was the trail cause of 1857 Mutiny—they would not bear religious repression. The great Mohammedan Government with simply blown up because they touched India's religion.

Now there, is posterson why they should suffet such distress—these Oh, so oure and good!

distress—these OR, so pure and good!

No national civilisation is perfect, yet, give the time
sation a civil, and it will arrive at its own gosh, dail
strive to change it. Take away a nation's institution,
customs and manners, and what will be left? They hold

the nation together.

But, here comes the very learned foreign man, sai he says, "Look here, you give up all those institutions and customs of thousands of years, and take my tomfool tin pot and be happy." This is all nonsense.

We will have to help each other.

And that strikes to the heart. The people come to

know it.

Well, then, my plans are, therefore, to reach these masses of India.

Now, you see, we have brought the plan down nicely

on paper; but I have taken it, at the same time, from the regions of idealism. So far the plan was loose and idealistic. As years went on, it became more and more condensed, I began to see by actual working its defects and all that.

What did I discover in its working on the material plane First, there must be centres, to educate these month in the method of education. In India, you will find every man quite illiterate, and that teaching requires Money. From the idealistic plane you come to everyday work. Well? I have worked baid fostgreas in America, and two in England. There are American friends and English friends who copie over with me to India, and there has been a very crude beginning. Some English people came and joined the Orders. One poor man worked hard and dated in India... I have started the Awakened India (Prabuddha Bharat-monthly).... I have a centre in the Hinslays ... I have another center or

tremendous centres. And what does all that mean?

Calcutta

The same work I want to do on parallel lines, for

women

That part has to be accomplished

My idea is to bring to the door of the meanest, the poorest, the noble ideas that the human race has developed both in and out of India, and let them think for themselves. Whether there should be easte or not whether women should be perfectly free or not, does no concern me.

"Liberty of thought and action is the only condition of life, of growth and well-being"

My whole ambition in life is to set in motion; machinery which will bring noble idea to the door of everybody and then let men and women settle ther own face

Look at that handful of youngmen called into exist tence by the divine touch of Ramakruhna's feet. The have preached the message from Assam to Sindh, from the Himalayas to the Cape Comonin. They have crosse

snow and ice on foot, and penetrated into the mystend of Tibet. They have begged their bread, covered then selves with rags; they have been persecuted, followed by the police, kept in prison, and at last set free when the government was convinced of their innocence.

the Himalayas at a height of twenty-thousand feet ore"

A movement which half a dozen penniless boys set on foot and which bids fair to progress in such an accelerated motion—is it a humbug or the Lord's will?

I have been criticised from one end of the world to the other as one who preaches the diabolical idea that there is no sin ! Very good The descendents of these very men will bless me as the preacher of virtue, and not

of sin. I am the teacher of virtue, not of sin I glory in being the preacher of light, and not of darkness Travelling through many cities of Europe and observing in them the comforts and education of even the poor neonle, there was brought to my mind the state of our own people, and I used to shed tears What made the difference? Education was the answer I got I don't feel tired even if I talk for two whole nights

to earnest enquirers, I can give up food and sleep and alk and talk Well, if I have a mind, I can sit up in smadhi m Himalayan cave. Why then don't I do so? And why am I here? Only the sight of the country's I also shought of my future do not let me remain

seconds insignd! My yow of life is to think of others'

welfare. The day that yow will be fulfilled, I shall leave this body and make a straight run up!

Going round the whole world, I find that people of the country (India) are immersed in great Tamas (inactivity), compared with people of other countries. On the outside, there is a simulation of the Sattwa (cale and balanced) state, but inside, down—right intertiers like that of stocks and stones. What work will be done in the world by such people? So my idea is first to make the people active by developing their Raiss, and thu make them. In for, struggle for russence, With in strength in the body, no enthusiasm as the strength on the body, no enthusiasm as the strength of each outside.

By stimulating them, I want to bring life into then to this, I have dedicated my life I will rouse ther through the infalliable power of Vedic manicas I at born to proclaim to them that featless message "Aris Awake!"

Social life in the west is like a peal of laughter, by underneath it is wail it ends in a sob. The fun an frivolity are all on the surface, really, it is full of tragintensity. Now here (in India) it is sad and gloomy of the outside, but underneath are carelessness an meriment.

I have never spoken of revenge I have always spoke of strength

Now my own desire is to rouse the country-the sleeping Levisthan, that has lost faith in its power ar makes no response. If I can wake it up to a sense of the

Enternal Religion, then I shall know that Sti krishna's advent and our birth are fruitful. The one desire in my heart; Mukti and all else appra consequence to me.

My hope is to see again the strong points or reinforced by the strong points of this age; of matural way The new state of things must be he from within.

So, I preach the Upanishads. If you look, yo

find that I have never quoted anything but the I shads. And of Upanishads it is only that one strength. The quintessence of the Vedas and Ve all lies in that one word Budha's teaching we resistance, or non-injury. But I think this is a way of teaching the same thing ... My own ideal if as anne whom they killed in the flutury and who brok silence, when stabbed to the heart, to say, "And also art He".

But you may ask what is the place of Ramakii in this scheme?

His is the method, that wonderful unconstructed He did not understand himself. He is nothing of England or the English, save that they we queer folk from over the sea. But he lived that if Ife and I read the meaning. Never a word of condension for any! Once I had been attacking one of a section of Daholium. I had been attacking one of its section of the section and he had latened quietly. "Well, well!" said the omnis it limited. "Pertary, every house may have a largoer, who he was!"

It is not for me to determine in what sense in Sri Ramakrishna a part of this awakened Hinduism I have never preached personalities. My own life is guided by the enthusiasm of this great soul.

enthusiasm of this great soul.

was Ramakruthna Paramahamsa? The practical demonstration of this ancient principle, the embodiment of India that is pair, and a foreshadowing of the India that is to be, the bearer of spiritual light unto nations

The other day when I installed Sri Ramakrishna on the Math grounds, I felt as if his ideas shot forth from this place and flooded the whole universe, sentient and insentient I, for one, am doing my best, and shall continue to do so... Sankars left the Advatas philotophy in the hills and forests, while I have come Es bring it out of those places and scatter it broadcast before the works-day world and society.

This Math that we are building will harmonise all creds, all standpoints Just as Sir Ramskrithna held inship liberal twees, this Math too will be a centre for propagating similar ideas. The blazing light of universa harmony that will emanate from here will flood the whole world.

Through the will of Sri Ramakrishna, his Dhatma kshetra sanctified spot has been established today. A twelve years' anxiety is off my head.

You see only a little manifestation of what has been done by our labours. In time the whole world mus

accept the universal and catholic ideas of Sti Ran krishna and of this, only the beginning has been ma Before this flood, everybody will be swept off.

That activity and self-teliance must come in the people of the country in time I see it clearly. Ever any the advent of Sr. Ramakrishna, the eastern horizon is been aglow with the dawning rays of the sun which course of time, will illumine the country with the splent dour of the midday sun.

It is my opinion that St. Ramakrishna was born to vivify all branches of art and culture in this country (India)

If but a thorn pricks the foot of one who has surtendeted himself to Sti Ramakrishna, it makes my bone lache; sill others I love 'You will find very few men 10 unsectarian as I am, but you must excuse me, I have got that bit of bustory II I do not appeal to his name, whose else shall I? In this birth, it is that unlettered Brahmin who has bought this body of mine for eyer.

This boy born of poor Brahmin parents, is literally worshipped in lands which have been fulliminating against heathen worship for centuries. Whose powers size? It is none-lie than the power which was manifeared here at Ramsferbina Paramshims. Here has been a manifestation of an immense power, just the very beginning of whose workings we are seeing, and before this generation passes away, you will see more wonderful workings of that power. It has come just in time for the regeneration of finite.

It seemed that we were going to change the theme in our national life, that we were going to exchange the backbone of our existence, as it were, that we were trying to replace a spiritual by a political backbone. If it all could have succeeded, the result would have been annihilation But it was not to be So, this power became manifest. I do not care in what light you understand this great tage, it matters not how much respect you pay to him, but I challenge you with the fact that here a manifestration of the most matvellous power that has been for several centuries in India Long before ideas of universal religion and brotherly feeling between different sects were mooted and discussed in any country in the world, here in the sight of the city of Calcutta had been living a man whose life was a Parliament of Religions, as it should be

Such a hero has been given to us in the person of Ramkirishna Paramahamsa. If this nation wants to rise, take my word for it, it will have to rally enthusiastically round his name.

It does not matter who preaches Ramakrishna Paramahamas, whether I or you or anybody alse But, him I place before you for the good of our race, for the good of our nation One thing is sure that It was the places of all lives that you have ever seen, or, let me tell you distinctly. That you have ever the area of Within ten years of his passing away, this power has encircled the globe. Judge him not through me I am only a weak instrument. Let not his character be judged by seeing the I was ogreat that if or any other of his disciples.

spent hundreds of lives we could not do justice to a millionth part of what he really was,

I, through the grace of God, had the great feed fortune of sitting at the feet of one, whose whole life was an interpretation of the underlying harmony et life Upanushadic texts, whose life, a thousandfold more than whose teaching, was a living commentary on the citi of the Upanushads, was, in fact, the spirit of Upanushad Ijing in a human form. Perhaps, I have got a little of that harmony.

Inanam is all right but there is the danger of its becoming dry intellectualism. Love in great and noble, but it may die away in meaning-less sentimentalism. A hatmony of all those is the thing required. Ramakrishna was such a hatmony. Such beings are few and fit between, but keeping him and his reachings as the ideal, we can move on

God though evertwhere, can be known out in and, through human character. No character was ever two perfect as Ramskrishno, and that would be the center round which we ought to raily, at the same time, allowing very body to regard hum in his own light either as God. Servour, teacher, model or great man, just as be please?

My home of the fature lies in the voiching feb sector profilerat, renouncing all for the secuce of order and objects — who can accepte their lives in worked my item and thereby do you to themselves and the county at large. If I govern

the faith of Nachiketa, I can turn the thoughts and pursuits of this country in a new channel.

I once met a man in my country whom I had known before as a very stupid, dull person, who knew nothing and had not the desire to know anything, and was living the life of a brute. He asked what he should do re know God, how he was to get free "Can you tell a le?" "It is better to tell a lie than to be a brute, or a log of wood. You are mactive, you have not certainly reached the highest state, which is beyond all actions, calm and setten, you are too dull even to do something wicked." That was an extreme case of course, and I was toking

Sometimes, I feel a desire to sell the Math and everything and distribute the money to the poor and destitute...
When I was in the western countries, I prayed to the Divine Mother, "Beople here are sleeping on a bed of flowers, they ear all kinds of delicacies, and what do they not enjoy? While people in our country are dying of starvation. Mother, will there be no way for them?" One of the objects of my going to the West to preach religion was to see if Ecould find any means for feeding the people

with him; but what I meant was that a man must be active, in order to pass through activity to perfect

calmness

God is present in every Jiva, there is no other God besides that, "Who serves Jiva, serves God indeed."

This body is born and it will die. If I have benable to initill a few of my ideas into you all, then I shill know that my birth bas not been in vain.

I was born for the life of a scholar-returd-quet -- Poring over my books. But the mother dupeness otherwise yer the cendency is there.

Today the Americans, our of love, have given me this nice leed and I have something to ear also. But I have not been dearined to enjoy physically, adjust on the matteresses only aggravates my illner, I fed suffocated as it were. I have to come down and been the floor for rehef

I do not see into the future, nor do I care to see. But, one vision I see clear as life before me that the

ancient Mother (India) has awakened once more, sitted on her throne, represented, more glorious than ever My teaching is my own interpretation of our ascient books, in the light which my Master shed upon them I claim no supernatural authority 1859 - A very funny thing happened today I went to a friend's house. 1899 - A very funny thing happened today I went to a firend's house. He has had a picture painted, the subject of which is Sri Krishna addressing Arjuns on the battlefield of Kurukshetra. Sri Krishna is standing in the chatrot, holding the reins in His band, and preaching the Gita to Arjuna. He showed me the picture and asked me how I like it. "Fairly well," I said. But as he misted on having my criticism on it, I had to give my homest opinion by saying. "There is nothing in it to commend itself to me; first, because the charict of the time of Sri Krishna wis

not like the modern Pagoda-shaped car, and also there is no expression in the figure of Sri Krishna The kings never used to fight in pagoda-chariots. There are chanots even today in Rajputana that greatly resemble the chariots of old.

"See the chariots in the pictures of Grecisi mythology. They have two wheels, and one mounts them from behind, we had that sort of chaint. What good mit to paint a picture if the details are wrong? An instorical picture come up to a standard of excellence when, after making proper study and research, things are portrayed exactly as they were at that period. The truth must be represented, otherwise the picture is nothing. To paint a really good picture requires as much talent as to produce a perfect drams."

I posed myself in the way in which Sri Krishna should be portrayed and continued, "Look here, thus does he hold the bridle of the horses, with their forelegs fighting the air and their mouths gaping. This will show a tremendous play of action in the figure of Sri Krishna. His friend, the world-renowned hero, casting aside his bow and arrows, has sunk down like a coward on the chariot, in the midst of the two arms. And Sr Krishna, whip in one hand and tiphtening the reins with the other, has turned Himself to Aruna, with his childlike face beauging with

CHAPTER IX
SECOND VISIT TO AMERICA
AND THE PARIS CONGRESS

June, 1899 - It took us two days to get out of the

Our ship reached the sea

There fell upon my ears the deep and sonorous music of commingled male and female voices, singing in chorus the British national anthem, "Rule Britannia, Britannia rules the waves." Startled, Hooked around and found that the ship was rolling heavily, and brother T - holding his head with his hands, was struggling against an attack of sea-suckness.

In the second class two Bengali youths were going to the West for study Their condition was worse. One of them looked so frightened that he would have been only too glad to scottle straight home if he were allowed to land These two lads and we two were the only Indians on the altho- the vertexentarives of modern India I

In the night of the 24th June, our ship reached Madras Getting up from bed in the morning, I found that we were within the enclosed space of the Madras harbour Within the harbour the water was still, but without twenting waves were roating, which occasionally dashing the harbour-wall, were shooting up lifteen or twenty fee high into the air and breaking in a nass of foam In fron 18 ythe well-known Strand Road of Madras Two Europeas.

bles boarded our ship and told me with great counter that "natives" were not allowed to land on the shore, by the Europeans were..., but the Madrasis had asked for a special permission for me. By degrees the Madrasi frierd began to come near our vessel on boats in small groups As all contact was strictly forbidden, we could only speak from the ship, keeping some space between I found al my friends - Alasinga, Biligiri, Narasimhachary, Dr Nanjunda Row, Kidi, and others on the boats. Basketial of mangoes, plantains, cocoanuts, cooked rice-and-curd and heaps of sweet and salt delicacies, etc began to come in Gradually the crowd thickened - men, women and children, and boats everywhere I found also Mr Chamier,

police inspectors, a Madrasi Jamadar and a dozen co

my English friend who had come out to Madras as a barrister-at-law. Ramakrishnananda and Nithhayananda made some trips near to the ship They insisted on staying on the boat the whole day in the hot sun, and I had to remonstrate with them, when they gave up the idea. As the news of my not being permitted to land got abroad, the crowd of boats began to increase still more. I, too, began to feel exhaustion from leaning against the

railings too long. Then I bade farewell to my Madrasi friends and entered my cabin Alasinga got no opportunity to consult with me about the Brahmavadin and the Madras work, so he was going to accompany me to Colombo. The ship left the harbour in the evening, when heard a great shout, and peeping through the cabin window, I found that about a thousand Madrass men, women and children who had been sitting on the harbour valls, gave this farewell shout when the ship statted.

1-5

One of them was certain he was going to die, and we had to console him with great difficulty, assuring him that there was nothing to be afraid of, as it was quite & common experience and nobody ever died of it. The second class, again, was right over the screw of the ship. The two Bengali lads, being "natives," were put into a cabin almost like a blackhole, where neither air nor light had any access. So the boys could not remain in the room and on the deck the rolling was terrible. Again, when the prow of the ship settled into the hollow of a wave and the stern was Ditched up, the screw rose clear our of the water and continued to wheel in the air, giving tremendous tolting to the whole vessel. And the second class then shook as when a rat is seized by a cat and ehaken t This was monsoon season. The more the ship proceeded, the more gale and wind she had to encounter. The Madrasis had given plenty of fruits, the greater part of

which and the sweets and rice-and-curd, etc. I gave to the boys Alasiman had burriedly bought a ticket and boarded the ship bareforeted. Editor of the Brahmavadin, Alasinga, a Mysore Brahmin of the Ramanuja sect, had brought with him with great care, as his provision for the woyage, two small bundles, in one of which there was fried flattered rice and in another proposed rice and fried.

It took us four days to go from Madras to Ceylon. That triing and heaving of waves which had commenced from the mouth of the Ganges began to uncrease at we advanced, and after we had left Madras. It increased still more The shop began to roll heavily, and the passengers were terribly use-sieck, and so were the two Benfall boxs.

Alasinga returned to Madras from Colombo, and we also got on board our ship, with presents of some lemons from the orchard of Kumaraswamy, some cocoanuts. two bottles of syrup, etc.

The ship left Colombo in the morning of 25th June (1899) Owing to the rolling of the ship, most of the passengers were suffering from headache. A little girl named Tootle was accompanying her father. She had lost her mother. Our Nivedita became mother to Toptle. Tootle was brought up in Mysore with her father who is a planter. I asked ber, "Tootle, how are you?" She replied. "This bungalow is not good and rolls very much.

which makes me sick" To her every house was a hundslow!

On the 14th of July, the steemer cleared the RelSte and teached Suez. The Suez Canal is now the link keween Futope and Asia.

This is a very beautiful natural barbour, runned almost on three sides by sandy mounds and billech, the water also so very deep. There are innumerable fish and slattle in it.

As soon as we heard of the sharks moving about behind the ship . I had never an opportunity m see Ire sharks - we hartened to the spor But our friends, the tharks, had moved off a little We were watchirg . had an hour, three quarters, we were almost eired of it when somebody announced - there he was Casting my eyes I found that at some distance, a huge black thing was moving towards us, six or seven inches below the surface of the water. The huge tlat head was visible. A gigantic fish. One of the second class passengers, a military manfound out a terrible book. To this, they tightly fastened two pounds of meat with a strong cord, and a stout cable iled to it. About six feet from it, a big piece of wood was attached to act as a float. Then the hook with the loat was dropped in the water. We in eagerness stood on tiptoe, leaning over the railing and anxiously waited or the shark Suddenly, about a hundred yards from he ship, something of the shape of a water carrier's

eather bag, but much larger, appeared above the surface if the water. The shark rushed close by and put the bart fish has, what struggles he made! He turned and turned in the water. Alas, he extricated himself from the bail. The shark fled, getting rid of the hook. And he was tiger-like, having black stripes over his body like a riger.

There, another huge flat - headed crature! Moving near the hook and examining the bait, he put it in his taws. He turned on his side and swallowed it whole lessurely When about to depart, immediately there was the pull from behind! "Flat-head" astonished, jerked his head and wanted to throw the bait off, but it made matters worse? The hook pierced him, and from above, men young and old began to pull violently at the cable, There, about half the shark's body was above water. Oh, what saws! The whole of it was clear of water. Now he was set on the deck. What a big shark! And with what a thud he fell on board the ship! The military man with body and clothes splashed with blood raised the beam and began to land heavy blows on the shark's head. I had my meal almost spoilt that day - everything smelt of that shark

The Suez Canal is a triumph of Canal engineering, it is also a thing of remote antiquity. By connecting the Mediterranean with the Red Sea, it has greatly facilitated commerce between Europe and India. Now comes the Mediterranean. It marks the end of Asia, Afrira and of ancient civilisation. We now enter Europe. The borders of this Mediterranean were the birth place of that European Civilisation which has now conquered the world.

great - I should say, excessive admiration.

Paris, in the year 1900 was the centre of the civilised world, for it was the year of the Paris Exhibition and there was an assemblage of eminent men and women from all quarters of the globe. The master minds of all countries had met in Paris to appread the glory of their respective countries by means of their genius From among that

white galaxy of genuses, there stepped forth one distinguished youthful hero to proclaim the name of our Motherland - it was the world-renowned scientist <u>Dr. J. C. Bose.</u> Alone, the youthful Bengali physicist, with his galvanic quickness charmed the Western audience with his safehald genus. Well done, here;

I took a round over the Parts Exhibition - that accumulated mass of dazzling ideas, like lightning held steady as it were, that unique assemblage of celestial panorama on earth!

In this Paris Exhibition, the Congress of the History of Religions sat for several days together. At the Congrest, there was no room for the discussions on the doctrines and spiritual views of any religion, its purpose was only to enquire into the historic evolution of the different forms of established faiths, and along with it other accompanying facts that are incidental to it Accordingly, the representation of the various missionary sects of different religions and their beliefs was entirely left out of account in this Congress. The Chicago Parliament of Religions was a grand affair and the representatives of many religious sects from all parts of the world were present in it This Congress, on the other hand, was attended only by such scholars as devoted themselves me the study of the origin and history of different religions. At the Chicago Parliament the influence of the Roman Catholics expected to establish their superiority over the Protestants without much opposition, by proclaiming their glory and strength and laying the bright side of their faith before the assem-

of the different religious systems so the Roman catholic are now particularly opposed to the repetition of any such gathering. France is a Roman catholic country, hence, in spite of the earnest wish of the authorities, no religious congress was convened on account of the vehement opposition on the part of the Roman Catholic world

ing their weakness, they hoped to make firm their 072 position. But the result proving otherwise, the Chimin world has been deplorably hopeless of the reconcilution

The Congress of the History of Religions at Paris

was like the Congress of Orientalists

From Asia only three Japanese Pandits were present at the Congress. From India, there was the present writer The conviction of many of the Sanskrit scholars of the West is that the Vedic religion is the outcome of the

worship of the fire, the sun and other awe - inspiring

objects of natural phenomena.

I was invited by the Paris Congress to contradict this conviction, and I promised to read a paper on the subject. But I could not keep my promise on account of all health and with difficulty was only able in be personally present at the Congress where I was most warmly received by all the western Sanskrit scholars whose

admiration for this scribe was all the greater, as they had already gone through many of my lectures on the Vedanta At the Congress, Mr. Gustav Oppert, a German and Calarama Cita

to him, the Siva Lingsm is the phallic emblem of the male, and the Salagrama of the female generative principle. And thus he wanted to establish that the worship of the Siva Linga and that of the Salagrama - both are but the component parts of the worship of Lingam and Yon!

I repudiated the above two views and said that though I had heard of such ridiculous explanations about the Siva Lingam, the other theory of the Salagramasila was quite new and strange, and seemed groundless to me

I also said that the worship of the Siva Lingam Originated from the famous hymn in the Atharva Vede Samhita sung in praise of the Yupastambha, the sacrificial post. In that hymn a description is found of the beginingless and endless Stambha or Skambha, and it is shown that the said Skambha is put in place of the eterna Brahman As, afterwards, the Yama (Sacrificial) fire tts smoke, ashes and flames, the Soma plant, and the or that used to carry on its back the wood for the Vedic sacrifice, gave place to the conceptions of the brightnes of Siva's body, his tawny matted hair, his blue throat, and the riding on the bull of the Siva, and so on Just so, the Yupa-Skambha gave place in time to the Siva-Lingar and was desired to the high Devahood of Sri Sankara I the Atharva Veda Sambita, the sacrificial cakes are also extolled along with the attributes of Brahman,

In the Linga Purana, the same hymn is expanded the shape of stories, meant to establish the glory of the great Stambba and the superjority of Mahadeva.

Again, there is another fact to be considered The Bauddhas used to erect memorial topes consecrated to the memory of Buddha, and the very poor, who were unable to build big monuments, used to express their devotion to him by dedicating miniature substitutes for them Similar instances are still in the case of Hindu temples it Banaras and other sacred places of India, where those who cannot afford to build temples, dedicate very small temple like constructions instead So, it might be quite probable that during the period of Buddhistic ascendency. the rich Hindus, in imitation of the Bauddhas, used to erect something as a memorial resembling their Skambba and the poor in a similar manner copied them on a reduced scale, and, afterwards, the miniature memorials of the poor Hindus became a new addition to the Skambha. One of the names of the Buddha Stupas (memorial

topes) ii Dhatugarbha, that is "metal-wombed." Within the Dhatu-garbha, sha small gares made of stone, shared like the present Salagrams, sived to preserve the asher, hones and other temains of the distinguished Buddha Bhitshus, along with gold, altere and other metals. The Salagrams-silas are natural atones resembling in form these artificially our stone-cases of the Bauddha Dhatugathha, and thus, being first worthyred by the Bauddha; gradually got into Vasthnavism, like many other forms of Buddhistic worthyr that Found their way into Hinduism. On the banks of the Narmada and in Nepal, the Buddhiston.

On the 28th Oct., at 9 P M, we again took that Orient Express train, which reached Constantinople on the 30th. These two nights and one day, the train ran through Hungary, Setha and Bulgaria.

Formetly, I had the notion that people of cold climates did not take hot chillies, which was merely a bad habit of warm climate people. But the habit of taking chillies, which we observed to begin with Hungary and which reached its chimax in Rumania, Bulgeria, etc. appeared to me to beat even the Madrassia.

The first view of Constentinople we had from the train. At the station we had great trouble over our books. Madamoiselle Calve and Jules Bois tried much, in

quarrel ended without further complications. They returned all the books with the exception of two which they heldback. They promised to send them to the botel immediately, which they never did. We went round the town and bazar of Stamboul, or Constantinople

So I and Miss M-got down at the first starton. It was decided that we would cross over the Scutari and see Pere Hyacinthe Not knowing the language we engaged a boat by signs merely, crossed over and hired a cartrage. On the way, we saw the sear of a Sulf Pakir.

We had a long talk with Pere. Hyacinthe about the American colleges, after which we went to an Arab shop where we met a Turkish student. Then we returned from Scutary - we had found out a boat but se failed to reach its exact destination However, we took a tram from the place where we were landed, and returned to our quarters at the hotel at Stamboul The Museum at Stamboul is situated where the ancient harem of the Greek Emperors once stood. We saw some remarkable sarcophagi and other things, and had a charming view of the city from above Tophaneh I enjoyed taking fried chick peas here after such a long time, and had spiced rice and some other dishes, prepared in the Turkish fashion. After visiting the cemetery, we went to see the ancient walls. Within the walls was the prison-a dreadful place. The next day, we again went to see these with Madamoistelle Melearyt, who explained to us various historical facts relating thereto. On the second day, we visited the semple of Olympian Zeus Theatre Dionysius etc. as far as the seashore. The third day, we set out for Fleutis. which was the chief religious seat of the Greeks. Here it was that the famous Eleusinian Mysteries used to be played. The ancient theatre of this place has been butle anew by a sich Greek. The Olympian cames too have been revived in the present times. At 10 A M on the fourth day, we got on board the Russian Steamer. Czar. bound for Egypt After reaching the deck, we came to learn that the steamer was to start at 4 P M - perhaps. we were too eatly or there would be some extra delay in loading the cargo. So having no other alternative we went found and made a cursory acquaintance with the sculpture of Agaladas and his three pupils, Phidias, Myron. and Polycletus, who flourished between 576 B C and 486 B. C. Even here, we began to feel the great heat. No ice was available in this steamer. From a visit to the Louvre Museum in Paris, I came to understand the three stages of Greek art.

Port Tewfick: 26-11-1900 - The steamer was late, so I am wasting. Thank goodness, so entered the canal this morning at Port Said. That means it will arrive some time in the evening if everything goes right.

## CHAPTER X THE LAST DAYS

Lat anoir (24-6-1832) Belur Moth 11-12-1900 - I arrived night before last. Alas ! my hurrying was of no use. Poor Captain Sevier has passed away, a few days ago, thus two Great Englishmen gave up their lives for us, the Hindus This is martyrdom if anything is.

He was cremated on the banks of the river that flows by his Ashrama, a la Hindu, covered with garlands, the Brahmins carrying the body and boys chanting the Vedas

Dear Mrs. Sevier is calm I am going up tomorrow to pay her a visit.

15-12-1900 - Three days ago. I reached here. It was quite unexpected, and everybody was so surprised

26-12-1900 - I am going to Mayavati tomorrow

Mayavatt: 6-1-1901 - The first day's touch of Calcutta brought the asthma back, and every night I used to get a fit during the two weeks I was there I am however very well in the Himalayas

It is snowing heavily here, and I was caught in a blizzard on the way; but, it is not very cold, all this exposure to the snows for two days on my way here seems to bave do

unhill about a mile.

s deep, the sun

is bright and glorious, and now in the middle of the we are sitting cutride reading, and the snow all about The winter here is very mild in spite of the now ares dry and balmy, and the water beyond all price.

Belur Math 26-1-1901 - I went to see Severe in Mayavata. On my way, Hearnedoftheri death of the Rays of Kherri. It appears he was more some old architectural monument at Agia, at bis expense, and was up some tower on inspection. Fin the tower came down, and he was instantly billed.

Dacca 29-3-1901 - My mother, aunt and cocame over five days ago to Dacca, as there was a Bsacred bath in the Brahmspurra river. Wheneve patiticular conjunction of planters takes place, which very rare, a huge concourse of people gather on them a particular spor. This year, there has been more the a hundred thousand people, for miles the river was con-

ed with boats.

I am rather enjoying Dacca I am going to take m mother and other ladies to Chandranath, a holy place is the eastern - most corner of Bengal

I liked East Bengal on the whole, The fields, I saw were rich in crops, the climate also in good, and the scenery on the bill-side is charming. The Brahmaputt valley is incomparable in beauty. The people of East Bengal are a little stronger and more active than those of this (West Bengal). It may be due to their taking plenty of fish and meat. Whatever they do, they do with great Persistence. They use a good deal of oil and fat in their food, which is not good, because taking too much oily and fatty good produces far in the body

About religious ideas. I noticed the people are very conservative, and many have turned into fanatics in trying to be liberal in religion. One day, a young man brought to me in the house of Mohinini Babu at Dacca a photograph and said, "Sir, pleas cell me who he is Is he an Avstars?" I told him gently many times that I have nothing of it, when even on my telling him three or four times, the boy did not cease from his persistent Questioning, I was constrained to say at last, "My boy, henceforth take a little nutritious food and then your brain will develop. Without nourishing food, I see your brain will develop. Without nourishing food, I see your brain has become dired up." At these words, the young man may have been very much displeased. But, what could I do? Unless I spoke like this to the boys, they would curn into madeans by degrees.

People may call their Guru an Avatara, they may have any idea of him they like But, Incarnations of God are not born anywhere and at all seasons At Dacca itself, I heard there were three or four Avataras!

The women are very nearly the same everywhere I found Vaishnavism strong at Dacca

Going so far, I could not return without visiting the bitthplace of such a great soul as Nag Mahashaya His

wife fed me with many delicacies prepared with het mand. The house is charming, like a peace rere There I took a swimming hath me a village pond Ait that, I had such a sound sleep that I woke at half P two in the afternoon Of the few days, I had sound he me my life, that in Nag Mahashaya's house was me Rising from sleep, I had a plentiful repast. Nag Mishaya's wife presented me a cloth which I tied round is head as a turban and started for Dacca. I found that photograph of Nag Mahashaya was being worshipped there. The place where his remains lie interred ought he well kept. Even now it is not as it should be.

Even while living the life of a householder, Nr. Mahashaya was more than a Sannyasin. This is ver, uncommon; I have rarely seen one like him

Decidedly, without a shadow of doubt, Nag Mihshaya was the living personfication of humility in the play of Sr. Ramakrishna's divine drama on earth..Sn Ramakrishna used to speak of Nag Mahashaya as a "flaming fire."

All the characteristics of the highest type of Bhakti spoken of in the scriptures have mainfested themselves in Nag Mahshaya. It is only in him that we actually see fulfilled the widely quoted text.

्रिणादिष सुनीचेन सरोशि महिष्णुना । असानिना सानदेन कोर्तनोशः सदावदिः ॥ Blessed indeed si East Bengal to have been hallowed by the touch of Nag Mahashaya's feet !

How can ordinary people appreciate a great manlike ompany are blessed indeed.

The land that has produced a great soul like Nag Mahashaya III blessed and has a hopeful future. By the light of his personality, Eastern Bengal is radiant.

There in East Bengal, they used to make such fuss about my food and say, "Why should you eat that food or eat from the hands of such and such?"—and so on To which I had to reply—"I am a Sannyasin and a mendicant frair and what need have I to observe so much outward formality with regard to food etc. Do not your scriptures say—"dramyself glonde 2\*xygsrff?" \"One should beg one's food from door to door, aye even from the house of an outcast."

The Shillough hils are very beautiful There I met Str Henry Cotton, the Chief Commissioner of Assam He saked me, "Swamm, after travelling through Europe and America, what have you come to see here in these dutant hills." Such a good and kind-hearted man as Sir Henry Cotton is rarely found Hearing of my illness, he sent the Civil Surgeon and inquired after my health morning and evening. I could not do much lecturing there, because my health was very bad On the way Nital served and looked after me nicky

Kamshiya is the land of the Tantras I heard of one "Hinkar" Deva who is worshipped there as an Avatra. I heard his feet is very widespread I could not accertain if "Hanhar" Deva was but another form of the name of Sankaracharya. They are monks perhaps, Tantrika Sannyasins OT perhaps, one of the Sankara sects.

V Math: 15-5-1901 - I have just returned from my

Helar Math. 14-6-1901 - At Shillon, the Estances and Assam, I had fever, Asthma, increase de "waren, an I my body swelled to almost retice internal acre. There symptoms subuded, however, as soon as i reached the Math. It is dreadfully hot this year, but a but of rain has commerced, and I hope we will soon have the monitors in full force. I have no plans just row except that the Bombay Peridency wants me so urgenly that Ithiak of gious there soon.

Belur Math 5-7-1901 - My health has been and is very had I recover for a few days only: then comes the inevitable relapse. Well, this is the nature of the

Assam is, next to Kashmer, the most beautiful country in India, but very unhealthy. The huge Brahmaputra winding in and out of mountains and hills, studded with Islands, is, of course, worth one's while to see

Belur Math.: 27-8-1901 - My health in getting worse, in fact everyday ...

I am in a sense a retired man. I don't keep much note of what is going on about the Movement.

Belur Math. 7-9-01 - It has been raming here day and night last three days. Two of our cows have calved.

The shape and the embossed work on it simply channel him, but as 11 is common earthenware and would not be the outness of the common earthenware and would not be the journey he left a request with me to have it repoduced in brass. He also offers to show old paintings in that wonderful style Only one family is left in Banaras who can paint after the old style yet. One of them has painted a whole huning scene on a pea, perfect in detail and action!

of a world one can bring a little 109 and peace even for a

Belur Math. 21-4-1902 - The plan of going to Japan seems to have come to nought.

Belur Math 21-4-1902-1 am getting on splendidly, they say, but yet very weak and no water to drink Anyhow the chemical analysis shows a great improvement. The swelling about the feet, and other complaints tave all disappeared.

Belur Math · 15-5-1902 - I am somewhat better,

but, of course, far from what I expected A great idea of quiet has come upon me I am going to retire for good-no more work for me

If ever a man found the vanity of things, I have it now .... This is the world, hideous beastly corpse Mho thinks of helping it is a fool! But we have to work out our slavery by doing good or evil I have worked it out I hope. May the Lord take me to the other shore!

To set the work going. I had to touch money and property, for a time Now I am sure my part of the work

Even its teligious utility is beginning to pall me. May Mother gather me soon to Herself never to come back any more?

I have given up the bondage of iron, the family the lam not to take up the golden chain of religious brother-hood! I am free, must always be free, I am as good a retired. I have played my part in the world

I had a message from India to the West, and boldig I gave it to the American and English peoples.

I have worked my best If there is any seed of trust

in it, it will come to life. I am satisfied in my conteience that I did not remain an idle Swami. I have a notebool which has travelled with me all over the world. I fine the words written seven years ago. "Now to seek is conter and lay myself there to die!" Yet, all this Karmi remained.

Through Maya all this doing good etc, came into my brain - now they are leaving me, I long. Oh, I long for my rags, my shaven head, my sleep under the trees and my food from begging! Never before in my life I realised more forcibly the vanity of the world

I have roused a good many of our people, that was Il I wanted Let things have their course and Karma its cay I have no bonds here I have seen life and it is all elf - life is for self, love for self, honour for self, everyhing for self. I look back and scarcely find any action I ave done for self, even my wacked deeds were not for il. So I am content . .. I have seen the truth -let

that the work done by me is not the work of Vivekadanda, it is His work—Lord's own work! If one Governor-Gene ral retures, another is sure to be sent in his place by the Emperor.

"As the birds which have slept in the branches of a tree wake up, singing when the dawn comes, and soar up into the deep blue sky, so is the end of my life."

I have had many difficulties, and also some very great successes But all my difficulties and sufferings count for nothing, as I have succeeded <u>I have attained my aim</u> I have found the pearl for which I dived into the ocean of life, I have been rewarded. I am pleased.

I see the cloud lifting, vanishing, the cloud of my bad Karma, and the sun of my good karma rises, shining, beautiful and powerful.

I think I am beginning to see the Divine, I think I am thousy approaching that state when I shall be able to love the very "Devil" himself, if there were any.

At wenty years of age, I was the most unsympathetic, uncompromining fannic; I would not walk on the foot-path, on the theatre side of the streets in Calcutta At thirtythree, I could live in the same house with prostitutes and never would think of saying a word of reproach the same house with productions of the same for the same

thing and embrace everything, and I do see that evil 15 #
